Those who were in attendance from Union were W. B. Banning, Eugene Roddy and wife, James Marshall, G. W. Cheney, Melvin Todd, Charles Garrison and Edwin Roddy.

WILL CONTEST STARTED. Los Angeles, Calif., Oct. 11.—Contest of the will of Rudolph Valentino, has been ordered by Albert and Marie Guglielmi, brother and sister of the film shiek, their attorneys announced tonight, following the appointment in court today of George Ullman, Valentino's former business manager as sole executor.

The will contest will not be filed for four months, R. D. Knickerbocker, one of the attorneys for the Guglielmis, said. It then will be brought in connection with the distribution or partial distribution of the estate. The efforts to break the clause leaving the entire estate in trust to Ullman for the benefit of the two Guglielmis and Mrs. Teresa Werner, aunt of Valentino's divorced wife, Natacha Rambova.

The distribution of the estate was to be made in accordance with oral instructions given Ullman. The attorneys for the brother and sister hold this clause to be vague.

One clause of the will cuts off from participation in the estate any of the heirs, who contest its provisions. Threat of a contest of the will was made a week ago when his attorneys demanded that Guglielmi be made co-executor of the estate with Ullman.

CZECH CABINET RESIGNS. Prague, Czechoslovakia, Oct. 12.—The cabinet headed by M. Cerny has resigned and President Masaryk has appointed a new ministry composed of members of parliament, with former Premier Anthony Svebha as its head. Dr. Edouard Benes retains the post of foreign minister and Dr. Anglitz that of finance. For the first time since the foundation of the republic, the administration includes two members of the German minority, Professor Spina of the Agrarian party and Professor Mayr Harting of the Catholic party.

## Builders Think Record in Sight

Associated General Contractors Look for \$7,000,000,000 Bill in Nation.

Kansas City, Mo.—Construction of all types of buildings in the United States may approximate the record of \$7,000,000,000, it was predicted at the fall meeting of the executive groups of the Associated General Contractors of America, at which John W. Crowder of Buffalo, a former president, reported that a bill will be introduced in the next congress providing for a standard form for government construction.

The heavy volume of construction it was asserted, was a reflection of the prosperous condition of the country. The estimate of construction for this year was made by Gen. R. C. Marshall Jr., Washington, general manager of the associated contractors.

"For the nine months ending Oct. 1, construction of all kinds, including road building, railroads, public building, residence and commercial was 3 per cent ahead of the same period for last year. For the whole year the total volume of construction represented an investment of \$6,750,000,000. In August this year the volume of contracts awarded was greater than in any previous month.

Standardization in procedure, in laws governing operation and in equipment and materials used in building is a leading objective of the Associated Contractors. Executive units of the organization, of which J. H. Ellison of Minneapolis is president, are formulating policies and directing future action of the body at the sessions here.

Standardization of contracts, especially government contracts, is being given particular attention by the contractors. Mr. Cowpar reported that the bill providing for a standard contract form of government construction to be introduced in congress, if enacted would repeal approximately 300 antiquated and conflicting contract laws.

That standardization of building equipment eventually will lead to a reduction in building costs was shown by Harold Smith of Milwaukee, who explained that in the last 14 months contractors, in co-opera-

tion with manufacturers, had reduced the cost of concrete-mixing machinery 25 per cent.

Interest of contractors in a model lien law being drafted by a commission representing all interests concerned in building had the aim of obtaining full justice for the property owner, according to a report by Howard P. Christie of Washington. Lien laws in the various states are conflicting and little understood, it was said, and instances were cited of home owners who had paid twice for various building materials. The model laws, suggested by Herbert Hoover, Secretary of Commerce, would be submitted for adoption in all the states.

## DEMO COMMITTEE SEEKS ALEXANDER

Washington, Oct. 12.—Taking it for granted that nobody could hear the name of Grover Cleveland and not be a democrat, the speakers bureau of the democratic national congressional committee Monday extended to Grover Cleveland Alexander, hero of the St. Louis cardinal world series' victory an invitation to appear on the platform for the party.

Representative McClintic, of the bureau, an Oklahoman, wired "Alex" to accept an assignment to accompany "some of our prominent speakers" with all expenses paid. He also extended the committee's congratulations on the pitcher's work in the world series.

## RUMOR WALES ENGAGED

London, Oct. 12.—Rumors were current today that the prince of Wales was to be betrothed to Princess Beatrice of Spain. The reports, based on the renovation of Marlborough house, were similar to those circulated by gossipers some weeks ago which brought official denial from the Spanish government spokesman in Madrid.
