To the Voters

of the Second Senatorial District

My name will appear on the Primary Ticket August 10th as a candidate for the nomination as State Senator from the Second District, comprising Otoe. Cass and Sarpy counties.

During the time that I have represented this district in the Legislature, I have tried at all times to represent the sentiment of my constituents, believing that they desire a sound Business Administration and not a political one. I have endeavored not to be partisan in any manner, and have considered legislation on its merits and not in a political way.

My record in the past sessions I think will bear me out in this statement. I shall appreciate your support in the Primaries and at the general election.
