CAN BE COLLECTED A Colorado newspaper recently took through the court a suit against a subscriber who owed eleven years subscription and refused to pay, claiming he had only subscribed for the paper for one year. The courts decided the subscriber must pay holding that he had accepted the paper all the time and therefore owed for it.

Many people believe the impression that newspapers cannot collect delinquent subscriptions, but they can. It has been through the supreme court of practically every state in the Union and the newspaper has invariably won the case.

Miss Pauline Kovar of This City and Mr. Stanley Svehla of Friend, Nebraska, Are Wedded.

The beautiful and impressive nuptial mass of the church was celebrated by Monsignor Michael A. Shine, rector of the St. John's church and which joined for life the hearts of the destinies of the estimable young people.

The bride party was one of real beauty and charm in the handsome dresses of the ladies and the darker and more somber suits of the gentlemen of the party.

The bride wore a very handsome gown of white crepe, trimmed in lace and wearing the flowing veil which was held in place by a wreath of white sweet peas. Miss Kovar wore as her only jewels a gold cross. The bride bouquet was of bridal roses, lilies of the valley and sweet peas and completed the bridal attire most fittingly.

The bride was attended by Miss Josephine Kubovec and Miss Josephine Svehla of Omaha, the latter a sister of the groom. Miss Kubovec wore a gown of pale green crepe and carrying a shower of the salmon pink roses and sweet peas, while Miss Svehla wore a costume of blue crepe and carried a shower of the dark blue sweet peas and snapdragons.

Both of the bridesmaids also wore the long strings of pearls that added a pleasing note to the costumes.

The groom was attended by his brother, Frank Svehla, and Mr. Dargar Reichstadt of this city, they being attired in the conventional dark suits.

Following the wedding ceremony the members of the bridal party motored to the home of Mr. and Mrs. Herman Reichstadt where a wedding breakfast was served to the members of the party and this afternoon Mr. and Mrs. Svehla motored to Friend where they are expecting to make their future home.

OLD NEWSPAPER SAVED The newspaper that "scooped the world" by being the first to print the Declaration of Independence in full has been revived, after a suspension of several years. It is the Virginia Gazette of Williamsburg, established in 1736, the first newspaper ever published south of the Potomac river.

Its revival is due to a resolution of the National Editorial Association calling for its restoration because of its historic past. Local interests recently resurrected the paper and it is now edited by students of the journalism school at the College of William and Mary.

While devoted in part to local and general news of the week, the new Gazette makes a specialty of publishing old historic items of which a letter from Thomas Jefferson, telling of his proposal of marriage to Rebecca Burwell, is an interesting sample.

Jefferson wrote: "I had dressed up in my own mind such thoughts as occurred to me in as moving language as I knew how. But good God! When I had an opportunity of venting them, a few broken sentences uttered in great disorder, and interrupted with pauses of uncommon length were too visible marks of my strange confusion."

It may be added that Rebecca married another, but Jefferson found a devoted wife in Mrs. Martha Skelton, a handsome widow of 23, whom he married in 1772.

EIGHTH ANNUAL FARMERS FAIR

The Eighth Annual Farmers Fair the annual event when the students of the University of Nebraska, College of Agriculture dress up the college and show it off to the public, will take place on May 1, this year.

It will be held on the College of Agriculture campus. This largest of all student affairs in the university is managed and staged entirely by the 500 students in the college.

The students have a definite set of purposes in putting on a fair of this nature. An event such as Farmers Fair affords the remainder of the university an opportunity to become better acquainted with the College of Agriculture. It gives the tax payers of the state an opportunity to see the college in action.

It gives the students in the College of Agriculture practice in handling a community enterprise such as they are likely to encounter in the key positions they may occupy among farm people.

Farmers Fair is strictly self supporting, and no student receives any financial remuneration for his part in the event. This fair has become known as the Student Event With a Reputation. An average annual attendance of over 10,000 people has been the record the past three years.

The 1926 fair will feature educational exhibits. Each department of the campus will have on display a student prepared exhibit. These exhibits will represent the work being done by the various departments. The fifty floats that will make up the parade will also depict the work being done by the college. This parade passes down the main business streets of Lincoln, and every year thousands of people line up along the streets to see it.

The amusement features of Farmers Fair are not put on merely to entertain the crowds, but also to show the public that our Nebraska farmers do have sons and daughters with ability and talent. The Snorchonem on of the funnest shows comprised wholly of boys, always goes over big, and the Cornfield follies and all girl shows, does much to add grace and beauty to the fair.

The pageant play, the super entertainment of the fair, will be more gorgeous and lavish in both cast and dress than ever before. A cast of over 70 girls, who are students in the Home Economics department of Ag College, will take part in the production. The Piper, the play to be presented, is a beautiful fairy tale drama.

Other entertaining features of the fair will be found on the midway where may also be found the Yellow Dog Saloon, the dancing pavilion, tea rooms and the barbecue pavilion.

The question of an open shop is not subject to arbitration. Under the proposed contract, a union composing room being pronounced one in which "the union has been formally recognized by the publisher."

The agreements provided in the contract will be in effect for five years.

The adoption of arbitration contract by the A. N. P. A. marked the first definite step in formulating an agreement since the previous contract with the I. T. U. expired in 1922.

The rest of the day's activities were devoted to a discussion of mechanical and business matters affecting the A. N. P. A. members.

UNSELFISH IDEALISM IS BEHIND LOCAL NEWSPAPERS

The local newspaper in the United States is each year getting on a firmer foundation and becoming more and more useful to its home community.

It is the home newspaper which boosts the town, year in and year out, which takes the lead in every enterprise which has for its purpose the upbuilding of the community.

We frequently hear it said that the old-time independent spirit of the newspaper is gone, that its editorial policy is now subservient to the business office. Yet this is not true. There is more unselfish idealism in the average local newspaper than in any other business enterprise. It frequently speaks out in the way which it believes will be for the good of the nation and of the community, regardless of what the consequences may be from a business standpoint.

The local newspaper is the principal booster for the community, and it does its boosting often without hope of material reward. Unfortunately the community has been misled by speculators who do not support their local newspapers.—Wisconsin State Journal.

WHY NOT?

Thus far, radio has sought its leading program features from the opera, the concert hall, the orchestra and the stage. The day may come when the relationship will be reversed—when the broadcasting station will comb the field of original talent; when broadcasting will create new reputations, instead of capitalizing old ones; when the opera, the stage or the concert hall will draw from radio in response to the demand of the public to see as well as to hear its favorite artists; when broadcasters will compete with music publishers for original compositions, and not only buy but sell music publishing rights. This may seem a far cry, but radio broadcasting has advanced far from the days of mechanical music to the present stage of star programs.—David Sarnoff, vice president and general manager, Radio Corporation of America.

A delicate situation is created for Duce Mussolini by the African potentate who has presented him with a chieftain's nose ring for his recently perforated nostrils. It is said that to satisfy the demands of colonial diplomacy the dictator will wear the ornament on important state occasions.
