## SPACIOUS ASSEMBLY ROOM

The immense size of the assembly room in the new community building is now very apparent, with the entirety of the sub-floor poured and practically all of the building material removed from the room. 58x88 in size, it will accommodate a crowd of large size, and as a banquet hall upwards of 400 can be handled with ease.

On the wood sleepers, imbedded in concrete, will be laid a maple floor, with ventilated air space between it and the tar-covered concrete to prevent dry rot. The maple floor is to be laid, sanded, polished and waxed by an Omaha flooring company, employing men who are experienced in this line of work and assuring a first job. The roof will also be applied by an Omaha roofing concern, furnishing a five-year guaranty bond, which will insure against leakage until such time as the temporary roof can be removed and the balance of the construction proceed.

White stone cappings are to be provided over the front parapet walls, a mission type roof framed over the entrance arway and the part constructed of common brick that will eventually be covered by the steps leading to the main floor lobby, will be treated to a coat of variegated color stucco, trowled on, to lend appearance to this part of the front.

Electrical wiring will receive the attention of the committee during the coming week as well as selection of finish hardware. The setting of the 400 odd glass in the Freney type doors and windows will get them in readiness for the painter's brush and a greatly transformed appearance in the structure will be noted.

The completion of the building by September 1st, is expected.

## PUPILS TRANSFERS VOID

State Superintendent Taylor had received a ruling from the attorney general holding that renewal of certificates of transfer of pupils and property for taxation to adjoining districts issued last April and May, are not valid so far as they relate to consolidated school districts which have adequate transportation facilities. The attorney general holds that such certificates of transfer for school privileges of non-resident pupils issued for a period of one year are not valid after July 24 because on that date a new law becomes effective in such cases. He is of the opinion the legislature did not intend them to be valid after that time. He suggests that inasmuch as the tax lists and levies are not made by that time no hardship will be imposed by the taking effect of the new law July 24. The state superintendent is notifying county superintendents who issued certificates of transfer.

## Mrs. Roy Wilson Admits Murder of Her Mother

### Pleads Guilty and Is Sentenced to Thirty Years in the Penitentiary.

Rushville, Neb., July 22.—Mrs. Roy Wilson, 31, whose dramatic confession of the murder of her mother and the attempted murder of her father was made to County Attorney Lloyd H. Jordan this afternoon pleaded guilty and was sentenced to 30 years in the penitentiary by Judge Meyer here tonight. She asked to die in the electric chair.

The young woman had denied any knowledge of the sudden death by poison of her mother Sunday night and the serious illness of her father, since she was taken into custody Monday. Her father told the county attorney his daughter had given him and her mother capsules containing a powder just before they were seized, telling them the doctor had prescribed it for them.

**Discovers the Poison.**  
Following this information, Jordan discovered capsules and poison in the home of the daughter, who had lived with her husband in a small house adjoining the larger one of her parents on a farm near Maple. Poison crystals also were found in the auto owned by the woman.

Confronted with this evidence, Mrs. Wilson today made a complete confession, telling how she bought the capsules at a drug store in Hay Springs Sunday morning and filled them in her car with gopher poison taken from her father's house. Her parents had been feeling poorly and were taking medicine prescribed by their family physician. She told the county attorney she gave them the capsules, saying they were to take them on the order of the physician.

**Motive Is Obscure.**  
Jordan is at a loss yet to determine the motive, but believes trouble between the woman's parents and her husband, who left home 10 days ago after a disagreement with her father, would not return as long as her parents lived. She was married two years ago, and has been devotedly attached to her husband said Jordan. Her confession absolves him of any guilt in the matter. He has been working on a farm several miles from the home of her parents.

Jordan also discovered that Mrs. Wilson would inherit considerable property on her mother's death, part of the estate of her grandfather.

## A SOUTH AND WEST PACT

Des Moines, Ia., July 22.—As chairman of the agricultural group at the Institute of Politics, Henry Wallace, who left here tonight for Williminstown, Mass., perceives an excellent opportunity this year for a powerful alliance between farm interests of the south and west.

Mr. Wallace, son of the late United States secretary of agriculture, indicated he would endeavor to further this union.

"I am impressed on the consciousness of the west and south by the economical and agricultural savants at the institute thru newspaper accounts, may persuade the farmers and planters of both south and west that now, if ever, is the time for them to unite in seeking their joint objectives—tolerable conditions and rewards for farming," he said.

## DRYS WANT MORE MONEY

Washington, July 22.—Dissatisfaction with the salary paid prohibition administrators exists among many of the leaders of the dry army, it became known today. After a recent conference of prohibition heads that resignations due to a desire for better positions would be forestalled if a higher salary were paid.

Commissioner Doran said today that there was little likelihood of any change in the rate of pay. The high salary now received by prohibition administrators is \$6,000 a year while the minimum is \$4,400. Any change it was said, would have to be authorized and appropriated for by congress.
