## Canada Solves Flag Program

Merchant Marine Banner Now Waves Over the New Legation in Washington.

Washington.—The learned young men who guide the diplomatic corps through the menacing shoals encountered in the remote recesses of international law found themselves wholly unequal to the nice questions of law and form presented in the problem of the new Canadian minister to the United States. "What flag shall fly from the staff of the Canadian legation?"

"Canada is part of the British empire; the Union Jack is her flag," said one group of consultants after examination of the law—in which they found no parallel.

"But Mr. Massey does not represent the British empire in Washington; he is minister of the Dominion of Canada, and his legation colors should indicate that fact—that, in fact, is what legation colors are for." Such was the view of another group.

Unable to find a decision in the books of law, precedent, form or history, the archivist corps fell back on their own judgment. Their decision has been accepted by Mr. Massey. The legation will fly the colors of the Canadian merchant marine, which is a Canadian emblem in origin, design and tradition. It is the full national banner of Canada, with a small Union Jack superimposed in the upper left-hand corner.

The car was seen from a distance by the man working on the place, but got away before anything could be done to apprehend the marauders.

## FIRM INTENTION TO PAY

Washington, March 28.—Optimistic references to France's war debt to the United States were exchanged today between President Coolidge and Paul Claudel, when the new French ambassador presented his credentials at the temporary white house. Ambassador Claudel expressed his pleasure at entering upon his duties here "at the moment when France has given fresh evidence of her firm intention to discharge her indebtedness and meet her just obligations."

Replying, President Coolidge declared the sympathy and admiration of this country has been aroused by the manner in which France has faced the questions arising from the aftermath of the war, and the "recent token of the determination of the French republic to continue in that course has been received here as a characteristic symbol of its spirit."
