

Greenwood Department!

Prepared in the interest of the People of Greenwood and Surrounding Vicinity

Phil L. Hall was a business visitor in the county seat last Monday, driving down in his auto for a short time.

Mr. and Mrs. A. F. Weibke were visiting with friends and looking after some business matters in Lincoln last Wednesday.

W. E. Newkirk has been having a new roof placed on his new home, the work being done by Gust Sorman and Clyde Newkirk.

Mrs. W. E. Newkirk and Miss Uvon West were visiting for a short time in Lincoln last week, they driving over in their car.

S. H. Grey had the misfortune to lose one of his fine Duroc Jersey porkers, which he had to return to mother earth one day last week.

Ed Bell had the misfortune to lose two calves from his herd with black leg, this being the only case which is reported in this section of the country.

C. D. Fulmer was spending some time in Plattsmouth last week while he was serving on the jury as a member of the regular November court panel.

J. C. Wedeman, of Lincoln, was a visitor in Greenwood last Wednesday, looking after business and also calling on his old time friend, C. E. Calfee.

Marjorie Newkirk celebrated her ninth birthday last Wednesday with a number of her little friends as invited guests and all enjoyed the occasion.

Oscar Walker, who has been making his home at Hot Springs, South Dakota, where he is engaged in work at his trade as a tinner and sheet metal worker.

W. C. Emulund of the Farmers State Bank of Greenwood, was a business visitor in Blair last week, where he was called to see about some matters of importance.

Mrs. F. M. Hoensh, who some time since moved to Omaha, was a visitor in Greenwood for a number of days last week and was visiting there with her many friends.

The genial harness maker and clothier to the horse and mule family, and a very genial gentleman withal, has purchased a new Overland car for the use of himself and family.

Miss Catherine Coleman, the efficient and pleasant postmistress, was the holder of the lucky number which drew the quilt, disposed of by the Altar society of the Catholic church.

Mrs. Arthur Stradley shelled and delivered corn during the past week at the elevators at Greenwood, Phil Reese, the manager of the oil station, was out and assisted in the scooping of the corn.

Following the completion of the gathering of his own corn, John Gustafson has been assisting in the gathering of the corn of Irvin Reese, which gets the neighbor's corn out a little sooner as well.

J. C. Lomeyer was over to the county seat a short time since and having the shelling of corn to look after, he presented his claims to the court, and was excused from serving on the jury, being allowed to return home.

John E. Stradley and the good wife are rejoicing over the arrival of a very fine young son at their home. The young man is providing much entertainment for the home and sure was a welcome visitor. All concerned are doing finely.

While Rex Peters was at the grain dealers convention, his father, O. F. Peters, was looking after business at the elevator, and at the Farmers Union elevator Judge W. E. Hand looked after the business for Emmett Landon, the manager.

S. S. Peterson, the village smithy, took a lay off from his daily grind in the shop one day last week and picked corn at the home of Leonard Anderson and wife in the lee of the corn at the home of Mrs. Opal Hartsook, where they with others picked her corn.

Fred Spahnels, of Eagle, was a visitor in Greenwood last Wednesday and was looking after some business matters in town. Fred is a rustler and a very pleasant gentleman to meet as well as to transact business with and is making a success in his line of salesmanship.

Junior Coleman, son of Mr. and Mrs. Frank Coleman, who has been so ill for some time, was taken to the University hospital in Omaha last week in order that the case could be under more close attention and given careful nursing. The trouble has been diagnosed as intestinal flu and he has had it for some time.

Ashton Keith, who has been so ill at the home of his grandmother, Mrs. Dyer, and whose recovery was de-

spaired of, is reported as being much improved and it getting along much better at this time. His many friends are wishing that he may soon be able to be out again and well.

Arthur Comstock, who is here from Grand Island, and is assisting his brother, Roy Comstock, in the harvesting of his corn crop, has not been feeling the best for some time, on account of ulcers of the stomach.

He is expecting to go to the hospital soon for an operation and treatment. His many friends are hoping that his stay may not be long at the hospital and that he may soon be restored to good health.

C. E. Calfee and wife were visiting in Lincoln last Sunday, where they went to visit at the hospital with Mrs. Ira Loder and Mrs. Anna Metkatt, who are recovering after having undergone operations, and they report the patients are doing nicely.

They also remained for the evening service at the Elm Park Methodist church, they being members of this church, and returned to their home in Greenwood after the services.

Gust Voitzel completed the gathering of his 1925 corn crop on last Friday, and is well satisfied with the returns which were greater than he had expected. During the closing days of July, the weather was hot and dry and things looked rather bleak for the farmer, but with the coming of August, the showers came in abundance and the crops which had looked so disparaging turned out to be O. K. so now the farmers are smiling, and why not?

Rex Peters and Emmett A. Landon, the managers of the two elevators in Greenwood, were in attendance at the grain dealers' convention in Omaha last week, where they enjoyed the occasion very much. They were joined on Wednesday evening at the banquet which was given for the visiting grainmen and friends by their wives and Mr. and Mrs. Peters also had for their guests, Mr. and Mrs. J. I. Carpenter. The bunch from here surely enjoyed the occasion.

Mr. and Mrs. Frank Brown have a child which was very ill, it being about two and a half years old, and as it did not get better it was thought best to take it to the hospital where better care could be given it, and accordingly Niles Coleman kindly offered his car and services to take the child and its parents to Omaha which was gratefully accepted by Mr. and Mrs. Brown, who accompanied them to the hospital. The little one is very ill, but the friends are hoping that it may soon be better.

Oscar Harlan, a former friend of Pearl A. Sanborn, of the Sanborn Service Garage, who makes his home in Lincoln at this time, and who formerly was acquainted with Mr. Sanborn, but the years intervening since they last met, prevented Mr. Harlan from remembering him when he entered the garage a few days ago to make some inquiries, although he was recognized by Mr. Sanborn. They had some very pleasant memories to call to each other's attention and enjoyed a very pleasant visit.

This Looks Very Good
Francis Kelley, living north of Greenwood on the Salt Creek bottom, where the soil is rich and deep, was able with the right kind of cultivation, to raise on 17 acres of corn just 1,700 bushels this season, or 100 bushels to the acre. This and one other instance in this county is all the farmer has heard of where the corn has yielded that much, but many pieces have approached this in yield, for the present year has been far from one of crop failure.

Will Market Corn Soon
John Gustafson, who lives just off the D. & M. highway northeast of this place, and who farmed the past summer on one of the Woods Brothers places, has completed the gathering of the crop, and as there are not adequate cribs to handle the crop, he has piled the corn on the ground, it making two ricks, one hundred feet long and twenty feet wide and containing in all nearly 3,500 bushels of the yellow ears, making almost a golden mountain. He will immediately shell and deliver the grain, as they think the proposition of building cribs just to hold the corn not the best and will market it at once.

Buy a New Shelter
The Meyers Brothers have purchased a new shelling outfit, with a Rumley Advance engine and the shelter also manufactured by this company, but which was an invention of a Greenwood man, Mr. J. V.

Stradley and which is one of the most effective shellers on the market. The Meyers Brothers will no doubt have an abundance of work in this line to do, as there is a very good crop of corn and there will be very liberal marketings as soon as the corn is in condition to ship.

Manifesting a Splendid Spirit
If there are those who would argue that the splendid lectures and teachings inculcated in the work of the I. O. O. F. and the Masonic orders are high-sounding but meaningless bits of phraseology for initiation purposes, they need but come to Greenwood to learn their mistake. For it is here that they have been put into practice during the past week, affording a very striking example of the brotherhood of man, when members of the two orders who are in the corn field of Mrs. Opal Hartsook, who is a member of the Rebekahs and the Eastern Star, and whose late husband was a member of the Odd Fellows and the Masonic order, and there succeeded to pick the corn crop, storing it in the cribs and when the time comes will no doubt shell and market it as well. Some time since they went to the timber, cut wood for the winter and at another time sawed and placed the same in shelter for the coming cold weather. Now we can see the literal truth in the teachings of the principles of brotherly love. The two ladies organizations, the Rebekahs and the Eastern Star, went to the home where their brothers were working, and being prepared, they provided a sumptuous dinner for the workers and also aided with the strictly spirit which was demonstrated and above and beyond all showed to Sister Hartsook that they brothers and sisters indeed, for they were this in need.

Griggs Put in a Hole by Guaranty Fund Body
Adopts New Rule Permitting Vice Chairman Dempster to Sign Checks for \$2,600.

The guaranty fund commission at its recent meeting adopted a new rule and regulation whereby the claims of K. C. Knudson for \$2,600 for services performed by him as receiver of banks is to be paid in spite of the refusal of Secretary Griggs of the department of trade and commerce to countersign checks for that purpose issued by the commission.

Countersigning by either the chairman or vice chairman is now sufficient under the new rule. Secretary Griggs is chairman of the guaranty fund commission by virtue of his office in the department. He refused to approve the Knudson claim on the ground that Knudson himself had paid him, by check, the amount of \$2,600 during the time he was secretary of the department of trade and commerce and was drawing \$4,000 a year as such secretary.

Mr. Griggs' refusal is no longer a hindrance to the allowance of the claim. E. J. Dempster, of Geneva, vice chairman of the commission, will sign the Knudson pay checks.

"He will sign them," said Secretary Van E. Peterson of the guaranty fund commission Friday.

"Mr. Dempster told me he would sign them," said Mr. Griggs.

The Knudson claims have been referred to by one of the commissioners as "the price of co-operation." The amounts allowed him were fixed by the district courts of Douglas and Lancaster counties. The bank receiverships came into Mr. Knudson's hands while he was head of the code department of trade and commerce. He refilled his claims with the court alleging he was asking for pay for services performed after he went out of appointive state office.

Mr. Griggs, in opposing the claims, had cited the statute which requires the head of code departments to devote their entire time to their work and prohibits them from accepting any other remunerative office.

The approval of the Knudson pay check by Vice Chairman E. J. Dempster will end the controversy unless unexpected interference is encountered. Accounts of the guaranty fund commission are not audited by the state auditor, nor do they go to the secretary of state for approval. The commission collects assets of failed banks and disburses the funds under its own rules and regulations.

One month ago Secretary Peterson presented to the commission a check cut out by the chairman of the commission, Mr. Griggs, from having anything to say about expenditures of the commission or its receivers. The new rules, in the form presented one month ago, were laid over until the recent meeting, after an attempt had been made to set an immediate vote upon the secretary. At the recent meeting a modified regulation was submitted and adopted.

It provides that all checks and vouchers and expenditures shall be valid and binding upon the commission when signed by the secretary for and on behalf of said commission and countersigned by the chairman or vice chairman.

APPROVE SECURITY PACT
Berlin, Nov. 19.—The treaties of security and arbitration initiated by Chancellor Luther and Foreign minister at Locarno were approved today by the Premiers of the German federated states. The cabinet im-

The Old Reliable Buyer

Greenwood People Show Real Spirit
Prove That the Rush of Everyday Affairs Does Not Extinguish Spirit of Service

From Saturday's Daily—
There was a very representative attendance of American Legion Auxiliary members present at the regular November meeting of the organization held yesterday afternoon at the home of Mrs. William Kraeger.

HISTORIC CHURCH TO BE MADE SAFE BY REPAIRS
Honolulu, —Kawaiho—the Westminster abbey of Hawaii for the last eighty-three years and the first stronghold of the missionaries who came to the Islands from New England more than a century ago—has been declared unsafe. Insidious white ants, wood borers, have invaded the floor beams, girders and columns eating away the inside and causing danger that the structure might collapse. The building has been closed and will not be opened until steel and concrete are substituted. A reconstruction committee estimates that repairs may cost \$100,000. The church was designed in 1836 by

Hiram Bingham, one of the missionaries and forefather of Senator Hiram Bingham of Connecticut. The building was completed in 1842. It has been the scene of many incidents in Hawaii history.

W. REX YOUNG
PLATTSMOUTH, NEBRASKA
General Auctioneering
Also Pure Bred Sales

At present I have the following sales listed and more yet to come but not ready to be advertised. Those that do not have the exact date set, will be dated later and appear in ad when dated. Several of these sales are Pure Bred.
NOVEMBER
19—Earl Fletcher, Grant, 200 pure bred hogs.
30—Mrs. Joe Bell, Plattsmouth
DECEMBER
10—Edd Smallfoot, Dunbar
