

Compare
these Better Buick Sedans
with "Coaches"

These finer closed cars are built on the famous Buick chassis with the 21-year-proved, 60 and 75 horsepower Buick Valve-in-Head engines. Extra power!

And they have the famous "Sealed Chassis" and the new "Triple Sealed Engine." No other car, regardless of price, furnishes this completeness of protection for driving parts.

And these Buicks have the characteristic Buick charm of body profile. They are finished in Duco. They seat five full-grown people in roomy comfort. They have the Fisher VV one-piece, ventilating windshield, automatic windshield wiper, and a host of light necessities. Buick's exacting closed car standards prevail in their Fisher-built bodies.

Come in and see how much superior these Better Buick Sedans are to "Coaches" before you spend your money.

**8 FRENCH REGIMENTS TO
RELIEF OF DAMASCUS**

Paris, Oct. 28.—Eight French regiments, including two cavalry regiments from Morocco, have been ordered to leave for Syria for the relief of Damascus from which a majority of the population has already fled.

Paris official circles confirm that the Syrian situation is extremely serious and that a general revolt which might turn Syria into another Morocco is possible.

HALLOWE'EN BOX SOCIAL

There will be a Hallowe'en party and box social held at the Oxford school in district No. 91, on Friday evening, Oct. 30. Everyone is cordially invited to come and enjoy a fine time.

HELEN FARLEY,
Teacher.

FALL UNDER WHEEL FATAL

Alliance, Neb., 28.—Tom Crow was instantly killed here Tuesday morning when he slipped and fell beneath the wheels of a Burlington freight train on which he was riding. His home is at Seneca.

When preparing for your Hallowe'en party call at the Bates Book and Stationery store and look over the wonderful assortment of decorative features and favors for the occasion.

**FT. LEAVENWORTH PRISON
CONTAINS SHOE FACTORY**

Will Begin Next January to Make Footwear for Various Government Institutions.

Fort Leavenworth, Kan.—A million-dollar factory within the prison walls of the Fort Leavenworth federal penitentiary will begin making shoes for the men of the army and navy and federal institutions next January. Warden F. Goldthwaite will be its superintendent.

One of the serious problems with which Warden W. I. Biddle has had to contend is that of finding employment for his prisoners. The shoe factory will put to work 700 convicts whose time now is idle.

The men will be taught a trade; a small remuneration will go partly toward the support of their families and partly into a fund of interest, to be paid them on their release. The government will take a profit from production.

The plant is expected to turn out from 2,500 to 3,000 pairs of shoes daily when operating at its capacity, but this will not be possible until skilled labor has been developed among the prison laborers. When the peak of quality and quantity has been attained, the penitentiary will begin manufacturing footwear for the army and navy, and later a work shoe in addition, for other institutions maintained by the government.

The factory was built by man power at a great saving in cost. Wherever some expensive bit of machinery could be replaced by manual labor, it was done.

When it was necessary to hoist tons of brick and steel, cement and crushed stone to the workers on the skeleton fourth story, a series of runways was rigged up from lumber sawed at the prison mill, and up these runways the convicts trundled their wheelbarrows of construction material. Six hundred wards of the government helped build the plant.

The factory will be fireproof throughout, with large windows and white enamel walls. The floor surface will be impervious to grease and shoe blacking. Modern sanitary and safety devices and the latest shoe-building equipment will be used.

Superintendent Goldthwaite came to Fort Leavenworth from Haverhill, Mass., where he had completed a quarter of a century with a shoe manufacturing. He will be assisted by five civilian foremen.

**Gob Loses 173 Pounds;
"Diet Did It," He Says**

Philadelphia.—After a year and a half passed in watching himself disappear in large chunks, Chief Yeoman Clarence H. Hemery, U. S. N., at the League island navy yard, has at last had something authentic in effective dieting to give a waiting word.

"It was not a miracle," began Clarence. "It was merely application. I determined to become thin and I did it."

It was just 18 months ago—and Clarence has photographs which prove it—that the chief yeoman battled the scales at 375 pounds, dinner table side. Today he weighs just 202 pounds, a decrease of exactly 173 pounds.

"I dieted," said Clarence, running his finger around the inside of his new roomy collar.

"I made up this list and day after day despite the temptations of cream-embellished coffee and juicy steaks I stuck to it. For one year and a half I have eaten nothing else. This is my regular daily allowance: Thirty ounces of vegetables, six ounces of lean meat, six ounces of lean fish, one whole egg, the whites of four eggs, four apples, two oranges, wheat bread and skimmed milk."

**Louisiana Plans Huge
Memorial to Longfellow**

New Orleans.—The Longfellow-Evangeline memorial when erected will be made up of three figures cut into a monument that will stand on the banks of the Bayou Teche, near St. Martinville.

The monument will arise in a fifty-acre park, almost on the spot where the forlorn Arcadian girl kept her unfulfilled tryst with the banished Gabriel.

For years, tourists have visited the beautiful Evangeline country of Louisiana and have marveled at the beauty of the moss-hung oaks beneath which Evangeline awaited her lover. In the center of the park will be a wading pool surrounded by figures symbolic of the poem, Youth, Gladness, Love and Despair, over which will stand the monument consisting of a figure of Longfellow and his two characters, Evangeline and Gabriel.

Funds for the project are being furnished by subscriptions from school children of the South and Longfellow-Evangeline associations everywhere.

**"Arid" Farms Produce
\$56,000,000 in Wealth**

Dodge City, Kan.—A waste of sand hills and rain-washed gulleys, covered with tumble weeds, scrub brush and buffalo grass—such is the picture of drawn of western Kansas, that section of the Sunflower state that lies west of the 100th meridian. However, last year the 24 counties comprising this domain produced field crops and live stock products worth more than \$56,000,000, or \$550 per capita. The land yielded 26,000,000 bushels of wheat worth nearly \$25,000,000.

**Missouri and
Iowa State Tied
in Football**

Both Teams Will Clash at Columbia On Saturday and Decide the Leadership; Neither Have Lost

Lincoln, Neb., Oct. 28.—Missouri and Iowa State this week are tied for the leadership in the Missouri Valley conference, neither yet having met defeat. However, by the end of this week one of these two teams will topple from the throne, for next Saturday at Columbia they clash.

On a percentage basis the standings of the teams in the Missouri Valley this week are:

Missouri, 1,000; Iowa State, 1,000; Drake, 750; Kansas Aggies, 500; Nebraska, 500; Oklahoma, 500; Kansas, 250; Washington, 200; Oklahoma, 200; Grinnell, 200.

Changes in the percentage table are inevitable this week, for all the schools swing into action against Valley opponents except the Kansas Aggies which enjoy a holiday and Washington U. of St. Louis, which will not meet a Valley foe.

Besides the Missouri-Iowa State contest at Columbia, other classics on the Saturday program include the Drake-Kansas clash at Lawrence, a game which will interest the Huskers of Nebraska for they must meet Drake on November 7 at Des Moines; the Nebraska-Oklahoma game at Lincoln, when the Huskers will seek revenge for the 1924 defeat handed them by the Sooners, and the Grinnell-Oklahoma Aggies contest at Still-

water, Oklahoma, which will boost one of the two teams out of the cellar position.

There is, however, another method of determining the Valley leaders besides the percentage table. Frank G. Dickinson, a graduate of the University of Illinois, has devised the Dickinson football rating system which gives points for victories and defeats as follows:

First division teams are those which have a percentage rating above 500. Missouri, Iowa State and Drake therefore are the only Missouri Valley teams in the first division, the other eleven being in the second division. Mr. Dickinson proceeds to give points as follows:

If a first division team defeats a first division team, winner gets 30 points and loser 15 points.

If a first division team ties a first division team, each team gets 22½ points.

If a first division team loses to a second division team, winner gets 30 points and loser 10 points.

If a first division team defeats a second division team, winner gets 20 points, loser 10 points.

If a second division team defeats a second division team, winner gets 20 points, loser 10 points.

If a second division team ties a second division team each team gets 15 points.

The total points are then divided by the number of games played to determine the ranking of the teams.

Under this system the Valley standings would be:

Missouri, 20; Iowa State, 20; Oklahoma, 20; Drake, 17½; Kansas Aggies, 15; Nebraska, 15; Oklahoma A.

& M., 12:5; Washington, 11:7; Grinnell, 10.

These results are based on the results to the end of last week, using the percentage table as it now stands.

Missouri has defeated Nebraska Kansas Aggies; Iowa has defeated Kansas and Washington; Oklahoma has defeated Drake and lost to Kansas Aggies; Drake has defeated Washington, Kansas Aggies, and Grinnell, and lost to Oklahoma; Kansas Aggies have lost to Drake and Missouri and defeated Oklahoma and Kansas; Nebraska has defeated Kansas and lost to Missouri; Oklahoma A. & M. has lost to Kansas and tied with Washington; Kansas has won from Oklahoma A. & M., and lost to Kansas Aggies, Nebraska and Iowa State; Washington has lost to Iowa State and tied Oklahoma A. & M., and Grinnell has lost to Drake.

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh.

HALL'S CATARRH MEDICINE consists of an Ointment which Quickly Relieves the catarrhal inflammation, and the Internal Medicine, a Tonic, which gets through the Blood on the Mucous Surfaces, thus restoring normal conditions.

Sold by druggists for over 40 Years. P. J. Cheney & Co., Toledo, Ohio.

PIE SUPPER

There will be a program and pie social given at school district number 28, Friday evening, October 30th. All ladies are asked to bring a pie and everyone is cordially invited to come and enjoy a good time.

KATHERINE HARRIS,
026-1sw 4 td Teacher.
