E. A. Kroh, all enjoying the day most pleasantly last Sunday.

There was a tryout on the basketball between the high school and the town team and the results are we are told 123 for the latter and 2 for the former, but we choose to venture to say anything for certain.

Mrs. Keith Hoagland, who is one of the very proficient teachers of the Murdock schools, was called to Lincoln last Thursday evening and while the roads were far from good was able to make the trip and get home in time to take up her duties as instructor. Youth and a determination to succeed will over come all obstacles.

Mr. and Mrs. Michael Serick of Lincoln, were visiting in Murdock and were guests at the home of their daughter, Mrs. Homer H. Lawton, where they enjoyed the few days visit most pleasantly. Besides the visit here Mr. Serick was allowed the opportunity of a hunt for the festive rabbit and poined the chase with Homer Lawton and a number of the other lovers of this sport in Plattsmouth.

Many of the people of Murdock and vicinity were somewhat disappointed when the railroad confiscated the car load of potatoes which Herb Firestire has shipped to Murdock, but which never got here. At the time Herb took orders for potatoes the price was \$1.50, but when they arrived and only one car, the people who shipped them to him charged him \$1.80 and then only one car arrived.

The church at Murdock in giving their program at the church on last Sunday, a week ago, had a most appreciative program and at which there were several special numbers which were very attractive. Mrs. Schwab, a returned missionary, made a most able address telling of the life in China, which appealed to the hearers as being a most wonderful country. At the offering there was the sum of \$210 collected which is to go to the missionary work.

Fred Tonak shipped a car load of logs to the South Omaha market last week, which were hauled to town for loading on the Rock Island by E. W. Thimgan and J. J. Johnson, with the surprising fact, that when they were counted at home there were 125 of them and when they had got them to the stock yards there were

126, and neither of the haulers can remember of any hog asking to ride to town with them. However that is doing the thing very nicely.

**REPORT POTATO SCARCITY**  
Omaha, Oct. 30.—A scarcity of potatoes with areas growing sections holding potatoes still in the ground which probably are ruined by the cold was indicated by statements of commission and produce men here today. Robert Smith, in charge of the farmer's union exchange produce market, said that farmers' reports indicate 50 per cent of the Box Butte county crop was in the ground October 10, and 25 per cent of that amount was caught in the freeze. Scarcely a town in Nebraska east of Holdrege and south of the Platte does not need potatoes for its winter needs, he said.

Arthur Trimble, of Trimble brothers, estimated that thirty per cent of this year's crop is in the ground, ruined by the recent freeze.

## REAL FOOTBALL FAN.

Columbus, Neb., Oct. 30.—Columbus claims one of the most enthusiastic women football fans in the state of Nebraska. She is Mrs. A. M. Gray, owner of the Thurston Hotel here.

Mrs. Gray attended all of the games played by the local high school, and since the Nebraska Memorial Stadium was opened at Lincoln in the fall of 1923, she has not missed a single game the Cornhuskers have played at Lincoln. And there have been some dozen of them there.

Piling in as many of her own family and friends as the capacity of the car will allow, Mrs. Gray has trekked the road to Lincoln, in fair weather and foul, to see the Cornhuskers battle every foe they have met on the home field in the last three years, and she has followed the Columbus high school eleven on all of its trips this season.

"Oh, I find it an enjoyable way to take my vacation," Mrs. Gray said.

Arthur "Shorty" Gray, son of Mrs. Gray, is a former student of the university, and usually accompanies his mother to Lincoln.

## League Victory New Chapter in Modern History

**International Support of the Peace Program Starts Talk of a United States of Europe.**

Paris, Oct. 30.—Internationalism as opposed to extreme nationalism and internationalism which will be based in moments of war peril on the surrender of state sovereignty, was given new strength today by the League of Nations.

Completing the work of its special session by quickly adjusting the crisis between Greece and Bulgaria, the council of the league passing on to greater issues, virtually wrote the second chapter of a modern history of which the Locarno security treaties with Germany constituted the first chapter.

This second chapter is that henceforth the League of Nations becomes the machinery for the settlement of all disputes and that war must cease, because, as Austen Chamberlain, the British foreign secretary said, if it does not, all nations will perish from the earth.

Obedience the covenant of the league, Greece and Bulgaria, by agreeing to submit their quarrel to the mediation of the council set a precedent which Mr. Chamberlain warned, must be followed by all. He said that any menace of war anywhere concerns all the members of the league.

The international backing given the league with two great powers, France and Great Britain taking the leadership, has created a profound impression in Paris, and has started anew tonight talk of the formation of a United States in Europe, the idea which Mr. Lloyd George vainly tried to launch at the Geneva conference. It also has convinced statesmen that Europe's power, economically, financially and politically, working through the league will become greater because it will be concentrated instead of divided by jealousies and rivalries.

Another feature of today's council meeting which is causing tremendous interest was the intervention of Viscount Ishii of Japan, who expressed the wish that security pacts like those of Locarno territory will multiply in other parts of the world. There is considerable speculation tonight whether Japan would like to see elaborated a Pacific security pact which would include the United States and would be broader in scope than the Washington four power agreement which replaced the Anglo-Japanese alliance.

It is recalled that inter-continental pacts were favored by the Latin-American states during the last assembly of the league.

The death of the Geneva peace protocol, it is pointed out, leaves Japan with only that protection afforded by the league covenant.

A commission of inquiry, headed by Sir Horace Rumbold, now will proceed to the spot, investigating the incidents leading up to the Greek partition of Bulgarian territory and report its findings to the December meeting of the council.

The closing of this week's session—the thirty-sixth held by the council, was marked by a moving address by Aristide Briand, the president, who said the league's existence had in fully justified by this settlement alone.

In reverent tones, which thrilled his hearers, M. Briand dedicated the session, just closed to the memory of Woodrow Wilson, "who proposed and realized the league of nations and of Leon Bourgeois, the French statesman, who presided over the peace conference commission, which adopted the league covenant."

**CORYELL HEADS OIL MEN**  
Omaha, Oct. 30.—George Coryell of Lincoln, was re-elected president of the Nebraska independent oil men's association here today, filling in his own account the post he has held since W. S. Bilby of Fairbury resigned last February.

Bert Watson, Albion, was elected vice president and C. M. Sutherland, Lincoln was continued as secretary-treasurer.

Directors named were G. A. Steele of Omaha; W. W. Watson, Norfolk; A. W. Kiefer, York; W. F. Wood, Haigler; F. R. Linderman, Central City, and R. C. Schultz, Scribner.

**CHICAGO U. TO FOSTER BEST ALIEN TRADITIONS**  
Chicago, Oct. 30.—The University of Chicago plans to foster such traditions of the old world as contribute to the best traditions of the new world. To that end, the affiliated Germanic group of the city of Chicago has been organized to encourage and support the study of modern languages and literatures at the university. In the group are leading representatives of the Germanic nationalities in Chicago.

**SUPPORT THE RED CROSS**  
There is today, as never before, an understanding of the part the Red Cross is playing as the great democratic agency of the people in offering to suffering humanity a merciful help in time of stress. Even more important is the growing understanding of the fact that the Red Cross is enabled to occupy this position in our national life solely because of the annual membership campaign and the support given to it at that time through membership dues of more than three million men and women.

## MUSSOLINI DECLARES FASCIIST RANKS FIRM

Rome, Oct. 27.—The third anniversary of the advent of the fascist government finds the old regime of "Semi-Liberalism" completely destroyed and new period in Italian history successfully begun, declares Premier Mussolini in a proclamation today.

It finds the fascist ranks compact, disciplined and as ready for sacrifice as they were immediately after the historic march on Rome in 1922, while "in the opponents' camp reigns confusion and disorder the leaders confessing their defeat and documenting their importance."

"The old semi-liberal regime is well buried," Mussolini declares with the Italian people offering orderly and wholehearted support to the fascist government.

## KEISER'S GUARDIAN ENTERS FEE PROTEST

Wahoo, Neb., Oct. 27.—Oscar Hanson, president of the first National bank of this city and guardian of Levi Keiser, incompetent of Ashland, Neb., appeared in county court yesterday afternoon here, objecting to the allowance of attorney fees in the sum of 35 hundred dollars, on the grounds that they were not proper charges against the Keiser estate, but should be paid by Harry Keiser, Levi's son, who employed the attorneys.

A New Jersey traffic policeman directed John D. to the right road to Terrytown, and John D. gave him seven bright new dimes. Which if compounded semi-annually for 500 years will make the cop even richer than John.
