Capwell, of Elmwood post, who told of what has been accomplished at The two Henry's this time to get Elmwood in the way of securing & a post of only twenty members, and of which has been paid off in the comparatively short time the post has been applying its activities money

on the debt. The Omaha architect, Ernest F.

The building will be 60x120 feet in size, with basement clong the east side to accommodate two furnaces, where the newly married couple will am prepared for your work in this front to supply heat to the committee make their home in the future. The line either in repairing or new work. rooms and help heat the main auditorium when it is used. The other part of the basement will house the kitchen and a banquet room that will suffice for small gatherings not large enough to require use of the main auditorium.

on one side and ladies' rest room on the other side of the entrance on the main floor. The second floor will be given over to Legion and Legion Auxiliary club rooms. Back of these will extend a balcony of some twenty Col. Rex Young, Auctioneer. the building balconies seven feet in Heary Tool, Clerk. feet in depth and along the sides of depth will be supported from the structural steel roof. These will eccommodate two rows of seats and be valuable at basket ball games, 859.37 be accommodated very nicely.

At the rear a stage 17 feet in 4.900.00 depth, with 30 foot opening and dressing rooms at the sides on the main floor, and conference rooms in the upper part will be included in 139.72 the plans.

The main entrance will be at the sanitary provision and with daily front of the building with an exit on habits of health. the east side to the driveway, where people may step out under a canopy into their cars.

The main auditorium will be 58 by 84 feet and a maple dance floor will be laid there. Under the rule of six square feet to each person, the seating capacity of this room will be around 800. In addition upwards of 200 more can be accommodated in the balconies.

On further completion and acceptcut will be made for publication, so pearance of the building can be had

THE CONTAGION OF HEALTH

New York Times: Christendom has been taught that "evil communications corrupt good manners." Since Shakespeare's time the English-speaking world has had the notion that while the good is often MURDOCK

1. O. J. Pothest, Cashier of the above hard in the grave, all evil that men do lives after them. In recent times the constant instruction has been to avoid contagious disease, in one form or another.

Dr. E. E. Slosson's hint that, after all, health may also be contagious comes as news. To be sure, it is derived from a few cases of rachitis. otherwise rickets. It is reported that rats suffering from rickets due to defective diet and darkness "could be cured" by putting into their cage rats reared in the sunshine. Such "evil communication" with rickety rats it would be held under old theories could result only in harm to the non-rickety rats. But in this modern experiment the layman For the present, however, it will
