BIBLE SCHOOL LESSON Sunday, February 22 By M. S. Briggs

American Citizenship. Leading Thought: "Thou shalt love thy neighbor as thyself."—Romans 13:9.

Do you believe in paying your taxes; are you anxious to list your property high enough when the assessor comes around? Do you feel like placing a more conservative estimate on your real financial status when you are desirous of securing a loan? Do you want the roads worked and made the best near your farm and adding to the value of your property? Are you sure you would strictly observe the rules of the game if the oversight would materially benefit you?

Now for what purpose were governments instituted among men? When men get together to form rules governing themselves, their organizations or for the government of the people as a whole they must make way that equal and exact justice should be done by all and to all as well, what is behind this desire that all be accorded a square deal. We should love our neighbor as we do ourselves, else we in justice cannot expect the same from that neighbor.

Why do we display "Old Glory" on our nation's natal day and the many other manifestations which would proclaim us the best citizens?

We are calling the subject of this lesson this day, "American Citizenship" with us cannot help but be "Good Citizenship," as the lesson is very appropriately styled.

We boast of our American citizenship and well we might for this is the greatest nation of earth and as such there is laid on us the greatest responsibility of any nation on earth. Now we are thinking that there could be no one who would object to laws and sufficient force to protect our lives, the lives of our families, the protection of our homes, the purity of our mothers, our sisters and sweethearts, we would all agree on that we as a people have gotten behind this proposition and would fight for it. Patriotism demands that we fight for home and country and most of us would do this and we call the fellow who wouldn't a slacker and a traitor, and so we would be should we who had received an injury of this kind from an outlaw or a libertine, welcoming them into our homes and we all agree that the will of the people in so far as it touches us and we want that law enforced, that it should be. And we think that any one who should break or seek to break those laws or protect one who should break them or be deaf or blind to the fact that laws were being destroyed by some of the people to the detriment of the many, were not good citizens in the real meaning of the term.

That seems good and fair and essential when we agree as touching the justness of the law. But how about it where we are not satisfied with the law. We were against the measure in the first place. We fought it. But the majority of the people supported it and it became the law of the land. Now since it has, are we required to stand behind the measure, or is it our policy to place everything in the way of the proper functioning of the law and neglect and refuse to furnish the evidence and help necessary to apprehend and

punish those who break the laws? Are we good citizens? The law does not have to please us, but all the people have enacted the law—it is the same people who protect our homes, who insure our safety and welfare. We expect their help when it comes to a case where our interest is involved. Then when this is the case, why not as loyal friends, loyal citizens, stand behind all laws which the great common people have made?

If we do this we are good citizens, good Americans and are assisting others to be the same.

But how about those who do not do this when we know that some libertine is endeavoring to entice the neighbor's daughter that he may ruin her or their son that they may debauch him—who wink at the infraction of laws which they do not like. Are we then, good citizens; are we truly American, which name stands next to that of Christian?

I do not believe unless we stand four-square for the enforcement of the laws, we are entitled to be classed as best American citizens or even American citizens at all. For that means something higher than one who endeavors to prevent the working of the will of the whole people.

"Owe no man anything, save to love one another for he that loveth his neighbors hath fulfilled the law."

"For this, thou shalt not commit adultery, thou shalt not kill, thou shalt not steal, thou shalt not covet, and all other commands are summed up in this, 'Thou shalt love thy neighbor as thyself.'"

"Love worketh no ill to his neighbor; Love therefore is the fulfillment of the law."

Render to every man his dues, tribute to whom tribute is due, custom to whom custom, fear to whom fear and honor to whom honor. When you have done this you have fulfilled the law and are accorded the title of a good citizen.

And like the "Honest Man" you are the handiwork of God, God and Country expects every man to do his full duty. The government is just as good or bad as we want it. Let our lives reflect our ideal of good citizenship. Living in good citizenship towards God and our fellow man.

"My country 'tis of thee, sweet land of liberty; Of thee I sing, land where my fathers died— Land of the Pilgrims' pride— From every mountain side, let freedom ring! My native country thee, Land of the noble free; Thy name I love; I love thy rocks and rills; Thy woods and templed hills; My heart with rapture thrills, like that above. Let music swell the breeze and ring from all the trees; Sweet Freedom's song, let mortal tongues awake— Let all who breathe partake! Let rocks their silence break; the sound prolong. Our fathers' God, to thee, Author of Liberty, we dedicate thee. 'Long may our land be bright, With Freedom's holy light. Protect us by thy might, great God, our King.'"

ENTERTAINS FOR GUEST. Yesterday Mrs. Allen J. Beeson and Mrs. Luke L. Wiles were hostesses at a Saturday afternoon dinner party at "Clover Lodge" the Beeson country home west of this city in honor of Mrs. Ida Kenegay of Beatrice, who was a house guest of Mrs. William Baird over the week end.
