Ban was shot through the right temple and died at the naval hospital. Testimony at the board of inquest convened immediately after Ban's death, was that no ill-feeling had existed between the two men.

Nebraska Potato Growers are Prospering

Average Less, but Yield Big and Price Doubles, Due to Shortage Elsewhere.

Lincoln, Nov. 9.—Western Nebraska potato growers have their fingers crossed this year. Seven leading counties produced 3,291,000 bushels against 2,542,000 bushels last year. The commercial crop is worth two and one-half times last year's crop, average is less, yield larger and price double, according to estimates of the state and federal division of agricultural statistics, issued today. Box Butte county leads with 1,034,000 bushels, followed by Scotts Bluff with 592,000 bushels. The other counties, in order of rank are: Sioux, 527,000 bushels; Sherman, 615,000; Dawes, 307,000; Kimball, 187,000; and Morrill, 128,000.

The Nebraska potato situation is the exact reverse of that of a year ago. Last year the commercial crop in western counties was very poor, while eastern Nebraska produced record yields. This year the commercial crop in western counties is above the average, while eastern Nebraska has one of the lowest yields on record.

Average Yield 177.6 Bushels

The seven leading commercial potato counties of western Nebraska will produce 3,291,000 bushels of potatoes, as compared to 2,542,000 bushels last year. The area is much less being 27,970 acres, as compared to 35,875 acres last year. The average yield is 117.6 bushels, as compared to 79.8 bushels last year. Box Butte county leads with 1,034,000 bushels, followed by Scotts Bluff with 592,000 bushels. The other counties, in order of rank are: Sioux, 527,000 bushels; Sherman, 615,000; Dawes, 307,000; Kimball, 187,000; and Morrill, 128,000.

The sudden drop in temperature last month did some injury to the harvested potatoes. Definite information is not available, but it is estimated the loss will approximate 5 per cent of the crop.

MAY RESTRICT ACTION OF U. S. DRY AGENTS

Washington, Nov. 8.—Hair-trigger prohibition agents whose zeal is climaxed in killing of citizens—innocent or otherwise—may find themselves forced to stand trial in the courts of the country or state in which the killing occurs, as the result of a forthcoming United States supreme court decision.

Of almost equal importance with the decision, which is expected will deny shooting agents the right to venue in federal district courts, is the warning of Brigadier General Andrews, assistant secretary of the treasury in charge of prohibition enforcement, that "illegally ardent" agents will be summarily dealt with in the future.

"I WOULD BANK MY LAST DOLLAR ON THIS KARNAK"

Lincoln Man Says This Remarkable Medicine Has Made Him As Fresh and Fit As A Two Year Old.

"Speaking from my 69th experience with Karnak, I'd bank my last dollar that this new medicine will help anyone who tries it," says H. E. Sheerer, a well known steam-fitter, living at 510 N. 14th St., Lincoln, Neb.

"Before I got hold of Karnak I had lumbago or rheumatism through my back, shoulders and both arms which caused me terrible pain. It just seemed like a 'kink' would catch me, first in one place, and then in another. I would just near-

ly double up with pain at times so I could hardly hold a wrench or a piece of pipe. I also suffered from nervousness and constipation, and my sleep was so restless and broken that mornings I didn't feel worth a cent.

"After trying everything I knew of Mr. Engleking told me what Karnak had done for him, that's how I came to try it. Well sir, four bottles have made a clean sweep of my troubles. I haven't an ache or pain now, sleep as sound as a dollar, and mornings I feel as fresh and fit as a two-year-old. Karnak is the greatest medicine I ever heard of, and I can't say half enough for it."

Karnak is sold in Plattsmouth exclusively by F. G. Fricke & Co., and by the leading druggist in every town.

University Announces Seats for Turkey Day

Notre-Dame-Nebraska Football Game Can Be Witnessed by Thousands as Many Seats Still Available.

Lincoln, Neb., Nov. 7.—Contrary to the belief of many football fans there are still about 12,000 good seats left for the Nebraska-Notre-Dame game to be played here in Nebraska Memorial Stadium, November 26 (Thanksgiving Day). John K. Sellenk, business manager of athletics, declared today.

"Many people out in the state somehow have gotten the impression that the seats for the Notre-Dame game are all gone," he said. "This is not so, although it is true the majority of the seats in the stadium proper are gone. However, we have erected some 12 thousand temporary bleachers and put a parkade section which together will enable us to care for approximately 45,000 spectators."

"These temporary bleacher seats are good ones. They are as good as the end seats in stadiums built like a horse-shoe. Of course, those who want to be closer to the playing field can have seats in the parkade section, which will be erected directly in front of the east and west stadium stands on the running track. These are preferred seats and we are making a charge of \$3 for them, \$1 more than our ordinary price."

"I wish that the newspapers in the state would co-operate with us in convincing the people that there still are good seats for this game, the biggest one scheduled anywhere for Thanksgiving. The Notre-Dame crowd will be the largest gathering of people ever assembled in one place in the state, I believe. I have had definite information that football fans are coming from the farthest points of the country to witness the game. The railroads have granted greatly reduced fares for the day, and Nebraska fans should avail themselves of that opportunity if they wish to see a great football battle."

"The seats are going fast but we have a lot of them, and fans can still get good ones. I would advise, however, that they send in their reservations at once."
