

Union Department

Prepared Exclusively for The Journal.

Business called A. W. Probst to Omaha last Monday afternoon.

Mrs. Elmer McCowan and daughter, Helen, were visiting with friends in Union for some time last Saturday.

Mont Robb and the family were visiting last Sunday at the home of Fleming Robb and family at Wyoming.

Miss Gwendolyn Steele has been visiting for the past few days at the home of her uncle, Dick Davis and wife.

Old Line Hail Insurance. Bank of Union.

Attorney C. H. Taylor was a visitor in Plattsmouth last Tuesday and was looking after some legal business matters.

Tim Kahoutek and wife were visiting in Union last Sunday and were callers at the home of L. T. Upton for a short time.

Dan Cox, of Nebraska City, was a visitor in Union last Thursday, coming to look after some legal business for a short time.

Mrs. W. E. Probst, of Plattsmouth, has been visiting for some days past at the home of Mr. and Mrs. A. W. Probst of Union.

Miss Marjorie Cole, of Lincoln, who is a cousin of Mrs. Ellis LaRue, has been visiting at the LaRue home for the past week.

Edgar Morton, who is farming at Arriba, Colorado, accompanied by Mrs. Morton, arrived in Union last Monday for a short time.

James Schwab was a visitor in Union last Saturday and was visiting and renewing acquaintances with his many friends in this portion of the county.

Mary E. Foster of Omaha was a visitor in Union last Saturday and was looking after some business matters and was also visiting for over Sunday.

A. L. Becker departed last Tuesday morning for the central portion of the state, where he went to see some lands which he is contemplating purchasing.

The Rev. W. A. Taylor and wife and Little Marjorie Hoback were guests last Sunday at the home of W. L. Hoback, where all enjoyed a very fine dinner.

A. W. Probst and Edward Dowler were in Omaha last Saturday, where they were both called to look after some business matters, they driving over in their auto.

Will Carriher of Omaha was a visitor in Union last week, coming to look after some business matters connected with some property which Mrs. Davis has here.

James Blake, while working with a car had the misfortune to get his hand very badly cut, but which is at this time making very satisfactory progress towards recovery.

Don't wait too long. Get your hail insurance at Bank of Union.

The wheat receipts at the elevators at Union have been but meagre this year, there having been but four cars shipped with probably not more than that much more to go forward.

Business called Attorney C. L. Graves, rural carrier on one of the Post routes, Orville Hathaway and Postmaster Lemuel Barrett to Nebraska City last Thursday afternoon.

John Sutton of Kenosha, was looking after some business matters in Union last Wednesday morning, having driven over from his home at the old townsite to look after some trading with our merchants.

Henry H. Becker, who went west some time since to thresh, has completed his work there and on last Saturday pulled in with the tractor and separator. He found the grain much better west than here.

Melvin Todd, George Garrison, Elmer Fahrlander and Allison Clark were seeing Iowa last Sunday, and declare they found a country almost equally as good as Cass county, but they will not admit it is as good.

P. H. McCarthy and the family were visiting last Sunday both at Nebraska City and Plattsmouth, they visiting at Plattsmouth at the home of Mrs. McCarthy's people, while at Nebraska City they were visiting at the home of the mother of Mr. McCarthy.

Frank Luxford, of Council Bluffs, is here visiting at the home of his brother, he having been at the hospital in Omaha, where he was under treatment for a time and is now visiting with his brother, Dr. Luxford, until he shall have gotten stronger.

Will O. Burbee will expect to engage in business in the near future. He has been negotiating for the purchase of a building for the purpose and will if not able to secure the desired place, open up in another place until such a time as he may be able to secure a place.

Edward Dowler was a visitor in

Myand last Monday morning, where he went to secure some gravel for Bud Fitch, who was making some repairs to his well, doing some concrete work thereon. Mr. Dowler tells of there having been an excellent rain in that portion of the country.

Floyd Saxton has been pounding away threshing and while the grain is not so heavy as in ordinary years, he is meeting with good success in the work. He was threshing last Monday for both Calvin Snavely and R. M. Taylor, they delivering their wheat to the McCarthy elevator.

Last Sunday was the birthday of the brother and father of Attorney Graves, A. J. Graves, who died in Plattsmouth, October 7, 1901, and his father, Wm. Graves, who was born in Tennessee, July 19, 1908, and would have been 107 years of age had he lived, while Attorney A. J. Graves would have been 75.

The Union band which are able to furnish music for any musical organization have been named as the ones who are to furnish music for the Old Settlers association, and this is right. Have the boys who are everyday making Union a better town and a better place in which to live, play for the old settlers.

Dr. W. J. Luxford who went to California to return with the folks, arrived home last week and enjoyed the trip finely. The doctor says the best crops which he was able to see were between Lincoln and Union, and as he got closer to Union, he could see them improve. They drove here from Los Angeles in ten days and from Denver in two days.

Hans Christensen, Mont Robb and Westley Woodard were all in Union one day last week, and were visiting with their old time friend, Charles Graves. They had expected to have spent a little time with the former friends and fellow citizens, in ten days and from Denver in two days.

Mrs. Claude Claridge, of Central City, and daughter, Miss Margaret Reeves, were visiting for a few days at Liberty at the home of Mr. and Mrs. Harry Gunn, Mrs. Gunn being a sister of Mrs. Reeves, and after having concluded their visit there came to Union for a short visit before returning to their home at Central City. They visited until Thursday of this week.

Ralph Everett, of Chicago, where he is employed as a salesman for a prominent electric company, has been spending a portion of his two weeks vacation at the home of his parents, George Everett and family, near Union, and last week he and his two sisters, Misses Mary and Eva were visiting for a short time with friends at Kansas City. Mr. Everett returned to his home in Chicago last Sunday evening.

Mrs. Dan Lynn, the queen of Kamp Hill Kare (the Dan Lynn camp down on the west bank of the lower Weeping Water) was in town last week, looking and feeling much better in health than usual. A jolly boat riding, swimming, bathing, etc., all at their pleasure and absolutely free. No shortage of company there and others are cordially invited to visit the camp. Plenty of shade and water.

Many People Enjoy Concert. Last Saturday the Union band furnished some excellent music, which was enjoyed by about one thousand people. The entire available street parking space in the town was occupied. The music which was furnished by the band was surely enjoyed by all who were present and all are asking that the delightful occasion be repeated.

Last Sunday at Church. There was a fine representation at the Bible school and also at the preaching services, there being much interest manifested with the church work. There will be services to come to Sunday. Bible school at 10 a. m. and preaching at 11. A cordial in-

itation is extended to all to attend these services.

Return From the West. Earl W. Keedy and wife, who have been in the west for the past week visiting at the noted places of the west, spending some time in Yellowstone park and at Denver and Colorado Springs and arriving home last Saturday evening. While away they drove 2,839 miles and had a most enjoyable trip. They spent three days alone in the Yellowstone national park which they describe as a most wonderful place.

For hail insurance see us at Bank of Union.

Will Camp At Quivera. The Boy Scouts under the chaperonage of Clifford D. Smith, their scoutmaster, will, beginning with August 1, spend some ten days at Camp Quivera where they will work according to the scout laws and rules as well as having a good time also. Mr. Smith will aim to be with the boys as much as possible.

Birthdays in July. There were eight birthdays in July in Union being Delorus Dysart, born July 24, 1901; Valda Dyrart, July 18, 1912; D. Roy Franz, born on the national holiday and is 44 years of age and going strong. Beulah Pell, who was born July 13, 1904, and is 21 years of age. Dorothy Pell, born on July 17, 1912, and grandmother Rachel Pell, born July 13, 1843, in Ohio, being the oldest one in Union whose birthday falls in July, she being 82 years of age. G. S. Upton was born in Kentucky, July 19, 1849, the year of the discovery of gold in California. L. R. Upton was born one day before the national holiday, July 3, 1875, and is 50 years of age.

FORD SHIP BID ACTED ON TODAY. Shipping Board is Worried Over Threatened Suit By Baltimore Bidders.

Washington, July 20. — Henry Ford's bid of \$1,706,000 for 200 laid-up ships of the United States merchant fleet will be placed before the shipping board tomorrow for final action.

Admiral Leigh Palmer, president of the emergency fleet corporation, today forwarded a complete statement covering the bids received for the ships, together with his recommendations, which it is understood, include acceptance of the Ford offer but no compliance with certain "wishes" expressed by the motor car manufacturer in submitting his offer.

Admiral Palmer would also take advantage of certain offers made by other bidders who sought to obtain comparatively small lots of ships for scrapping.

Mr. Ford's check for \$175,000, covering 10 per cent of his offer, is on deposit with the board.

Members of the board are concerned over the prospect of litigation as a result of the rejection of the bid of the Boston Iron and Metal company of Baltimore and the practical reopening of bids so that Mr. Ford might have the opportunity to make his offer. Officials of the Baltimore company have protested against the action of the board as irregular.

FAIRBURY LEARNS CREDIT RATING. Fairbury, Neb., July 19.—Fairbury business men are considerably wiser on the credit business, this week, through the efforts of a self-alleged credit expert, who cannot be found.

Two weeks ago, a man giving the name of William Ewell, rented office rooms here and opened a credit rating office. Stationery valued at \$35 he had printed at the Stillwell Printing company. An electric fan and iron, he purchased on credit at the R. C. King Electrical company, a hat from the Wallace Sisters, and a bill of goods at the DePew Hedges drug store.

The Holstein Furniture company trusted him for an office desk, but when Mr. Holstein found it billed for shipment to Ahlens, Kan., he managed to get it back.

By this time Mr. Ewell had disappeared. Among his other credit purchases were some automobile accessories.

FOUR UNITED STATES-CANADA TREATIES RATIFIED. Washington, July 17.—Ratification of four recently completed treaties having to do with the Dominion of Canada were exchanged today at the state department with Ernest Lapointe, Canadian minister of justice, acting for the British government.

The treaties are those dealing with suppression of border smuggling, providing for extradition in narcotic smuggling cases; defining more completely certain portions of the international boundary, and regulating the level of the Lake of the Woods.

FARM BUREAU OPPOSES FREIGHT INCREASE PLEA. Chicago, July 19.—The petition of seventy-three western railroads for an 11 per cent increase in freight rates will meet the organized opposition of the American Farm Bureau federation. Officers of the organization, announced farm bureaus in twenty-two states affected by the increase will be mobilized to fight the petition.

FARM LAND SALES SHOW PROSPEROUS CONDITION HERE

Transfer Rush Season; Lowering of Bank Interest Rate Expected to Speed Movement.

Sales of farm lands, considered a fairly accurate barometer of general conditions, are numerous through Nebraska and Iowa at prices which indicate sound prosperity.

The fact that there is so much activity so early in the year also is taken as a favorable sign. Normally, such transfers occur after harvest time in the fall.

Bankers express the opinion that a distinct upward movement in the price of land will follow the reduction from 5 to 4 per cent next April of the interest rate, which state banks may upon deposits under protection of the guaranty fund.

Land prices have been moving up for the last six or eight months, and the movement is certain to be accelerated. Fourteen Nebraska farm properties changed hands recently at an average price of \$200 an acre, and \$234 per acre is average price brot by 21 pieces of Iowa land sold this summer.

Prices between 80 cents and a dollar are anticipated upon the big corn crop now in the making. Dollar corn is being sold for \$1.50, and since most of it is used to feed hogs but hogs prices have mounted to \$13 and \$14. Since the customary ration between hogs and corn is 13 to 1, this points to dollar corn and continued prosperity for the farmer.

Represented by time certificates, there is \$250,000,000 on deposit in state banks. Much of it belongs to retired farmers who are expected to invest it in farm lands, when the interest rate is trimmed next spring.

Following are some Nebraska and Iowa land sales completed recently. Typical of such transactions in both states this year.

Oakland—Lawrence Pearson to John A. Anderson, 120 acres at \$212.50; William Sommerer to Fred Linden, 82 acres at \$200.

Wymore—George Keechley to J. L. Stearns, 160 acres at \$93.50; Beatrice—Dwight Coit to Lambert Frerichs, 160 acres at \$150.

Aurora—James McMurrin to Geo. J. Jensen, 80 acres at \$158; H. P. Christensen to James P. Larson, 160 acres at \$168; Joseph Omel to Oscar Detamore, 160 acres at \$125.

Halstead—Nathan to Archie M. Price, 80 acres at \$76.50. Arlington—Delmar McCann to J. C. Rhea, 220 acres at \$225.

Arapahoe—John Carter to Henry Meyer, 320 acres at \$50.

Hopewell—Bernard Monnich to Albert Halstead, 160 acres at \$205; Fred Busch to Karl Luther, 140 acres at \$185.50.

PROTECTION FOR BANKS. Kansas City, July 17.—Money alone should not entitle men to become bank executives, active in the control of customers' deposits and the assets of the community, it was asserted today at the annual convention of the American institute of banking here.

Rather, the management personnel of banking institutions should be required to meet certain educational requirements in their business, providing for the banking profession and the depositors, the convention decided.

W. H. Dressler, cashier of the Stockyards National bank of Omaha, was the principal speaker. Banks should be protected by strict legal requirements for their executives, he said, the same as the professions of law and medicine.

"In Nebraska," he continued, "certain responsible bank executives must obtain a statement license, based upon fitness and experience."

Bank failures and financial disasters over the country bear witness, he said, to the inefficiency of responsible officers, either in handling their accounts or inability to detect fraud by other officers.

WILL INVESTIGATE THE BRETHERTON SHOOTING. Mexico City, Mexico, July 20.—The department of the interior has ordered an investigation of the shooting of Harold G. Bretherton, United States vice consul at Aguas Calientes.

Information here is that Bretherton was only slightly wounded, but no details of the shooting have been received.

A Washington was advised Saturday that Mr. Bretherton was shot at Aguas Calientes on July 16. The cause was not explained, but the belief was expressed that the shot was intended for some one else. The American embassy at Mexico City was instructed by the state department to ask the Mexican foreign office for an investigation and for punishment of the assailant.

GERMAN PROFESSOR HAS FIGURED AGE OF EARTH. Koenigsberg, Germany, July 17.—The approximate age of the earth, in the opinion of Professor Wilhelm Etzel, is from 1,100,000,000 to 1,200,000,000 years. On account of his investigations just published here shows he arrived at these figures through calculation of the radio activity of various strata of earth, using pre-campain stone formations as representing the oldest known mineralogical deposits.

ELKS' REUNION ENDS. Portland, Ore., July 17.—The grand lodge reunion of the Benevolent and Protective Order of Elks was announced here today. Many delegations left last evening following the parade in which approximately 20 thousand persons took part.

REICHTAG APPROVES MESSAGE TO FRANCE

Berlin, July 17.—The reichstag foreign affairs committee, by a large majority, has approved the principles of the German government's reply to Foreign Minister Briand's note of June made by Germany in February for a western European security pact.

(Dispatches from Berlin on Tuesday said the tentative draft of the French note was completed. Germany was expected to express readiness to join the league of nations upon certain conditions, one of them being the completion of the allied evacuation of the occupied area.)

INCREASE IN BUILDING "ONE-FAMILY" HOMES

Federal Survey in Nebraska Shows Gratification of Home-Owning Ambition.

Washington D. C., July 17.—One of the outstanding facts brought out by a recent government survey made in Nebraska is that during 1924 the construction of one-family dwellings, which is believed to indicate that the "desire" for home ownership is being gratified to a greater extent than during any year of the past twenty.

Although the gain is not regarded as positive proof of a change in the trend of housing conditions away from the multi-family dwellings which during recent years have had tremendous vogue, it is noted by federal officials who are studying the return as a "good sign."

It is contended by officials of the federal department of labor that individual home-ownership—regarded as the basis of "worthwhile civilization"—will be realized through the increased popularity of one-family dwellings.

As a general rule, it is claimed, two-family and multi-family dwellings in cities are for rental, and it is declared that while their construction was gaining in popularity the percentage of the home-owners to renters was constantly decreasing.

Home Owners in Majority. In many states there are at the present time more renters than home-owners, the proportions being about 65 of the former to 35 of the latter. In Nebraska and other western states this situation is declared to be the reverse, home-owners there being somewhat in the majority.

Last year one-family dwellings constructed had an estimated cost of 1 billion dollars or 29 per cent of the cost of all classes of structures that year.

The average estimated cost per building for one-family dwellings constructed in Nebraska was \$4,200, while the cost of two-family dwellings was \$8,300, or \$4,150 per family.

The average cost per family of multi-family dwellings is estimated at \$4,150, the same as the cost per family in two-family dwellings and but a trifle more than the cost in one-family houses.

Means Greater Comfort. Although small homes cost much more than they did some years ago, it is claimed by federal officials they mean more to their owners in comfort. It is also believed the population as a whole can afford to pay more.

In 1880 the per capita wealth in continental United States was less than \$800, while in 1922 it was estimated by the census bureau as \$2,918 per person.

The fact that homes are being constructed with an idea to comfort is attested by the number of plumbers, which was only \$1 per million of population in 1880 and had increased in 1920 to nearly 2 thousand per million.

GAS AND OIL BLOWS UP IN CHICAGO RIVER

Fire Spreading From Dock to a Barge Causes Explosion of 135,000 Gallons.

Chicago, July 19.—A terrible explosion of 135,000 gallons of gasoline and oil aboard a barge of the Texas company, anchored in the north branch of the Chicago river, at noon today caused damages estimated at \$300,000 and caused excitement among residents of the congested district bordering the river.

The barge and tug alongside it were destroyed, several nearby factory buildings were damaged and flaming gasoline turned the river into an inferno that threatened to consume docks and bridges and spread even greater destruction over a wide area. Numbers of homes and small stores were slightly damaged by the blast and flying debris.

Prompt work by firemen from all stations in the north and west portions of the city finally brought the conflagration under control and prevented a catastrophe. Five men on the barge when the explosion occurred escaped with only slight burns. The explosion was caused by fire which spread to the barge from the dock.

MASKED MOB FLOGS YOUNG TEXAS NEGRO

Dallas, July 17.—A masked mob tonight flogged Clarence Brown, negro, 20 years old, a few minutes after he had been released from jail where he had been held on a statutory charge. Brown told police a party of men in about thirty automobiles seized him and took him to a place on a country road, where they beat him for half an hour. Doctors said the negro was bleeding from more than thirty lash wounds.

Have you anything to buy or sell? Then tell the world about it through the Journal Want Ad column.

The H. M. Soennichsen Company Clean Sweep July Clearance

Men's Athletic style union suits, made from very high count dimity cloth. Taped back and shoulders, which prevents tears. The biggest value on the market. Sizes 36 to 44 **\$1**

CHADRON FARMERS TO DRILL FOR OIL

Two Companies to Start Wells in July—Equipment Partly on the Ground Now.

Chadron, Neb., July 19.—The first derrick is completed and ready for drilling in the Chadron oil field, which is being tested by the Nebraska Oil company. Drilling will begin July 25, the work now being held up for boilers to arrive from Moorcroft (Wyo.) field.

The entire equipment to date has been obtained from the Moorcroft field. Twelve truck loads of rig material have been unloaded at Chadron. The boilers will be shipped by rail to Wayside and transported to the field within the next two or three days.

Chadron's first test well will be sunk at the Bradock ranch, 16 miles north and east of this city. Land owners who have signed new leases, or renewed old ones, are: L. H. Seabout, E. C. Byerly, F. M. Conn, Emma Cooksey, C. F. Coffee, Sr., C. F. Coffee, Jr., Frederick A. Crites et al., Thomas Augustine, administrator of Lillie Carpenter estate, Bernice Carpenter, Michael Christensen, Walter Dietel, William A. Everett, Clarence Gochnaur, Fred M. Hood, W. M. Hamburg, Effie D. Hulbert, Charles W. Nodding, James Nelson, B. F. Pittman, Charles H. Poldard, Dorothee Saust, Paul Martin, Charles Saust, William H. Saust, Edwin K. Vandergrift, Harry E. Reische, H. D. Mead, Harry B. Coffee and John B. Cook.

The Pine Ridge Oil company has completed its derrick at Clinton in readiness to begin drilling by July 20. The Paige Wildcat outfit, of Tulsa, Okla., has shipped a rig to the Clinton field, which field is held under lease by the Pine Ridge Oil company.

Dr. Henry C. Cook has charge of the leases in the Pine Ridge oil holdings. He says he expects that oil will be found between 1,600 feet and 3,000 feet. Many people have confidence in the oil possibilities in the vicinity of Chadron, Hay Springs, Clinton and Rushville, the territories under the Pine Ridge and Nebraska Oil companies.

These are mighty hard times. The motths that used to make a good living off of women's clothes are starving to death.

NOTICE TO CONTRACTORS. Sealed bids will be received at the office of the County Clerk of Cass county, Nebraska, on August 14th, 1925, until 11 o'clock a. m., and at that time publicly opened and read for gravel surfacing and crushed stone surfacing on the Louisville Precinct Improvement Bond Project in Louisville precinct, Cass county.

The proposed work consists of constructing 11.35 miles of surfacing on earth roads.

The approximate quantities are: 90,000 square yards gravel surfacing, 3 inches deep. 52,000 square yards crushed stone surfacing, 3 inches deep. Alternate 52,000 square yards gravel surfacing, 3 inches deep. Alternate 99,000 square yards crushed stone surfacing, 3 inches deep.

Certified check for five per cent (5%) of the amount of the bid will be required.

This work must be started previous to August 25, 1925, and be completed by October 31, 1925.

Plans and specifications for the work may be seen and information secured at the office of the County Clerk, at Plattsmouth, Nebraska.

This County reserves the right to waive all technicalities and reject any or all bids.

GEO. R. SAYLES, Co. Clerk Cass County, Nebraska.

LOAN FROM U.S. FIRST IN HISTORY

Australian Government Breaks Precedent in Seeking Funds Here.

New York, July 17.—For the first time in its history, the Commonwealth of Australia has turned from London to New York for its external financing. J. P. Morgan & Co. announced today the purchase of a \$75,000,000 Australian loan, which will be offered for public subscription next Monday. Simultaneous offering of a 5,000,000-pound loan will be made in London.

Allotment of the major portion of the present financing to the American market resulted from Great Britain's gold resumption policy. With the Bank of England opposed to heavy gold exports, British financial authorities held that Australian borrowing in London should be limited to 5,000,000 pounds, and even this was a concession to popular demands that New York should not be allowed to monopolize the business.

Terms of the American loan place the Australian government on the same credit basis with Canada, the only British dominion which has previously sold bond issues here, and one of the few governments which have been able to borrow at a 5 per cent interest rate. The present issue takes the form of a 30-year, 5 per cent bond, priced at 99½ and not redeemable before 1952. The only difference in the sterling loan is in the range of maturities, which run up to 52 years.

Proceeds of both the New York and London loans will be applied by the government of Australia to meeting its war loan maturities of about \$34,000,000 next December. The remainder of the obligations, it is expected, will be retired through internal refunding operations.

The Australian financing had been sought by several New York bankers.

CHURCH OFFICIAL ORDERED TO PAY IN SLANDER SUIT

Jury Awards Albert R. Leland \$10,000 Damages; Outgrowth of Trial Involving Pastor.

Chicago, July 17.—Albert R. Leland was awarded damages of \$10,000 tonight by a jury in his \$50,000 slander suit against E. L. Hartig, wealthy official of the Oak Park church of which Leland formerly was a parishioner.

The jury deliberated a little more than three hours.

The suit was the outgrowth of a suit for divorce filed by Leland in which he named Rev. Carl D. Case, pastor of the Oak Park church, which all the principals attended.

The divorce action came after Leland's wife, Mrs. Charlotte Leland, said Dr. Case and she had been guilty of misconduct.

Dr. Case's parishioners gave him a vote of confidence and during an investigation by the church, Hartig, a trustee, was a member of a committee which made an inquiry. Leland charged that Hartig had referred to him as the father of an illegitimate child, a rubber in a Turkish bath, and as a man who once practiced medicine without license.

SHARP EARTHQUAKE IS FELT IN SAN FRANCISCO

San Francisco, July 19.—A sharp earthquake shock was felt throughout the San Francisco bay region at 11:26 a. m. today. No damage was reported. The tremor was plainly perceptible in San Francisco and Oakland. It shook buildings in the towns along the peninsula south of San Francisco as far as San Jose, fifty miles away.

ATTENTION

Don't overlook an Oil Stove at the special discount of 20%.

How about some Bovinol for the cows. Keeps the flies off.

We have a great line of Armstrong scythes. If doubtful, buy one.

Swat the fly or feed him Flytox. We have it.

Everything else, too, at right prices!
