Uncle Henry J. Miller has been assisting at the Rehmeier elevator and sure he makes a most excellent hand when it comes to handling grain. Many Are Selling Their Corn. The matter of marketing of corn about Alvo with the higher prices which have been prevailing during the past week, and the fact that in many cases there is insufficient room to store it, is causing quite a movement of this cereal when the weather and roads are so that it can be hauled. During last week there were shelled and delivered to the Rehmeier elevator, corn by the following farmers, W. J. Aulhouse, Arthur Klyver and Carl Johnson. Mr. Johnson had to stop shelling because of the wet weather.

One of the features of the third degree on three candidates, they being Messrs. Verne and Sherrell Pifer and F. L. Edwards, who were made full fledged members of the order. One of the other interesting features of the day was the excellent banquet which was spread by the Pythian Sisters of Alvo. And when it comes to serving something which satisfies there are none, no matter from what country or clime that can exceed these women in making something which satisfies the appetites of the Knights as can the home cooks.

Card of Thanks. We desire to express our most sincere thanks to all who so kindly assisted during the illness, death and burial of Grandma Johnson, Her Children.

Doing Patriotic Work. The following year she came to America, first locating in Wisconsin and Michigan where she and her husband lived for about two years and in 1869 came to Nebraska and settled but a short distance from Alvo where they have since lived and raised a family, most all of whom are here at this time. Mr. and Mrs. Johnson farmed during most of their lives, they being early settlers. Some years since they moved to town to live and in 1916 Mr. Johnson died. Mrs. Johnson has made her home here for the time shown though at intervals she has visited with the children. She passed away at the advanced age of eighty-one years, on last Thursday morning, at close to the noon hour. The funeral will be held at the Methodist church on Sunday and the services will be delivered by Rev. Ross H. Chenoweth, pastor of the Methodist church, at Alvo. Mrs. Johnson united with the Danish Lutheran church early in her life and has remained a consistent member and a very devoted follower of the Master whom she always endeavored to serve.

She leaves to mourn her departure, five children, four having preceded her to the other world during childhood. Those remaining are Mrs. Ole Peterson, C. S. Johnson, S. K. Johnson and August Johnson, all of Alvo and another son, Robert Johnson of Coon, Iowa. There are twenty-four grandchildren and one great grandchild. She has three sisters and two brothers in Denmark, and one brother living in Oklahoma. The interment will be made at the cemetery north of Alvo, where she will sleep until the trumpet of the Angel of the resurrection shall sound.

Protective lubrication is Power Insurance

Only an unbroken film of oil can prevent the escape of vaporized gasoline past the piston rings or make the expanded gases generate power. Locking the vapor and the propelling force of burning gasoline behind the piston head is one of motor oil's most important functions.

To flood all bearings and cushion the surfaces of moving parts with a clean film of oil that prevents friction between metal surfaces is equally important.

Oil that does these things insures the maximum development and use of all the power the motor develops. It is power insurance and protection against motor wear—in the best sense, protective lubrication.

It is neither hard nor expensive. Simply consult the Polarine Chart and buy the grade of oil recommended for use in your motor, whether car or truck. Drain out the dirty, contaminated oil and replace with clean oil every 500 miles. Tests without number prove that after 500 miles of operation, motor oil is thinned and spoiled by gasoline and polluted with fine grit and carbon.

Polarine is made in Six Grades—Light, Medium, Heavy, Special Heavy, Extra Heavy—and a special grade for Ford trucks and cars—Polarine "F".

Buy Polarine where you buy Red Crown, the balanced gasoline—or wherever you see the Polarine sign.
