Clifford Appleman who makes his home in Lincoln where he is employed, was a visitor in Alvo and at the home of his parents for a number of days last week. He was visiting with the family and friends.

Joe Vickers while he is a joshier, also hits the nail on the head for he said on last Thursday, when he was in town, "I do hate to pick corn, and I don't care who knows it, and Briggs will be pleased to put it in the paper," so here it is.

Roy Coatsman was out with the harrow getting the roads in condition for travel and hoping that they might get into a better condition before the coming of real winter weather which makes them freeze, whether they are rough or smooth.

Mrs. J. L. Dimmett, of Greenwood, was a visitor in Alvo for a number of days last week, where she was caring for her mother, Mrs. Wolfe, who has been quite ill for some time. The people of Alvo are much concerned when Aunt Maggie is sick, and are hoping she may soon be well.

S. K. Johnson has been hustling into the matter of picking corn and says that the yield is fully up to his expectations and probably a shade better, for when the weather was dry it did not look good for a bumper crop, but the old August was a fine month and redeemed the whole summer.

State Organizations Exchange Views at Convention, Held in New York

New York. —Patriotism expressed in training immigrants for citizenship, in scholarships, in improving motion picture films, inculcating conversation ideals and thrift, has been brought out in the reports at the state convention of the Daughters of the American Revolution at the Hotel Commodore here. In more obvious ways the reports show that members of the organization also are expressing patriotism, marking historical spots, putting milestones along the old trails and keeping before the public the traditions upon which the nation was founded.

Nine hundred members of the 150 chapters in the State are attending the convention and there were 500 guests at the luncheon which honored general Mrs. Walter Ambrose Robinson of Alabama, Mrs. Gerald Livingston Schuyler of Colorado, Mrs. George M. Young of North Dakota, Mrs. Thomas W. Spence of Wisconsin, Mrs. Charles Beach Boothe of California, and these national officers: Alfred Brossseau, Mrs. James H. Stanfield, Mrs. Franklin P. Shunway, Mrs. Larz Anderson, and Mrs. Charles S. Whitman.

Market Booms Due to Rumors of Melon Slices

Standard Oil of Nebraska Dividend Seems to Bear Out Street Talk —Rail Stocks Also Soar

New York, Nov. 4.—Wall street today experienced its greatest boom stock market in nearly ten years.

Total sales were calculated by Associated Press tabulators at 2,891,000 shares, or 99 thousand above the previous year's high established on October 16 and the largest since the famous "three million share" market which followed the "leak" on President Wilson's peace note in December, 1916.

The averages of 20 leading railroad and 20 leading industrial stocks attained the highest levels in history with more than 40 individual issues smashing their previous peak prices for the year. The advance, however, was by no means uniform, as several substantial losses were scattered throughout the list.

United States Steel Leads United States Steel common, which ordinarily fluctuates within one or two point range, was the market leader, jumping over five points to 134 1/2, the highest price since 1917, when the peak price of 136 1/2 was established. Total transactions in this one issue exceeded 160 thousand shares.

The rally like so many which have preceded it within the last few weeks, was not associated with any outstanding development in the day's news. Wall street, which is seldom without "explanation" for a price movement, in either direction, was flooded with rumors that an era of "melon cutting" was in store.

Rumors Seem Backed Up The declaration of an extra cash dividend of ten dollars on the common stock of the Standard Oil company of Nebraska seemed to fit in with these rumors. The United States Steel corporation had an undivided surplus of more than half a billion dollars, but Chairman Gary has repeatedly denied reports in recent years that it was to be capitalized through the declaration of a stock dividend.

Considerable interest attaches, however, to the meeting of General Motors directors on November 12, when it is expected that a "generous Christmas dividend" will be declared. Preliminary estimates range from \$1 to \$3 a share.

May Cut Tax Total by Some 300 Millions

House Committee Members Ask Treasury for More Specific Facts.

Washington, D. C., Nov. 4.—Desiring to make the maximum possible reduction in taxes, the house ways and means committee today asked the treasury, which has suggested a limit of 300 million dollars, to present additional data on probable government expenses and receipts for the next fiscal year so it can determine for itself how far to go in cutting levies.

This was the committee's first move when it started work today on the actual preparation of a tax reduction bill after more than two weeks of public hearings.

While Secretary Mellon proposed that the government's annual income be reduced by not more than 300 million dollars, committee members feel it may be possible, on the basis of late estimates, to go beyond this figure. President Coolidge inches in time for presentation when congress convenes December 7.

Under a program of procedure approved today the committee will tackle the income taxes after setting its goal for total reduction.

Secretary Mellon recommended a cut in the maximum surtax rate
