LADIES' PRETTY NEW

Spring Coats Dresses Hats

All the new colors and styles at prices that you cannot resist. Come in and let us show you these pretty new Creations.

Ready-to-Wear Department.

DEATH OF ELLIS LEE OCCURS AT PACIFIC JUNCTION

Grandfather of Mrs. Joe Bulin of This City, Buried Monday at Pacific Junction, Iowa.

From Wednesday's Daily—
Pacific Junction community and in fact all the west side of the county mourn the passing of a beloved pioneer resident in the person of Ellis M. Lee.

Mr. Lee, since the death of his wife has divided his time among his children. His life has been one of activity and he was always happy when he could keep busy. His children rejoiced when it came their turn to have him in their home, for he was handy at work that required mechanical skill, and he insisted in doing that service for those with whom he lived.

For above two score years Mr. Lee has lived in Pacific Junction community. He was a veteran of the Civil war, first as a volunteer in an Indiana infantry, and later because of his skill was transferred to the regular army as a member of the engineer corps. Children grandchildren found in him a lovable companion and advisor.

Ellis M. Lee was born in Stoner-ville, Pa., August 5, 1838, and died at the home of his son, J. R. Lee, west of Pacific Junction, February 13, 1925, following a brief illness, at the age of 86 years, 6 months and 8 days.

In 1847 he was united in marriage with Martha J. Smiley at Angola, Indiana. To this union nine children were born. George died in infancy; Bertha died in 1902; Irwin in 1903, and Stacy in 1911. The surviving children are Mrs. Abbie Marced of Bellevue, Neb.; Mrs. George Haynie, Pacific Junction; Ora D. Lee, Glen-

wood; J. R. Lee, Pacific Junction; and Jesse G. Lee, Sheridan, Wyo.

Mr. Lee enlisted for service in the civil war in Co. H, 74th Indiana Volunteer Infantry, and was transferred to First Reg. U. S. Veteran Engineer Volunteers August 2, 1862, and was honorably discharged June 27, 1865, at Chattanooga, Tenn.

Mr. and Mrs. Lee moved from Angola, Indiana, in 1878, Sterling, Neb., where they lived three years. They then came to Pacific Junction, locating on a farm four miles south of that place.

His wife passed away June 26, 1902. Since that time he has made his home among his children.

Besides the children mentioned Mr. Lee is survived by thirty-one grandchildren and thirty-one great grandchildren; a sister Mrs. Eliza Lumeraux, Dowegiac, Mich. A half brother, with whom he kept in fraternal relationship, Dwayne Moore of Pleasant Lake, Indiana, died a year ago.

—Glenwood Tribune.

Mr. Lee also resided here for a number of years in the late nineties and has, since living at Pacific Junction, been a frequent visitor here with relatives.

RELEASE CHECK MAKER

From Wednesday's Daily—
H. C. Palmer, who was taken in to custody Monday for the passing of a worthless check at the Thieroff clothing store, has been released from custody and allowed to go on his way, as the only satisfaction in the case would be the fact that the county would have to board the man for some time and not gain any particular benefit. The man had at one time had an account in the Farmer's State bank here, altho at this time he has none, and as he signed his own name he committed no forgery. The amount of money secured by means of the check was recovered with the exception of 20c that had been spent for food. In view of the circumstances of the case it was decided to allow him to go on his way.

LARGE SALE OF LAND NEAR THIS CITY IS MADE

Several Tracts of Land Owned by B. F. Wiles Sold Here to Local Parties For \$40,000.

From Wednesday's Daily—
The land market in this section of Cass county is looking up somewhat and the general spirit of confidence and faith in the soil of this section, some of the best land in the world, is growing stronger as was shown this week when the sale of several tracts of land just south of this city, owned by B. F. Wiles, was disposed of at a good figure.

The land all told that was sold amounted to 221 acres and brought the price of \$40,000, being disposed of the several purchasers who feel that they have secured some excellent purchases and real bargains, as the land is well located and a portion of it highly improved while there are large sections of timber on the other parts of the land.

There was 120 acres sold to B. W. Livingston through the agency of W. E. Rosencrans, while twenty-two acres was purchased by James Griffin through Searl S. Davis, the real estate man, and one tract of twenty-nine acres purchased by C. M. Parker and one fifty acre timber tract bought by J. H. Hailstrom through the First National bank.

These sales are indications that the faith in the land is being renewed and also that the investors are finding it profitable to make their investments in good old Nebraska land after several lean years following the deflation period.

FARM BUREAU NOTES

Copy for this Department furnished by County Agent

T. B. TESTING

It now is likely that there will be some Area Testing done soon in Cass county. It will probably begin in Stove Creek precinct. To make this 100 per cent and a complete success everyone must co-operate.

Pigs Are Keeping Him Now.

A certain western Nebraska Farmer has been unable in years past to make a profit on his hogs. He has been losing a large per cent of the pigs which were farrowed. Most of them died or were runty at weaning time. His veterinarian told him that round worms and filth diseases such as "Bull Nose" were largely responsible for the extreme losses and he suggested that a definite system of hog lot sanitation be put into practice to prevent these troubles. After considerable thought and study, this young farmer asked his County Agent to help him work out a system. His agent, on hearing what the trouble was, suggested the building of a colony of small hog houses in order that the sows could be farrowed in them out on a clean floor. As a result eleven houses were built at a total cost of \$162.25. Each sow was thoroughly cleaned and allowed a shed to herself when she farrowed and for two or three days following. She was then doubled up with another sow that had farrowed about the same time. This made it possible to handle twenty sows with only eleven sheds. It crowded them a little but they were on clean ground and the pigs remained healthy. Of the one hundred and forty-two pigs which were farrowed, this farmer raised one hundred and thirty-two, or six and one-half pigs average per sow. There was not one runt in the bunch. They were allowed to run on Alfalfa pasture and were fed sparingly on eighty cent corn. Health counted, for these pigs averaged one hundred and fifty pounds when they were six months old. If they had been allowed a liberal ration, they would easily have averaged two hun-

dred pounds at this age. A nice profit was made on this crop of pigs. Eleven colony houses which will last ten years are now on the farm. On an investment of \$162.25 and a little extra labor, this farmer is in a position to make a profit on his hogs every year for ten years. It pays to keep pigs free from worms and diseases.

Warm Quarters for Young Porkers.
When the sow and litters are hauled from the central hog house to the pasture, it is necessary to provide some sort of small building to shelter them from the severe spring weather. Some men have successfully used these small one or two sow houses for sows during farrowing time.

The "A" type individual house has given universal satisfaction when well constructed. This little structure is 6' x 7' in size and about 5' high. It is provided with a high door in one end which is turned to the south and may be opened on warm days. Its height allows sunshine to reach all parts of the interior. At the rear is a door of equal height which may be opened in the season when plenty of ventilation is needed. Ordinary barn boards and two-by-fours are used in the construction. A floor may or may not be used.

If you are interested in building some of these individual houses, write your local Farm Bureau Office for plans or ask any lumber dealer in this county. They have all been supplied with plans from this office.

SOCIAL WORKERS MEET

From Wednesday's Daily—
Yesterday afternoon the Social Workers of the Methodist church were very pleasantly entertained at the home of Mrs. E. G. Shallenberger, with a pleasing number of the ladies in attendance at the meeting. The time was largely occupied with the business of the organization, chief of which was the planning of the Colonial tea to be given next Monday afternoon and which is an unusual event with this church organization. The afternoon was closed by the serving of dainty and delicious refreshments.

TAKEN TO HOSPITAL

The many friends of Mrs. C. C. Murray, one of the well known ladies of this section of Cass county, will regret to hear that she was tak-

RETURNS FROM HOSPITAL

Samuel C. Windham, who has been at the Immanuel hospital in Omaha for the past ten days recovering from an operation for appendicitis, returned home yesterday afternoon. Sam is feeling very better after the operation altho he is still a little weak but a few days at home will place him in the best of shape. The many friends of Mr. Windham are pleased to see him back home and trust that he may continue on the highway to improvement and soon be able to resume his usual activities.

EDWARD PATTERSON BETTER

The many friends of Edward Patterson, son of Mr. and Mrs. R. F. Patterson, will be pleased to know that the young man is much better following his recent severe attack of cold and a gathering in the head that made his condition very serious for several days. Ed is now up and around, but in his sickness he lost some fifteen pounds in weight and is still quite weak from the effects of the ordeal he has been through. He is hoping that the next few days will permit him to resume his school duties that he has been compelled to lay aside for sickness.

Tom McGuire departed this morning for Osmond, Nebraska, where he will enjoy a visit there with relatives and friends for a short time.

Joseph Kanka and wife were in Omaha today where Mr. Kanka was called to consult a specialist in regard to his health which has been very poorly of late.

ATTENTION POULTRY RAISERS

I have taken a baby chick agency for the Elkhorn Valley Hatchery, one of the largest and most up to date hatcheries in the state. Guarantee 100% safe arrival of live, sturdy chicks. Orders for any quantities of any breed promptly filled. For prices, etc., phone 130-J. DOROTHY BRINK, Plattsmouth, Neb.

POLICE SCARE AWAY WOULD BE BURGLAR

Prowler Around Burlington Freight House Makes Hasty Getaway As Police Arrive.

From Wednesday's Daily—
Last night while Officers Libershal and Jackson were making their rounds on lower Main street after the midnight hour they were attracted by some person moving around on the platform at the Burlington freight depot. The officers at once started for the freight depot and the person who had been doing the prowling work on the platform and along the freight cars made a hurried exit southward and was soon out of sight.

An investigation made by the police and night operator George Squires failed to disclose any of the freight cars opened although it was evident that someone had been tampering with the doors on the cars that had been switched along the freight car tracks for unloading.

A few nights ago a car was broken open in the lower yards and a great deal of merchandise taken therefrom by some night prowler and while there were tracks leading from the car that were followed for some distance, they failed to reveal the party or parties that had taken the merchandise.

Each year the railroad companies suffer the loss of a large sum by the depredations of the box car thieves and every effort is made to secure the capture of the parties in order to check the extent of the operations of the gangs but without apparently a great deal of success.

FEELING SOME BETTER

George Snyder, Jr., who has just recently returned home from the Clarkson hospital in Omaha, where he was operated on for appendicitis, drove in yesterday afternoon to enjoy a few hours here visiting with friends. George is still feeling the effects of his sickness and the complications that followed the operation but is slowly improving. He has gained seven pounds since re-

CARBON DISAPPEARS!

when you use **BERTSCHY BY-PASS**

HEY!

Step in and examine the average showing of Spring suits and top coats. We have cheaper suits and higher priced ones, but fix your price at **\$35.00** and let us show you good pure wool worsted and fine hand tailoring. It's a pleasure to show these Spring garments to you. Don't be bashful.

Philip Thieroff
VALUE GIVING CLOTHIER

BE SURE of SHIRT COMFORT

Of course you want clever patterns and handsome colorings in your shirts. But when you select them, remember one important thing:

Lasting Satisfaction Depends on Comfort

And to be sure of "shirt comfort" you must look for the shirt that carries the guarantee of good workmanship.

Beau Brummel Shirts
"A Real Combination of Style and Comfort"

Beau Brummel shirts are good-looking shirts, with the colors and style and distinction that the well dressed man likes. But they have good looks backed by features which give you real shirt comfort.

For instance, there is plenty of fullness everywhere, across the shoulders and chest, through the armholes and at the elbows. Plenty of fullness to allow absolute freedom of action, but not a bit of bunchiness.

New Spring Patterns, \$1.45, \$1.69, \$1.89, \$2.25, \$2.95

The H. M. Soennichsen Company
"The Store of Big Values."

If

your position in life and your income are independent, you can wear most any kind of clothes and get by.

To dress well is necessary only if you want to become more than you are, or to get more than you now have.

"I can't afford to dress well" says Mr. Averageman; "the Boss can of course." If either of you could afford to dress poorly it would be the Boss he has "arrived" He realizes the value of good clothes.

"Dress Well and Succeed!"
