L. F. Langhorst Has Close Call from Explosion

Explosion of Furnace Badly Burns Well Known Merchant and His Life Saved by Son.

From Wednesday's Daily—L. F. Langhorst, well known Elmwood merchant and prominent democratic leader of the state, had a very close call from death yesterday at

his store at Elmwood and only by the prompt work of his son, William, was the father saved and the store kept from being destroyed by fire caused by the explosion of a furnace in the basement of the store building.

From what could be learned of the accident, it seems that Mr. Langhorst had gone to the basement of the building to fix up the fire that had gone down, turning on the oil into the furnace and as soon as the oil flowing in struck the hot plates of the furnace and in an instant the explosion took place, Mr. Langhorst being struck in the face by the flame and his face and hands badly burned. His clothing caught

fire and for a few moments it seemed that he would be more seriously if not fatally burned by the flames. His son, William, came to his rescue and succeeded in beating out the flames on the father as well as being able to extinguish the blaze that had started in the basement and which in a few moments would have gained such headway that it would almost certainly have destroyed the store building.

The injured man was reported today as resting as easily as possible but suffering more or less from the effects of the ordeal that he had passed through.
