Water Company Files Suit Against City

Action Is Filed in the Federal Court at Lincoln and Asks Increased Rates for Their Service.

From Wednesday's Daily—
The City of Plattsmouth is made the defendant in an action filed in the federal court at Lincoln by the Plattsmouth Water company which seeks to have the court grant the plaintiff company an increase in water rates in this city.
The petition asks that the court grant an injunction against the city and its officials to prevent them from enforcing the present ordinance and the rates that are prescribed therein. The company alleges that the present rates for water service are inadequate and do not give the water company a fair return on the investment that the company has on their property in this city. The present rates were adopted in 1922 when the city

council made a renewal of the franchise of the water company. It is alleged that under the original franchise of the water company which expired in 1922 the rates were inadequate and that it began suit in the federal court at Omaha to have them declared so. However, under a slight increase in rates the company agreed to a new set of rates when it was granted another charter in the year 1922, believing that they would yield a proper and just return to the company on their investment. These rates, the company now claim in their petition, are inadequate and fail to give the company the proper return on the investment.
Following the making of the estimate and the levy for the year 1925-26 by the finance committee of the city council, the Plattsmouth Water company notified the council of the proposal to increase the rates and offering a schedule that they were expecting to charge and which showed a material advance over that which is now in force. The city council had a report from its committee that they would not approve the rates and also that the city had prepared its levy and that funds were not available for the city to pay the advance asked in the rates for the fire hydrant rental.
This report has been followed by the filing of the suit and which was forecast sometime ago by the city government and which will probably contest the claims of the water company for the increase that they are asking.

Dislurbance Calls County Officers to Scene

Long Smouldering Troubles Over the Eternal Triangle Leads to Fistic Battle Yesterday Afternoon.

From Wednesday's Daily—
For many months the residents of Elmwood have been aware of the fact that matrimonial differences among one of the families of that place was causing more or less trouble and the old, old story of two men and the one woman finally led to an outbreak yesterday afternoon that necessitated Deputy Sheriff W. C. Schaus in the absence of Sheriff E. P. Stewart from the city, hastened to our neighboring city to quell the trouble and see what was the occasion of the outbreak that had led to the S. O. call for the sheriff and officer. Chief of Police Johnson of this city accompanied Mr. Schaus to the scene of action.

On the arrival of the deputy sheriff at Elmwood it was found that a complaint had been made against Lance Clites who was charged with beating and molesting the defendant on Jacob Sterner, a well known resident of Elmwood where he has been located in business for some time. A complaint and warrant had been issued for Mr. Clites in the justice court of A. W. Nelhart, but which it was desired to have the sheriff serve. Mr. Schaus journeyed out to the farm home of Mr. Clites near Alvo and had him accompany him back into Plattsmouth where he has since remained awaiting the filing of an information, as the complaint made at Elmwood must be replaced by one made before the county court here.

From what can be learned of the affair it seems that Mr. Clites had come into Elmwood yesterday afternoon and was walking down the street of the city when Mrs. Sterner, wife of the complainant, had also been out on the street and it is alleged that she and Clites had stopped to talk to each other and later when Clites had walked on down the street, Sterner had come out from between two of the buildings and one of the stories is that he struck Clites on the head with a brick and the mix up Sterner received a rather severe handling and bore many marks of the fistic battle when the smoke of the conflict rolled away and it is on this charge that the complaint was made against Mr. Clites.

This is the second chapter in what seems to have been a long standing trouble between the two parties involved, as the first episode of the affair occurred three months ago when an action was filed in the district court in which Jacob Sterner was the plaintiff and Lance Clites the defendant, the action being one for the alienation of the affections of the wife of Sterner and for which he asked damages in the sum of \$10,000 against Clites.

In the petition filed by Sterner here in the office of the clerk of the district court, it was alleged that in September, 1924, and at divers times since the defendant had been guilty of alienating the affections of the wife of the plaintiff by various actions and methods and which formed the basis of the suit filed. The allegations were quite definite in his petition were of a very sensational nature and has not served to make the feeling between the parties more pleasant. Mr. Clites has filed an answer in the case in which he has denied each and every allegation of misdeeds toward or with the wife of the plaintiff Sterner.

This case is to be tried at the November term of the district court in this city and gives promise of being the enlivening and sensational feature of the term of court. County Attorney W. G. Kieck this morning was awaiting the arrival of other parties to make the complaint as to the latest phase of will be followed in all probability by the filing of a charge of assault and battery against Clites, but if the parties fail to appear the defendant will probably be released from custody.

Daughters of American Revolution Donate

Very Extensive Program of Work is Outlined for Forthcoming Year by the Local Chapter.

From Tuesday's Daily—
Last evening the Fontenelle chapter of the Daughters of the American Revolution held a very pleasant meeting at the home of Mrs. E. H. Wescott on High school hill and the occasion was one filled with a great many plans for the development of community history and preservation of data that will be priceless as history in future years.

This was the meeting devoted to the outlining of the plans of the chapter for the year and which promises a great deal of activity for the ladies in the ensuing year.
It was also voted to make a donation of \$10 to the American Legion community building which will, it is hoped be enlarged later in the year when the ladies have more funds available. They are planning activities that will raise funds for their local patriotic work and which will allow them greater activity in their work.

In addition to other matters the ladies decided to hold several open social meetings during the year that will add to the social life of the community and as well induce those who are eligible for membership to join this organization. It is estimated fifty trees date back to the revolutionary period and which makes the ladies of the family eligible for membership.

One of the important moves of the year will be the compiling of the records of historical value that are available and which contain much valuable data on local history. The ladies will also look over the old time cemeteries of this section of the county to find the old and perhaps forgotten records of the pioneers who are resting in these burial grounds. At the close of the evening the ladies were served with very dainty and delicious refreshments by the hostess that added very much to the enjoyment of the occasion.
