GRAND JURY WILL PROBE VIOLATIONS

Seven Arrests Result From Raid by Omaha Dry Officers—Court Call is For Oct. 26.

Omaha, Oct. 9.—Liquor law violations during the American Legion convention will be investigated by a grand jury which will convene here October 26. This announcement was made today by District Attorney J. C. Kinsler.

Kinsler declared that with but one exception, he had no positive evidence

that there had been any wholesale violations of the eighteenth amendment during the week. He indicated the "Gay Paree" improvised cabaret, opened last Saturday and scene of much revelry among delegates and visitors to the convention.

The establishment was raided by a squad of dry law enforcement officers yesterday, seven men were arrested and a quantity of liquor confiscated.

The men waived preliminary hearings today and made bond for their appearance at trial. A warrant has been issued for an eighth man.

INTERSTATE BUS CONTROL ASKED

Electric Railway Association Speakers Also Cite Tax Burden.

Atlantic City, N. J.—Federal regulations of interstate motorbus and truck traffic is vital to maintenance of adequate local transportation, taxes should be lowered and traffic congestion relieved, according to speakers before the forty-fourth annual convention of the American Electric Railway Association here. Six thousand operators of electric railways and busses are attending the sessions.

Leaders of the industry, including J. N. Shannahan of Hampton, Va., president of the association, and Harry Reid of Indianapolis, chairman of the committee on national relations declared that the national electric railway situation was in "fair" shape. They said the electric railways must now co-ordinate motorbus service with the rail lines.

"The national average is now 7.57 cents," said Mr. Shannahan, in his annual address. "Wages are slightly higher, the average being 56 cents an hour. Taxes are a serious burden. They have continued to increase, being up one-half of 1 per cent over last year. Practically every tenth fare now goes for taxes."

"No radical increase in operating costs is expected. Bus competition is being eliminated by establishment of reliable bus service by electric railway companies. Traffic congestion continues to be an outstanding problem. Riders are being delayed by unjustifiable and often illegal traffic congestion."

In connection with the alleged necessity for federal regulation of interstate truck and bus traffic, Mr. Reid asserted that "any transportation agency, in order to provide efficient service and earn a profit or reasonable return, must have a monopoly in its particular territory."

"We have been forced into bus operation to protect our territories," he explained, "but we cannot go out into free, vicious and unrestricted competition. To forestall such competition, we must have regulation. It is not a question of handicapping our competitors, but rather a vital matter of safeguarding our own industry, which must have the protection of regulation, and of safeguarding the interests of the public, which must have reliable, continuous service."

ENJOY REAL SOCIAL TIME

From Saturday's Daily—

Last evening the M. D. A. of the Burlington shops met at their lodge rooms in the M. W. A. hall while the auxiliary ladies held their meeting in the adjoining ante room where they conducted the installation of officers.

After the business session of the two organizations the members of the auxiliary were invited by the M. D. A. to join them in the enjoyment of a very fine luncheon of coffee and sandwiches which had been provided and which was a most delightful climax of the evening.

The two organizations are planning a Halloween party together in the near future that will be one of the big events of the year for them. The next social meeting of the auxiliary will be at the home of Mrs. Henry Leacock, 324 South Seventh street.
