agent, was elected secretary and treasurer, and L. R. Snipes, of Weeping Water, superintendent.

L. R. SNIPES,
Co. Ext. Agent.

NATURALIZATION DAY

From Tuesday's Daily—
This morning at the opening of the district court the regular naturalization ceremonies were held in which a class of six applicants were admitted to their citizenship in the United States of America.

Preceding the examination of the applicants for citizenship the Fountaine chapter of the Daughters of the American Revolution held a short ceremony appropriate to the occasion and to give a more realistic touch to the patriotic nature of the proceedings. Mrs. Ellen Minor presented each of the candidates with the manual of the society containing many very valuable facts as to the nation and the duties of citizenship.

Under the direction of Miss Amelia Martens, a group of the boys of the Central school building presented "The Pageant of the Colors" a very impressive arrangement of flag usage arranged by Mrs. George Mickel of Omaha, state director of the Children of the American Revolution, and which is being used over the country as learning the young the usages of the flag. The young people taking part in the pageant were the same as offered at the ceremony at the Memorial day service, they being Stuart Porter, Lawrence Rhodes, Billy Highfield, James Robertson, Joe Graves, Robert Hall, Emmett Armstrong, Douglas Douglas, Vern Herrick, Herbert Minor, Floyd Schanzholz, Donald Bushnell, Robert Leonard.

The class of new citizens was composed of the following: August Fast, Waldemar S. Nielson, T. M. Waracka, Louisville, Fred I. Franke, Cedar Creek, Adolph Bockelman, Greenwood.

STRAYED—BAY MARE

Star on forehead. Weight about 900 pounds. Halter on when left.

M. A. ROBYLER,
Weeping Water, Neb.

All kinds of business stationery printed at the Journal office.

Well Known Young People are Wedded

Miss Florence May Evans and Elmer Shrader Yardley Married at Nebraska City.

An attractive church wedding and one that was attended by an unusually large crowd was that of Miss Florence May Evans, daughter of Mr. and Mrs. C. T. Evans, of Plattsmouth, formerly of Nebraska City, and Elmer Shrader Yardley of Murray. The wedding took place during the regular church services at the First Christian church Sunday evening, May 29, at 8 o'clock. Rev. Loren Danton, pastor of the church, officiated.

The bride wore a gown of white georgette trimmed with taffeta and wore a white veil with a crown of orange blossoms. She carried a bouquet of pink and white roses. She was attended by Miss Nellie Conley who wore green silk crepe and carried snap dragons and white roses. Bernard Smith attended the groom.

Before the ceremony Miss Grace Peterson sang "I Love You Truly." Mrs. John Reed played Lohengrin wedding march. The little Misses Ellen Spinner and Lathia Danton, dressed in green organza served as flower girls. Junior Sheridan was ring bearer and John Reed and T. K. Watts were ushers.

A reception at the home of the groom's parents followed the ceremony. The bride is a graduate of the Nebraska City High School and after graduation was employed at the F. W. Woolworth store. For the past two years she has been living at Los Angeles, Calif., where her parents now reside. The groom attended school in Omaha and is now engaged in farming near Murray where the young people will live.

Among the out-of-town guests were Mrs. A. Claggett, Denver; Mr. and Mrs. C. T. Evans and Mr. and Mrs. J. D. Shrader of Los Angeles.—Nebraska City News-Press.

ATHLETICS DROP TWO

From Tuesday's Daily—
The Athletic baseball team of this city in their games Sunday and Monday dropped two games which were largely due to the loose playing and large number of errors that featured the contests and especially in the Sunday game when the fast Alvo team took the locals into camp by the score of 28 to 5. The hard hitting Alvo team broke up the contest in the second inning when Thomas, local hurler, was forced from the mound and succeeded by Wooster and Burke who were unable to check the onslaught of the visitors with the errors adding to the list of scores that Alvo piled up.

In the game yesterday with the Nebraska City Reserves, the attendance was much better and the game showed improvement with the visitors having the big end of a 14 to 3 score. The game was started with Mason in the box for the locals and the game stood three to one until the third inning when four hits, two for three bases, broke up the battle, and a commanding lead was piled up. In the eighth inning Bob Burke took the hilltop but was unable to check the visitors and the last frame was hurled by Swanson who held the visitors to one tally. Joe Krejci featured the game for Plattsmouth with a home run in the fifth inning but with no one on the bases at the time.

WARNING TO ALL MOTOR VEHICLE OWNERS

All cars and trucks must carry a number on both front and rear. Also every tail light must be burning, and be very careful about using the paper tag that the dealer gives you as it will be no good to you after you have owned the car ten days.

This law will be strictly enforced by all county and city officials at once.

BERT REDD,
Sheriff.

Death of Pioneer Resident of This City Last Week

Mrs. G. B. Mullis Passed Away at Miniatore at Advanced Age of 96 Years—Burial There.

Mrs. G. B. Mullis, well known pioneer resident of this section, passed away at five o'clock Monday afternoon at the home of her daughter, Mrs. J. H. Fairfield, at Miniatore. She was 96 years, 5 months and 7 days of age at the time of her death.

Emily Ovanda Mullis was born in Indiana on December 16, 1830, being united in marriage to G. B. Mullis at the age of 19. Her husband was a minister of the Christian church and together they came to the North Platte valley in 1888, having made their home at Plattsmouth previous to that time.

They homesteaded about three miles east of Bayard, where they resided for a number of years, during which time Mr. Mullis was one of the pioneer ministers of the valley, although not actively engaged in that line all of the time. He passed to the great beyond in 1903 at the age of about ninety years.

Five children were born to them, two daughters having passed away, leaving one daughter, Mrs. Fairfield of Miniatore and two sons, V. M. Mullis of Diller, Neb., and Erasmus Mullis of Hastings to survive her. The latter two were unable to attend the funeral services.

For a number of years, Mrs. Mullis has made her home with her daughter. During her life she was a faithful consistent christian and was known and loved throughout the length and breadth of this entire section. Her passing means that another true friend has gone to receive the reward earned by years of consecration and toil.

Funeral services were held Wednesday morning at ten o'clock from the Christian church in Miniatore. Rev. J. M. Wilson, pastor of the German Christian church, having charge of the services. Burial was in the Bayard cemetery beside the body of her husband.—Miniatore News.

BEEES CREATE EXCITEMENT

From Wednesday's Daily—
During the noon hour a large number of bees came flying up the main street of the city and had evidently been on the wing some time as the bees seemed listless and when reaching 6th and Main street they started to swarm in the street intersection and for some few moments the paving was alive with the bees. Later the bees started to swarm in one of the small trees in the parkway in front of the Main hotel and in a few moments they were swarming around their queen in great shape. Some of the more enterprising of the large number of interested onlookers secured a box and in which they hoped to have the queen bee locate and bring the swarm with her. This is the first time that a swarm of the bees has occurred in the business section of the city and attracted a great deal of attention and the bees seemed annoyed and restless by reason of passing cars and the persons who were moving to and from their swarming place. Otto Fitz finally came to the rescue and had the bees lodged in the box where they can start their honey-making.

TRIP NOT YET ABANDONED

New York, May 31.—Commander Richard E. Byrd's giant monoplane the America, made the longest flights of her career today in further preparation for a New York-to-Paris flight. Unfavorable weather, and illness of Bert Acosta, pilot, have kept the plane in her hangar for a week. Commander Byrd, with Acosta and Lieut. George Noville, who will accompany him across the Atlantic with a four man as a passenger, kept the machine in the air two hours and fifteen minutes this morning, and submitted it to a similar endurance test this afternoon. The engines functioned perfectly, Byrd said.

Visits Interesting Points Over Cass County

Secretary Davis of the Chamber of Commerce Finds Much of Interest on Various Trips.

This week, through the courtesy of Manager Lahr of the Telephone company, spent a few hours in our sister city, Louisville. They are pepped up over there by the cement manufacturing prospects and we assured them Plattsmouth is rejoicing with them over their good luck. Visited with the various business men; had a splendid time; a good dinner; and it was a most enjoyable two hours. Louisville is a "live wire," an attractive city, and a good friend to Plattsmouth.

Searl Davis drove us through Nehawka—another exceptionally pretty city. Was impressed with the splendid community hall; and the gravel being spread about on the streets and the road leading from town to O street highway. Commissioner Harris has a big job on hand filling in the recent washouts, but it is being done in first class style. Hope to make Nehawka a real visit one of these days. This office receives each week the splendid Nehawka Enterprise for our table.

Saturday visited the Nolte Poultry Farm. It was more than a poultry farm, though. There were several thousand chickens—tiny, little, big, bigger and biggest—also a raft of Duroc hogs, from babyhood up to over 400 pounds. We also found apples, berries of all kinds, flowers and a most modern farm in every way. There were some 1,500 baby chicks boxed for delivery and seeds of the just coming out of the shell. Our dinner today was a fine fat fry, presented us by Mr. Nolte.

In viewing all those chickens, did not wonder that Nebraska's annual poultry and egg production exceeds in value all the gold ever dug from the Klondike to date.

The alfalfa fields are glorious. Last year Nebraska produced three million five hundred tons of alfalfa and three million tons of other hay—in fact our state is second in hay production.

My brother, D. D. Davis, of Moline, Illinois, who called here recently for a couple of days, left with a boosting feeling for Plattsmouth. He stated, "Plattsmouth is the prettiest city I have ever visited; its stores alive, beautiful and up-to-date; the merchants cordial and the atmosphere of the whole city most attractive and inviting." That's the way to make the stranger feel within our gates. We call that the "atmosphere" of a city or community—it is contagious. No room for knockers and drawbacks in Plattsmouth.

Have you noticed the progress being made on the new community building? The Legion boys believe in paying as they go, so will finish only the first floor now, but it will have an assembly room 58x88 feet in size—much larger than any floor available in the city and of polished maple construction. A large kitchen, toilet rooms, furnace and coal rooms and a check room will take up the remainder of this 60x120 building.

The Louisville road is in better shape than for months, in fact it has been graded up and put in first class shape. If our dirt roads could all be graded up to keep them above the water and permit of good drainage, they could be year-round roads, and the expenditure of taxes for their maintenance is not so much money thrown away. Let us hope this road will be graded even higher in the low spots, so that this old eye-sore may be a thing of the past. The Louisville road is one of the most important roads in this country and deserves special attention to be kept up and passable.

Taxes spent year in and year out in maintaining dirt roads without putting them above the water line.

Missouri River Threatens to Stage New Rise

Melting Snows in Montana and Mountain States Brings High Water at the Headwaters.

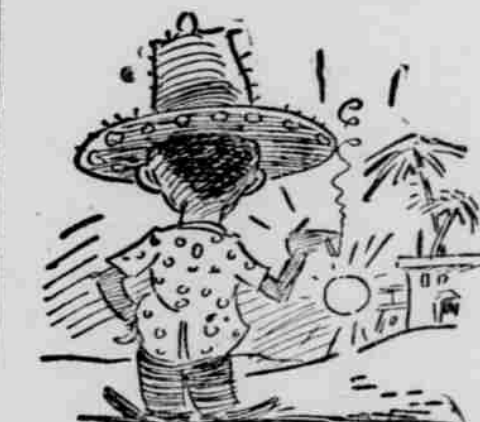

From Wednesday's Daily—
The Missouri river which a few weeks ago staged a small sized flood along the stream in the Dakotas and Nebraska and Iowa, seems to be again to reach a high water stage as the melting snows in the mountains near the headwaters near Great Falls, Montana, have caused a great deal of water to start moving in the usually placid little mountain stream and which means that the volume will pass through this territory on the way to the Gulf of Mexico.

This is the usual June raise caused by the mountain snows but it seems to be much larger in volume than usual. The river at this point is still at a good height and while the overflow of the previous high water has largely subsided and the river is back in its banks, more flood water will probably bring the stream up to even greater heights than in the high water of three weeks ago.

At Great Falls the volume of water was the greatest since 1908 and in the vicinity of Lewistown the railroad was badly hampered by the high water.

FAIRBURY PAIR IN FLOOD

Fairbury, Neb., May 27.—Mr. and Mrs. J. F. Almy, listed among those drowned in the flood which swept Kelley, Wyo., last week, after a large dam had broken, were former residents of Fairbury. Mr. Almy, who was sixty-five, formerly conducted a carriage repair shop here.

It is said that the Filipinos wear the tails of their shirts outside. The climate is their excuse. We cannot recommend the practice to Americans even on hot days. Beautiful as is the shirt-tail, it should bloom unseen. To those who will agree to tuck them in, we have a wondrous assortment of shirts to offer, at prices that are soothing in the extreme.

Better Traction—Longer Wear!

The sharp-edged, diamond-shaped blocks of the famous Goodyear All-Weather Tread are placed in a semi-flat design. These blocks grip the road and retain their usefulness longer than any tread heretofore offered.

Long, slow, even tread wear is assured. "Cupping" and uneven wear, so common to many Balloon Tires, are practically eliminated.

We have your size—with a Goodyear Tube to match. Goodyear Service always.
