### SCOUTS AT ROTARY CLUB

From Tuesday's Daily—

At the noonday luncheon of the Rotary club held at the Methodist church today, the members of the club had as their guests, Clyde Hesse, of Nebraska City, district Scout executive, and Floyd Plack, the local scoutmaster. Mr. Hesse discussed the district Scout program that covers the southeastern counties of the state and with the district headquarters at Nebraska City.

The address was followed with the greatest interest by the members of the Rotary club and with the remarks of Mr. Plack on the work in the local field, the members gained a fine idea of the scope and interest of the Scout work in this territory. The Scout work is one that appeals to the Rotary spirit and in which all of the membership is very much interested.

## Use of Phones Grows Steadily

Lincoln Company Reports Gain of 1,056 Telephones in Southeast Nebraska This Year.

Steady growth of the telephone industry in the twenty-two counties in southeastern Nebraska comprising the territory of the Lincoln Telephone and Telegraph company, resulting in an increased use of telephone calls and an added number of telephones as well as a wider distribution of telephone company securities, is shown by statistics just released by the telephone company at Lincoln.

The report shows a gain of 1,055 telephones throughout the territory in the first three months of the year, making a total of approximately 76,000 telephones. The telephone wire mileage of the Lincoln company during that period has increased 505 miles. The complete conversation daily number more than 517,270, a gain of more than 8,900 daily over the same period last year.

The number of holders of preferred stock is more than 3,500 of which more than 40 are women. Employees of the Lincoln company now number 1,212, a gain of 38 for the first four months of the year, and of this number 60 per cent are paying for stock under the employees' stock purchase plan.

### VISIT KAMP KILL KARE

On Sunday a group of the residents of this city and their guests enjoyed the pleasant sunny day in the delights of Kamp Kill Kare in the vicinity of Union, where the resort that Mr. and Mrs. Dan Lynn have made possible has attracted universal attention.

The party was composed of W. R. Young and wife, Fred Smith and wife, Raymond Benzner and wife and Mrs. Mollie Berger of this city; Mr. and Mrs. George Tidji, of Blair; Mr. and Mrs. Henry Ost, of Ashland; Mr. and Mrs. James Ballou, of Ashland, and Mr. and Mrs. Nelson Berger, of near Nehawka.

The date was also the birthday anniversary of Mrs. Fred Smith, and which was made the occasion of much pleasure to the friends in joining in their well wishes to this estimable lady.

There was a large array of good things provided for the picnic dinner and the members of the party enjoyed themselves to the fullest extent in the delights of Kamp Kill Kare, which is all that its name implies.

### TO HOLD CONVENTION

The Eight Mile Grove Lutheran church west of this city is to be the scene of the district Sunday school convention of the church on Tuesday and Wednesday, June 14th and 15th which will bring many of the leaders in the church work here for this important meeting.

During Wednesday there will be the routine business of the convention and which will include addresses by Rev. Voskamp, missionary from China and Rev. Schwerdtfeger, returned missionary from Africa, their discussing the conditions in their fields of labor. Rev. Rhode, former pastor of the church, now of Hooper will also be a speaker.

On Wednesday evening, June 15th the district meeting of the Luther League will be held as a part of the convention of the church workers and membership.

### THROW A MEAN SHOE

From Monday's Daily— Yesterday afternoon a group of the Omaha Horseshoe pitchers came down to meet the local devotees of this sport and for several hours the courts on Vine street was the scene of a great deal of activity as the rival teams battled for supremacy and the Omaha visitors who seemed more at home in the match games were able to carry off the honors by a total of 1181 points to 704 gathered by the Plattsmouthians, altho Adam Stoehr of the local team was the highest individual player with 160 points to his credit. The Plattsmouth horseshoe pitchers playing were Adam Stoehr, Mike Tritsch, John Parkenik, John Iverson and August Keil. George Sayles, who is one of the enthusiasts of the game was visiting in the country and was deprived of getting in on the big doings. Next Sunday the Plattsmouth men will play at Miller Park, Omaha, against the Paxton-Gallagher team.

### FARM BUREAU NOTES

Copy for this Department furnished by County Agent

**Red Clover Seed**  
Do you remember the price you paid or sold red clover seed for last fall or this spring? The first cutting of red clover might be a good seed crop, so you had better go in your fields and examine them for seed before you cut it for hay.

**Vaccination**  
Reports of hog cholera have come to us from several parts of Illinois. You should vaccinate your pigs when they are young, about the time they are weaned or 8 weeks old. Don't run the risk that we did last year. It is cheaper to vaccinate them small.

**Results of Liming**  
The lime that was placed on the fields which were sown to alfalfa in the spring of 1926 are now showing wonderful results. At Emil Bornemeier's west of Elmwood this lime plot was cut and compared with the unlimed. It out yielded the unlimed plot three times as much, and showed no winter killing, while the unlimed plots winter killed 50 per cent or more. The same thing is true of the fields of Carl Day, of Weeping Water. The plots where manure was spread before seeding alfalfa, show the same results, practically no winter killing. After talking with several farmers they say that they would not have enough manure to cover the piece which they would sow to alfalfa, because it should be spread at the rate of about six to ten tons per acre. The lime was put on at the rate of one ton per acre.

**Nebraska No. 60 Wheat**  
This is the leading wheat in Nebraska and Emil Bornemeier of Elmwood has a field of 30 acres. It looks exceedingly fine. People wishing pure seed wheat of the best strain for Nebraska should see Mr. Bornemeier before harvest and make arrangements with him.

## Burlington Installs Large Size Scales in Yards

One of the Largest Scales on the Western Part of System Just Being Installed.

From Wednesday's Daily— The Burlington railroad is completing the installing in the upper yards here one of the largest type scales used for weighing cars that is in use on the system and in a very short time the scales will be ready to operate in weighing loads that may be handled over this great line of railroad.

The new scales are located in the north yards some 200 yards north of the passenger station and in a very suitable place for handling a great many cars that was not possible at the old scale in the south yards save by blocking the main line of the road at times with the cars.

The new scales are manufactured by the Fairbanks company and are known as type "S" 150 ton scales and the length of the scales cover some fifty feet.

The scales are a splendid type and the work of installing them has been no small job to the force of workmen that were called on the job as there is a heavy and strong concrete pit prepared for the scales proper three foot concrete piers being prepared for the placing of the main portion of the scales with the sides and ends of the scales being strong and of heavily reinforced concrete, while in the concrete floor of the scales there are drains that will carry any surface water off and drain to the east into the bottom land. Large ventilators at the ends of the scales will aid in keeping the scales dry.

The center beam of the new scales is almost as heavy as the entire old scale and the balancing beam is so delicately adjusted that it will respond to the object that is being weighed in a second and leaves a printed record of the weight of the car and contents.

The beams in the scales are of the heaviest steel and adjusted to give perfect weight. Adjoining the scales proper is the small building that will hold the adjusting portion of the scale and where the printed record of the weight will be made by the scales.

The scale and its equipment will cost in the neighborhood of \$10,000 and will be one of three that will be placed on the system in the next year, one at Des Moines and later at Hastings, Nebraska.

The scales are well situated for the purpose of car weighing and will permit from fifteen to twenty cars to be handled at a time by the local switching crew which was not possible with the limited track space of the old scale and which required the leaving open of switches when weighing cars that they might be kicked onto the main line tracks in order to handle any number of them.

**WILL ATTEND SUMMER SCHOOL**
