That is the place many people put their valuable papers. Some put them in the bureau drawer, while others place them in the family album.

Now, none of these places are very safe.

We have just received and installed a number of lock boxes, which are located in our burglar-proof bank vault. There your valuables will be secure. We have installed these for the convenience of our patrons and the rental price on them is very low-only \$1 per year, or eight cents a month.

Your papers could not be safer anywhere, nor can you find a less expensive place to keep them.

"Sleep on it is finished." The struggle was over. He was resigned to the Father's will. Then He said arise, they are at hand which would betray Me. Then came a crowd of people from Jerusalem, with swords, spears and other arms, and with Judas Iscariot, who kissed Jesus, saying "Hail, Master." Jesus rebuked him with the query "Dost thou betray the Son of God with a kiss." Peter having been aroused and realizing that the Jews sought to take the Master to crusify Him, drew his sword and the fight in his face was at its heights, he struck out and the one closest was a servant of Malchus, and the first stroke severad an ear. The Master said. "hold, that is enough." He that fightest with the sword shall perish by the sword, and reaching out touched the ear of the wounded man and healed it instantly. Then was Christ lead away to the city and all the disciples scattered, but Peter and another disciple followed and entered into the court of the house of Annas, warmed themselves by the fire which was builded in the court of the house. Then a damsel with a tapering finger, and with scorn in her voice said unto Peter. "Thou wert with them." and wonde-ful Peter denied, this happened three times and on the third time with an oath. Turning by a power which he could not resist Peter looked on the Master, who also looked reproachfully on Peter, and Peter knew that the Lord had known more about him than he had himself, and went out

into outer darkness and wept bitterly. When a baby cries, it does not add much to our comfort, and when women weep, it sometimes greatly
