SUPREME COURT DENIES REHEARING TO QUINTON

State Court Denies the Motion of Attorneys for the Former Cass County Sheriff Yesterday.

From Saturday's Daily—
The long legal battle that followed the indictment here by the grand jury in November, 1923, of C. D. Mr. Quinton after his indictment here was tried on eight counts in the district court and acquitted on two counts that covering the charge of protecting bootleggers, but was convicted on six charging failure to file his quarterly reports as required by law and failure to properly account for fees in the office.

TEST OUT NEW LINE

From Friday's Daily—
The Nebraska Gas & Electric Co. has now completed their new high voltage line that extends from this city to Lincoln and which is one of the best and most up to date transmission lines in the west. The work has required several months to complete and is one of the most costly improvements that the company has made in recent years but will give them a real line of power to supply the towns in the southeastern portion of the state.

The line was tested out this week, current being turned on Wednesday noon and continued until yesterday noon, but the use of the line permanently will not be started until later as there are several minor improvements that must be made before the line is effective for general use.

N. S. D. FIVE WINS FROM PLATTSMOUTH QUINTET

From Saturday's Daily—
The Plattsmouth High school basketball team ran into some tough opposition last night when they journeyed to Omaha to meet the cunning against the Nebraska School For the Deaf. The Omahans took the winning end of a 28 to 10 score. The deaf school team was composed of all letter men and proved to be no easy practice game as they are always regarded as the best in the city (for Plattsmouth) regularly, and with the added advantage of a narrow floor practically had the blue and white at their mercy. The locals inability to hit the basket again was glaringly shown last night as they could not seem to make their throws count.

CULLOM FARMER WANTS DAMAGE PAID BY THE "Q"

Chris Parkening and John Parkening Ask Sum of \$2,990 For Flooding of Their Farm Land.

From Saturday's Daily—
This morning an action was filed in the office of Clerk of the District Court Beal, by Chris Parkening and John Parkening, in which they ask damage from the Chicago, Burlington & Quincy railroad in the sum of \$2,990, as the result of flooding of their farm lands.

In their petition the plaintiffs state that they are the owners of farm land along which runs the right of way of the defendant railroad company and that on the farm is a small creek that carries off surface water in time of rain and which flows toward the right of way of the railroad.

It is alleged by the plaintiffs that the defendant railroad company erected an embankment along the right of way and neglected to place in the embankment pipes and openings of the proper size to allow the flow of water that had accumulated in the creek and along the right of way and that in consequence the lands of the plaintiffs and the crops were damaged by water standing on the land as the result of the stopping of the natural drainage.

For the damage claimed to have been sustained by the plaintiff they ask the sum of \$2,990.

GET BUSY WITH THE GOOD ROADS MOVEMENT HERE

Start Agitation Now For Creation of Permanent Roads Here in Cass County.

From Saturday's Daily—
While the experiences of the past two months are fresh in the minds of the residents out over Cass county and while the farmers are still held in their homes by the impassable roads—this is the time to start the good roads movement in this county that can be traveled by the general public at any season of the year.

Opposition to the roads on account of the cost should be weighed with what loss the people have to stand by not having gravelled roads in this county that can be traveled by the general public at any season of the year.

Those who have been compelled to drive their cars out over the highways in the last few weeks have paid in damage to their cars, loss of time and inconvenience many times what they would have to pay if the roads had been of a character that they could be used.

Around our county the agitation for permanent roads is bearing fruit and in both Oneida and Sarpy counties there are new gravelled roads being planned for the coming summer that will add to the already miles of good roads that they have and leave Cass county still in the mud and ruts of dirt roads that in the winter season become so that they cannot be traveled upon.

The county each year has to come through with thousands of dollars to fix up the dirt roads and maybe in a week, or at the least a few months, this sum is necessary to duplicate as the roads have become impassable, full of ruts or mud or in the winter a combination of both. The original outlay of gravelled roads would more than pay for itself in saving the amount of money necessary to spend on road work that must be done over and over again.

The good roads question reaches every country home and every town in the county and some definite action should be made to see that the main highways are made so that they may be traveled and gradually the system extended over into all of the roads where there is any travel to amount to anything.

NEHAWKA WINS TWO GAMES

The Nehawka and Murdock high school teams met in an evening of basketball at the auditorium at Nehawka on Tuesday evening before a very large and well pleased audience and as the result of the battle the two Nehawka teams were victorious.

The girls game resulted in a score of 41 for the Nehawka ladies and 22 for the Murdock girls and was hard fought throughout.

In the boys game Murdock was handicapped by the fact that their star forward was out of the game on account of sickness and which weakened the team to a large extent. The score of the game was Nehawka, 25; Murdock, 19.

The game was filled with enthusiasm and noise and the boys and the girls in the ranks of the rooters made a real demonstration for their respective teams.
