ECLIPSE OF SUN IS HIDDEN BY CLOUDS THIS MORNING

Eighty-Seven Per Cent Obscuration of Sun Shown in Very Dark Conditions Early Today.

From Saturday's Daily—

The moon in its journey around its circuit today passed between the earth and the sun and for a few moments the shadow of the queen of night was visible on the earth, the total obscuration prevailing in a narrow stretch of territory through Minnesota and Wisconsin and thence on southeasterly to the Atlantic seaboard.

The eclipse in this section was 87 per cent of obscuration but the clouds that gathered in the day break prevented any observation of the shadow of the sun and the only sign of the eclipse was the extreme dark

conditions that prevailed in the cloudy weather from 7:45 to 9 o'clock when the shadow passed from in front of the sun.

Those who failed to see the eclipse today will have to wait until June 1954 for another try at the view of the sun and at that time it will be 96 per cent obscured in this territory.

The present eclipse is the greatest that has been visible in this territory since 1869.

A total eclipse is visible at any one point, it is said, only about once in 350 years, so those who resided in the main path of the eclipse will not have a chance to again see an eclipse in their lifetime.

At each of the gatherings there were sixteen of the friends present and the occasions will be very pleasantly remembered by those who were fortunate enough to be in attendance. The color scheme of the social events were in red, the deep hued candles and nut cups adding a pleasing touch to the general plan of decoration.

MOVEMENT TO PREVENT A REPETITION OF FLOOD

In order to prevent future damage to property in the north part of town from the overflowing of Mill creek, caused by the blocking of the pile bridge maintained by the Missouri Pacific Railway company near the semaphore, the matter has been taken up with the railway commission, and as a result the Missouri Pacific will construct a new bridge with a clearance of 46 feet. They will also raise their track two feet and the Burlington will raise their bridge and raise the feet. This will necessitate the raising and widening of the county bridge to conform to the proposed railroad bridges.

The Burlington will also throw up a dike along the north bank of the creek and will clean out the big ditch west of the Duff elevator, so that the bottom land may be drained. The commission also requests that the creek be straightened where the abrupt curve occurs to prevent an overflow of the Burlington house tracks. This expense will have to be borne by the village.—Louisville Courier.

The Misses Marion and Mildred Walker, who are teaching in the city schools, departed this morning for Omaha where they will meet their father who is coming from the west portion of the state and who will spend Sunday with them in Omaha.

OLD TIME RESIDENT OF PLATTSMOUTH AT WANAMAKER'S

William Geyger, Who Started in Furniture Game Here, Head of Department There.

In the issue of the Saturday Evening Post there appeared a large advertisement of the furniture department of the Wanamaker store at Philadelphia and which to a number of the older residents brought the fact to mind that a former resident here was at the head of this end of the big easterly store.

In many years ago in the early eighties that Will Geyger was a resident of Plattsmouth where his parents, Mr. and Mrs. G. F. Geyger had located at an early date, and "Willie," as he was known then, entered the employ of the store of his uncle, the late Henry Boeck, and from a general utility man around the store he soon made a great showing as a salesman and was allowed by Mr. Boeck to look after the sale of the goods in the store and proved a real business success. He, after a few years, accepted a position with Dewey & Stone, then the leading furniture house of Omaha and the west and from where he entered the Wanamaker stores in the east and made a decided success of his work in this line. After locating in the east, Mr. Geyger returned to this city and was married to a niece of Mr. and Mrs. Boeck.

The ad in the paper, like ships that pass in the night, recalled to the minds of the old time friends the story of the successful career of this former resident.

GAS SAVERS IN NEW YORK CITY

From Saturday's Daily—

The Bertschy plant in this city which manufactures the Duplex By-Pass gasoline saver has just received an order of twenty of these up to

date devices for cutting the gas consumption of autos and also securing greater mileage from them, from New York City. The Chicago Yellow Cab company which is installing the by-pass on their cars and expects to make a saving of several thousand dollars each year, has interested the New York concern in them and the tests have proven that they are real money savers in cutting down the amount of gasoline used and also in keeping the engines in better shape by lessening the carbon that forms as this is removed by the use of the By-Pass. The shipment of the By-Pass to New York will be made at once from Chicago and more of them sent to Chicago to supply the demand.

JOE KREJCI OUT

From Saturday's Daily—

Joe Krejci, who was elected captain of the 1924 basketball team of the high school and who has been prevented from playing this season by reason of having his leg broken in the football game at Nebraska City on Thanksgiving day, was present last night at the Plattsmouth-Beatrice game, the first that he has been able to attend. The injured leg will keep Joe from playing this season and his loss at center has proven a real handicap to his teammates but they have very creditably fought out the games and working to secure a replacement of their star at the center position. It was most pleasing to Joe's host of friends to see him be able to be out and enjoy the game and he received a very hearty greeting and cheer from his teammates and the school rooters who were present at the game last night.
