Charles R. Troop, of Plattsmouth, was down to the farm during the early portion of this week, assisting in the hauling of water for the cattle which are on feed at the home of W. O. Troop. John Graham, of Murray, was a visitor with his friend, George Troop, of north of Nehawka for the week end, and the boys being enterprising, went out and tried their luck at capturing swallows and were able to capture eight of the wary birds. rich and when cleared provides very productive farming land as well.

Likes New Power

Roland Schlichtemeier, who is farming north of Nehawka and west of Murray, has one hundred and seventy-five acres of corn in this year, all of which he put in without one horse on the place, his source of power being a Hart-Parr tractor, with which he plowed the land and planted the corn, which is now up and ready for cultivation. Aid Is Provided For the Disabled

Bill Passed Unanimously by the House After Democrats Open Unremitting Attack on Administration

Washington, May 17.—Legislation calling for expenditure of \$30,000,000 in the next three years for the aid of 27,000 disabled world war veterans was passed unanimously today by the house and sent to the senate.

Action came after one hour's debate, with no amendments allowed under the rules and after the measure, originally providing for expenditure of \$40,000,000, had been sent back to the veterans' committee for eliminations during the five months the bill was before it.

The measure, introduced by Chairman Johnson, republican, South Dakota, would extend for one year from July next the time for converting term insurance, relative to limits on the time of filing the disability claims and provide for completion of rehabilitation work now under way.

Altho the measure was unopposed on the final vote, democratic members crammed into the half hour allowed them for debate an unremitting attack on the administration and republicans in the house for bringing the measure up for consideration under a suspension of rules that limited discussion and prohibited amendment.

Representative Connor, democrat, Massachusetts, assailed the bill as "a sop thrown out by the administration to soothe the veterans in election year," while Representative Garrett, the democratic leader, charged that since creation, all bills bearing its approval have been considered under a similar suspension of rules, "curbing free discussion in the house."

Last evening the Meno-NC club of Nebraska City, composing some forty male voices visited this city and gave recital at the auditorium of the high school that proved one of the finest entertainments of its kind that has been heard here and was deserving of much larger audience than that which was present.

Nebraska City can well feel proud of this splendid glee club as appeared here and the well trained voices and the selected program gave a fine opportunity for the gentlemen of the club to entertain the audience.

The program offered a number of the highest class musical numbers that could be wished and on their different selections the artists received generous appreciation from the delighted audience.

Among the selections offered was "The Soldier's Chorus" from "Faust," "My the Beautiful Blue Danube," "Lassie O'Mine," "The Bells of St. Mary's" and "Praise Ye the Father," all of which received the heartiest applause of the enthusiastic and delightful audience. The solo number, "Lift Thine Eyes" by O. J. Schneider was one of the most delightful selections on the program of the evening.

The club is under the direction of A. H. Schwanke and the organization is one that reflects a great deal of credit on the Nebraska musical circles and it is hoped that this organization may be heard again in the future.

GUARD AGAINST FRICTION

An hour late

Railroad engineers and executives know the real cost of friction in delays and disasters caused by improper or insufficient lubrication. Motorists also know the cost in delays and repair bills, in impaired power and quickly worn out motors. They intend to give their motors protective lubrication.

But they don't do it when they are careless about the brand and the grade of oil they use. They don't do it when they run 800 or 1000 miles or more with dirty, diluted oil in the crankcase.

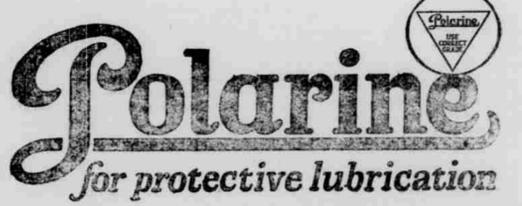

They protect their motors against friction and their pocketbooks against big repair bills when they regularly use Polarine—the finest motor oil a generation of manufacturing experience has been able to produce and of the grade especially manufactured to suit the mechanical and operating requirements of their motors.

Play fair with your motor—Guard it against friction. Keep it supplied with plenty of clean Polarine. For the most suitable grade, follow the recommendations of the oil engineers and automotive experts who studied and tested all makes and types of motors and tried out all kinds of oil in them before they drew up the Polarine Chart for your guidance. Never run on thin, dirty oil and your motor will stay powerful and cost you little for maintenance and repairs.

Polarine is made in six grades: *Polarine Light, Medium, Heavy, Special Heavy, Extra Heavy and Polarine "F" for Fords*—a right grade for every make and type of motor. Buy it where you buy Red Crown the Balanced Gasoline. Look for the Red Crown Pump and the Polarine Sign.

ASSISTS CONVENTION FUND

From Tuesday's Daily—

The finance committee of the American Legion district convention, of which Maldon D. Brown is the chairman, this morning received a very pleasant reminder that the convention is arousing interest in all parts of the state. The reminder was in the form of a \$5 bill that was sent by Henry R. Gering, former mayor of this city and a live wire resident here for years and who is now one of the leading wholesale dealers of Omaha. Mr. Gering's rest assured that he has the appreciation of the Legion both in his aid and the spirit that he has shown in the success of the convention.
