### CLEVER SOX

For Summer Wear

Fancy plaid, silk plated, double sole. Per pair. **45c**

## Completion of Road to Platte Near at Hand

Grading and Graveling of Highway From This City to Platte River to Be Completed.

From Wednesday's Daily—  
The stretch of roadway between this city and the Platte river that has been in rainy seasons and in the winter a very hard place to travel will soon be placed in the class of the graveled roads of the county as the preliminary work is now being completed by the state department of public works at Lincoln to get this road in shape and have it hard surfaced by the winter season and making a long step toward the completion of the Kansas City-Omaha hard surfaced system.

The state board of public works is calling for bids on the grading and surfacing of the stretch of highway from this city to the Platte river for the opening on July 1st at Lincoln and which will also provide that the work must start by August first and the time limit for completion on December 1st.

This highway will be brought up and surfacing of the stretch of road to the required standard of the state and federal roads with the placing of culverts at spots where they may be needed, the erection of guard rails at the dangerous places on the road and having it brought up to the standard grade that is prescribed by the state and federal requirements of maintained roads.

The road will also be changed near the Oreapolis crossing of the Burlington to eliminate the present narrow bridge just north of the crossing and which will also result in the road being laid in a straighter line through the Nord corner.

In the past there has been a great deal of inconvenience to travel on account of the condition of the roadway and this will be taken away in the provisions made for the surfacing of the highway making it one of the best roads in this section of the state with a three inch gravel surfacing.

The state department of public works is also taking steps to carry out the projected work on the K. of T. highway through Sarpy county and the condemnation proceedings necessary to change the course of the matter of the west side of the right of way of the Missouri Pacific from the present Fort Crook crossing to the Papillion road near the Walnut Grove bridge is also being taken up.

A conference of the Burlington and Missouri Pacific engineers with State Engineer Roy Cochran was held yesterday at Lincoln to discuss the matter of the overhead crossing at La Platte but their decision in the matter has not been made public.

Swiss Chard.  
The season for swiss chard is near at hand. It is a green that will be relished by the family if prepared in an appetizing way. One favorite receipt is: Cook chard in small amount of water in which bacon or salt pork has been cooked. Bits of bacon or salt pork add much to the flavor of the chard. Hard cooked eggs make a delightful garnish for this green the same as for spinach.

**FARM BUREAU NOTES**  
Copy for this Department furnished by County Agent

**Chicken Thief Association.**  
There will be a meeting at the Farm Bureau office at 1:30, Saturday, June 12, at which time we wish to form a Chicken Thief Association. Come directly to the Farm Bureau office and you will get all your information there. Be sure to ask your neighbor to attend. We want a good number present.

**Be Ready for Cabbage Worms.**  
If there are white butterflies hovering about the cabbage patch now, there will soon be a crop of those detestable little cabbage worms on the plants. If the owner of the patch expects to have some good cabbage heads after winter, he should be ready for the worms with a lead arsenate spray or dust. He can mix the spray at the rate of two pounds to fifty gallons or two tablespoonsful to a gallon of water. Making a soar emulsion with laundry soap and the water before adding the arsenate will make the spray stick to the plants better. Lead arsenate may also be dusted on the young plants, using one part by weight of the powdered for to five parts by weight of hydrated lime or flour. The mixture may be placed in a gunny sack and the sack shaken over the plants early in the morning after a heavy dew.

**GRAVE MARKERS STOLEN**  
The marker from the grave of Samuel Craig at the Oak Hill cemetery has been taken and the party that took the marker is known. They can save trouble by returning the same to the cemetery and if not action will be taken against them.
