

Union Department

Prepared Exclusively for The Journal.

A. R. Dowler of Weeping Water was looking after some business in Union last Monday.

Fred C. Liville shelled and delivered corn to the Union elevators on Monday of this week.

George A. Stites was looking after some business matters in Nebraska City for the day last Monday, making the trip in his auto.

E. McCowen was a visitor in Lincoln last Monday, going to secure a place to live as he will expect soon to move to that place.

Mrs. J. M. Patterson with her two children, Thomas and Jane, were visiting in Plattsmouth last Sunday, staying for a few days.

James Bakke was a visitor in Nebraska last Sunday and a guest at the home of his brother, Charles Bakke during his visit there.

Mr. and Mrs. Earl Merritt were visiting and looking after some business matters in Omaha last Saturday, they making the trip with their car.

Mr. and Mrs. John Chidester, accompanied by Mrs. W. A. Taylor, were visiting and looking after some shopping in Nebraska City last Monday afternoon.

Charles Hoback and the family were visiting with friends and also doing some shopping in Nebraska City last Saturday making the trip in their auto.

Mr. and Mrs. Ray Frans were at Murray last Monday afternoon, going to attend the funeral of their old friend, Mr. D. J. Pitman, who died last Saturday.

The Rev. C. L. Elliott who by occupation was formerly a paperhanger, finds time heavy on his hands and has concluded to cheat temptation, and will hang paper during the rush season this spring.

L. W. Crawford has been kept to his home in Union by an attack of the quinsy which was rather serious and which has made life have not so many roses as would be pleasing to our contractor and builder.

Here is another sign of spring, the matter of getting the home in the spring atmosphere is a sure sign that the winter is about gone, notwithstanding the groundhog. Earl Merritt is this week hanging some paper at home of J. W. Pitman.

Mrs. R. M. Taylor who has been in

poor health for some time past, was taken to Omaha where she entered the hospital for treatment, going one day this week and will endeavor to have her health improved by treatment and proper care.

On account of a man who was staying on the place of Elmer Withrow, caring for stock, moving away, Elmer had to move back on the place to look after things there. Mr. and Mrs. Withrow had moved to town in order that the little girl would be more convenient to school. Now they will have to bring her to school in the mornings.

George Greene, who has been with the United States army for the past year, was mustered out last Saturday on account of poor health at Ft. Hamilton, N. Y., and returned home, arriving here on Monday of this week. Mr. Greene who is again a private citizen will stay around here and recruit his falling health, as he has not been very well during the time he has been away.

Mr. and Mrs. M. Lynde who have been in the west and who are so enamored with that place that they have concluded to make their home there and came here to dispose of their property, were visitors at the home of their friends, George S. Ray and wife on the highway between Union and Murray.

The Possible Twenty-Five

The boys of Union tried the blue rocks again last Sunday and the high peaks changed their location and while some had some very flattering records others were not quite so high. The record shows that the following was about the general average with a good deal of enjoyment mixed in: Bramblett, 13; Bauer, 21; Hathaway, 19; Clark, 20; Barrett, 16.

Celebrated 78th Birthday

Last Monday, February 20, was the passing of the natal day of Geo. Eaton, he having been born in Iowa in 1846, and when just twenty years of age came to Nebraska and to near Union where he has made his home ever since. He owned a goodly number of acres of very fine land east of Union, but has been making his home in town for some time. The boys on last Monday got together and provided the eats and smokes for Uncle George and showed him a good time.

Judge Lynn Holds Court

Last Monday was the first time since being inducted into office that it has been necessary for Judge Daniel Lynn to convene court and the business before the court was the passing on an important question in the shape of a motion which had come before him.

Part of Nebraska History

On account of the passing of the late Robert B. Windham at Plattsmouth a week or more since, it was charged to the mind of Attorney C. L. Graves, who was a great admirer of the late Mr. Windham, looking over the passage of some acts of the former legislatures, found that in 1879, which is crowding the half century mark pretty closely, that Mr. Windham introduced a bill creating the state reform school at Kearney which was established that same year. At that time Orlando Tefft

ENGINEERS LOOK FOR SITE OF NEW WAGON BRIDGE

Plan For New Bridge Over Platte River North of Here; To Be Located East of Old One.

From Wednesday's Daily—

In the last few days engineers from Lincoln have been working on making the surveys and planning the location of the proposed new King of Trails auto and wagon bridge that will be placed across the Platte river north of this city, the coming summer, according to the plans of the bridge company just recently organized.

The engineers have staked out the route for the road and new bridge that will bring it close to 400 feet east of where the present bridge is located and which is the first step in the work planned for the erection of the new structure.

The King of Trails bridge company is calling for bids for the construction of a bridge 1,200 feet long, 115 and incidental work, which are to be opened on April 2nd at the Chamber of Commerce rooms in Omaha.

The surveying and letting of bids will mark the active starting of the work and in the call for bids, the completion of the structure by August 1st is requested by the company.

From Wednesday's Daily—

The danger from ice gorges in the Platte river north of this city seems to be practically over as the channels are now open and the ice moving out very nicely and without doing any serious damage to any of the bridges there.

The heavy ice of Sunday which struck the ice breaks on the north portion of the auto and wagon bridge, did not inflict any serious damage, the reports from the bridge state, which was very fortunate as the heavy cakes that came through Sunday for a time threatened to do much damage.

While the river is clearing up of ice there are some needed repairs and strengthening being done on the auto bridge by Mr. T. H. Pollock, owner, who has a force of men and machinery there placing the bridge in the best of shape for the opening of the spring travel over this structure.

During the time that will be required for the repair work, estimated at two days, the bridge is closed to travel as the constant passing of cars and trucks interferes with the workmen and delays their completion of the job of re-enforcing and strengthening the bridge structure. The work is being rushed and by the last of the week it is expected that the bridge will be in first class shape for travel as today and Thursday are expected to see the work all completed.

FINED FOR INTOXICATION

From Monday's Daily—

This morning the story of human weakness and the glittering red of before Court Judge H. Duxbury, when Robert Moore, who was arrested Saturday night by Constable Tom Svoboda, was brought before him for trial. Robert acknowledged that he may have partaken too freely of the juice of the corn and which had involved him in trouble at the result of his confession was given a fine of \$10 and costs which he settled and was allowed to go on his way rejoicing that he was free but filled with remorse at his straying from the straight and narrow way that the good are supposed to travel upon.

W. H. Melsinger and brother, Alie Melsinger of near Cedar Creek were here today looking after some matters of business.

Dick March, who has been spending the past three weeks visiting with relatives and friends in western Illinois, returned home this morning on the early Bullington train.

Cylinder Regrinding

Regrinding by the wet process produces an accurate bore with mirror finish, not obtainable by any other method.

\$2.00 to \$4.00

New rings, new pistons, or both, are a waste of time and money unless the cylinders are first properly conditioned.

Complete motor overhauling; jobs guaranteed for one year. Estimates by mail or personal interview only.

Never before a value to equal this Special Six Sedan—at \$1985

At this new low price—the Special Six Sedan stands out as the most compelling value that Studebaker has ever offered.

Here is a car that provides all of the performance, all of the comfort and all of the dependability that any car can give—at a price that no other producer can even approach.

But why mention the distinctive features of this car, when the American public itself has established the greatest of all selling arguments in its favor by buying it?

Its low price is due to Studebaker's uniquely fortunate manufacturing facilities. It is produced complete in large volume in Studebaker plants, where production costs are shared by three distinct models, which are offered in 19 body types.

Don't make the mistake of buying before you know what Studebaker has to offer. Come in and see the Special Six Sedan—learn what it offers at its reduced price.

Get all the facts before you decide to buy any car.

Full-sized balloon tires, for which steering mechanism, body lines and even the fenders were especially designed. Automatic spark control. Lights controlled from switch on steering wheel. Upholstered in genuine mohair. Natural wood wheels. Dome and rear-corner lights. One-piece windshield cleaner, rear-view mirror. Inspection lamp. Motometer, heater. Instruments, including clock and gasoline gauge, in single grouping. Step pads and kick plates.
