

MURDOCK DEPARTMENT.

PREPARED EXCLUSIVELY FOR THE JOURNAL.

Mrs. Henry Timm and C. E. Kupke shelled and delivered corn to the Murdock elevators on last Wednesday.

I have a 100-pound refrigerator, a side cooler, and excellent condition for sale.—Charles Schafer, Murdock.

Hiller Utt and wife of Havlock were visiting at the home of George Utt and wife for over the week last week.

Fred W. Backemeyer of Elmwood was looking after some business matters in Murdock on last Wednesday afternoon.

Gustav Strach and wife were visiting and looking after some business matters in Plattsmouth on Wednesday of last week.

Mrs. Jensen, mother of Mrs. Henry Amgert was a visitor in Murdock and a guest at the home of her daughter for a number of days last week.

Mr. and Mrs. Jess Landholm were enjoying a visit from a brother of Mrs. Landholm, Mr. Sekel Jacobson, who was their guest for over the last week-end.

Miss Jessie Melvin was a visitor in Lincoln for a short time going to the big city on last Friday where she was visiting as well as looking after some business matters.

A letter from Kenneth Tool, who has been as Oshkosh for some time, tells of his being transferred to Ullyses where he is with a bank and in the employment of the state.

Jess Marsh of Omaha, agent for the Union Pacific road at South Omaha, was, with the wife, visiting in Murdock on last Sunday, they being guests at the home of Mr. and Mrs. George Utt.

Miss Mathilda Pappé, who is employed in Lincoln, Mrs. Pappé, this time taking her vacation from her work, and was spending a portion of the time with friends, the daughters of Mr. Henry Bornemeier, and the rest at her home at Eustis.

Henry Reichmann, who has not been feeling very well for some time, has been kept in his home and bed recently, and while everything is being done for his recovery, he shows but little improvement. His many friends are hoping that he may soon be out and as well as formerly.

Art Ostblom, the proprietor of the market, who was suddenly taken ill some time since, and had to go to the hospital for an operation, was in town on last Wednesday and was feeling very fair and with showing improvement with each day. He will be here to look after the trade from this week on.

Fred Delekman and the girls at home entertained at their farm home last Sunday guests who have been here for the past week or more, called by the death of Mrs. Delekman, and there were there for the occasion the children who reside here, with the single exception of Miss Elsa, who is making her home in Chicago, and Mr. Miller and wife of Iowa. Mrs. Miller was a sister of Mrs. Delekman.

Mr. and Mrs. Carl Rissman, living northeast of Murdock, were enjoying last Sunday a visit from their children, who have been making their home near Liberty, and where a portion of the children work. Clara Rissman was down to that place visiting with the other children for a week and returned on last Saturday, and was accompanied by Agnes and Cora. They were also accompanied by Mrs. Carl Hesse, who also spent the day at the Rissman home.

Mrs. A. J. Tool and daughter, Mrs. George Wood, and son, Douglass Tool, who have been visiting at Sioux City for several days, returned home on last Monday, they stopping at Omaha on their way back, and leaving the car parked near the Brandies Theatre building for a short time, on their return found that someone had stolen the valise of Mrs. Tool, which had some clothing in it, and while every effort was put forth to regain the property they were unable to find it.

Little Janet Guthmann, while running through some alfalfa growing on a lot in Murdock tripped and fell, and in her falling had one of her arms crumpled under her and she sustained a fracture of the humerus, she then landed in the mud and made known the injury and the father took the daughter in the car and hastened to Omaha where the fracture was reduced by Dr. Ed Kennedy, and Janet is getting along nicely. She and her mother are staying in Omaha for the present until the injury is in a manner improved to the order that Janet can be near the

New Minister Here
The church north of Murdock, where the Rev. J. W. Peters left vacant when he accepted a call to the north some time since has called a minister in the person of the Rev. Zook, who has been ministering to a church in Texas, and comes to Nebraska on the call of the Lutheran church north of Murdock. The ladies aid of the church was over to the church building and the parsonage where they cleaned the place up last week, and got things in readiness for the new pastor, who arrived a few days since via his auto from the south. A reception and installation service was held at the church on Sunday, and the minister who is a young man is duly installed and will begin his ministry at once.

Bank Doing Good Business.
The Bank of Murdock, which has always been a good institution, and well worthy of the patronage of the people of this vicinity, is at this time under the conservative management of Messrs. Tool and Guthmann, one of the strongest institutions in this portion of the state. With twenty banks in the county the business at this time, and not counting the size of the institution, the Bank of Murdock occupies fourth position as to the volume of business done. On the last of the month there were on deposit in the bank \$384,385 with a liberal amount of cash on hand for the carrying for all business which they have to care for and with total resources of \$411,910.00.

Marriage is Slowed Up, but Autos Go Faster
California Couples Licensed After Three Days—Can Speed to Reno, Nevada.
San Francisco, Cal.—There is some speculation whether the California legislature appreciated the humor of its actions when at the last session it passed laws providing for three days of elapsed time between the application for the issuance of a marriage license, and at the same time raised the legal speed limit for motor cars to 40 miles an hour. Both provisions became laws Friday.

The date preceding passage of the marriage law clearly indicated that there was a provision against so-called "gin marriages." With the number of divorces in the state annually approaching the total of marriages, the commonwealth's legislators thought they saw in that condition the truth of the old adage "act in haste, and repent at leisure." So they made it law that three days shall elapse between the time when a couple, both parties being present, formally apply for a marriage license and the time when the license is issued. The application is placed in the hands of the clerk of the county and is available to the press for publication. In case the license is not called for within 30 days, a new application entailing a three-day wait must be filed.

LOS ANGELES IS SHAKEN
Los Angeles, Aug. 4.—The Los Angeles area of southern California was shaken from Tuesday to Sunday, and early today as a reminder that it still was within the area of possible seismic convulsions, but waited in vain during the day for another of the earthquakes which usually comes bunched.

The tremor, appearing in most places as two distinct shocks, rumbled its way from the mountains to the sea up and down the coast for more than fifty miles. From Ventura on the north to the Orange county beaches on the south, residents were rolled about in bed, while windows rattled and furniture shifted around.

The only damage reported was a broken water main near the downtown district of Los Angeles. San Pedro, the city's harbor community, seemed hardest hit. The earthquake caused a small fire at the Standard Oil company's San Gabriel plant, and Alamosite Heights field the trouble of drilling out the cement and bringing in the well. The earth shock loosened the cement at a depth of 4,900 feet and a veritable geyser of gas, mud, water and rocks followed.

CLAIMS SCHOOLS CORRUPT
Portland, Ore., Aug. 4.—Resolutions denouncing the Mexican government as "aiming to destroy economic values and the social structure," were adopted today by the supreme convention of the Knights of Columbus. That government was declared in the measures to have "already succeeded in corrupting the people, disrupting the family and rooting out religion from the hearts of millions of our fellow beings."

A hint in favor of intervention contained in resolutions adopted by the convention last year in Philadelphia, was omitted in today's resolutions. After a three hour debate, the delegates voted down a resolution to limit to six years the tenure of office of supreme knights, deputy supreme knights and members of the board of supreme directors. These officers now are elected for two years.

The order's membership was commended for contributing a fund of \$1,000,000 for use of the supreme board of directors in carrying out their Mexican policy.

Decrease in Bank Deposits

Substantial Gain Is Expected Before the Next Report Is Made.

Over \$275,000,000 was held on deposit by 871 state banks of Nebraska on June 30, before wheat harvesting had begun or any money been received by farmers from their 1927 crops. That total appears in a summary of reports made by the various banks which has just been issued by the state banking bureau, as of the date mentioned.

June is usually the low month of the year for volume of bank deposits as it is the time when farmers' finances have been depleted the most and when business slackens up to some extent with the approach of the vacation season, after cash returns from crops have come into the farmers' hands, deposits go up again. Owing to the unprecedented wheat yield this year and the high prices the grain is bringing, it is expected that the next time the banks are called upon for statements, the combined showing will jump 10 or 15 million dollars above what it was in June.

Compared with June 30 a year ago the deposits on the same date in 1927 register a decrease of \$8,996,937. However, the number of banks was reduced during the fiscal year from 893 to 871, so that the average amount per bank has not changed much.

Since March 28, this year, when the last previous statements were made, deposits fell off \$4,529,133. The number of banks went down from 880 to 871 in the intervening three months.

Due to 1928 Crop Failure.
The chief cause of the shrinkage in deposits during the early part of the present annum, State Trade and Commerce Secretary Bliss points out was the fact that crops were a partial or total failure over a large part of Nebraska last year. With a bumper production of grain, hay, vegetables and other crops this season the state should make back what it lost and gain some besides, Mr. Bliss thinks.

He will not be surprised if deposits in September should aggregate in the neighborhood of \$290,000,000 although he will be satisfied with less.

Loans and discounts, like deposits, have shrunk during the past year. On June 30, 1926, the gross sum was \$219,043,573; on the same date this year, it was \$221,642,982, a decline of \$7,409,591. The recession from March 28 to June 30 this year was \$1,970,414.

Cash reserve was smaller by \$8,201,272 at the time of the last report than one year previous. Compared with March, it was \$1,470,834 less. The reserve was 17 per cent last June, 18 per cent in March, and 19 per cent in June a year ago.

More Bond Investments.
That Nebraska banks are turning to bonds and other standard securities for investment of their idle funds, instead of putting their money almost exclusively into farm and real estate loans, is indicated by a steady and substantial growth of that item.

The total amount of bonds and securities held by state banks June 30, 1926 was \$22,501,535 in March, 1927, and on June 30, last, it had gone up to \$24,996,612.

Bills payable aggregated \$2,034,559 in June a year ago; \$4,431,718 last March and \$5,923,456 in June 1927.

EAST AGAINST THE WEST
Sioux City, Ia., Aug. 4.—Withdrawal of President Coolidge from the 1928 presidential race will not material effect the campaign plans of the democratic party. Charles W. Bryan, former governor of Nebraska and one time candidate for the vice presidency on the democratic ticket, said in an interview here tonight.

"The campaign in 1928 will be against the republican party as a whole for its failure to provide adequate relief for the agricultural west, rather than against any individual," Mr. Bryan said.

Speaking of the probably issues, Mr. Bryan said that the campaign would be along economic lines. "The fight will be sectional rather than along strictly party lines," he stated. "It will be the east against the west. Any candidate, in order to be elected, must be from the middle west. The farmers are not so particular what party he comes from."

WANT INCREASED RATES
Wichita, Kas., Aug. 4.—Increases in freight rates on grain product shipments in Kansas said to amount to approximately 34 per cent were proposed by the railroads today at the interstate commerce commission hearing into grain freight rates west of the Mississippi river. The proposal for the increased rates was made by B. F. E. March, assistant general freight agent of the Santa Fe railroad. He represented all the carriers in Kansas.

The proposed rate scale is a modification of the scale proposed by the railroads at the rate hearing at Dallas in May, when an increase of approximately 50 per cent was asked. While the railroad witness did not explain to the commission what the increase would average, Clyde Reed of Parsons, counsel for seven Kansas farm organizations, stated it would be approximately 34 per cent.

NOW SELLING BEVERAGES

Fred G. Egenberger of this city has accepted the work as representative in this part of Nebraska of the Herman Products Co., of Omaha, despatching a large line of beverages, flavors and fountain syrups that are ranked as among the best of their kind in the country. These beverages and syrups are unfermented and where they have been very much liked. Mr. Egenberger is calling on the trade in this city and placing his line before the local people and also expects to make other of the towns with this splendid array of syrups and beverage flavors.

Omaha-St. Louis to be Linked by River Boat Line

Company Formed at St. Louis Will Inaugurate Freight Service

St. Louis, Mo., Aug. 5.—A revival of the steamboat on the Missouri river is indicated in the incorporation of the Island Navigation company for the purpose of operating freight and excursion craft between St. Louis and Omaha on regular runs. Barges also will be operated to the larger cities en route, including Kansas City, St. Joseph, Jefferson City and St. Charles in Missouri and Leavenworth, Kan.

Excursion boats are being prepared at St. Louis for service and the number of craft will be increased as the business warrants, according to officials of the company. After the summer excursion season, freight boats will be added to the service.

The company, which will maintain its offices in St. Louis, will be operated by William S. Cordry, real estate broker and former member of the Missouri state legislature, or president, and Captain J. M. Mulvey, a licensed pilot of 40 years' experience, as vice-president.

Cordry declared tonight the service should prove profitable since there is but one boat operating on the Missouri river, and a big development is assured, as the federal government is spending \$30 million dollars to improve the course.

BIRTHDAY AT HOLLYWOOD

Hollywood, Cal., Aug. 3.—Hollywood today looked back across a film-enchanted vista to its birthday. Just forty years ago Horace Ben-Haim, a Polish Jew, came to the city of the stars, and on that day two score years ago subdivided their orange and apricot orchards, sold a lot to a friend, and thereby laid the foundation for the future city of motion pictures.

Today was pioneers' day. They gathered on nearly every corner to tell each other again how the dogs used to round up great flocks of sheep and drive them down Prospect avenue, now Hollywood boulevard.

An old settlers picnic Saturday will be attended by many high lights of the picture industry whose treatments today are estimated at \$100,000,000. It will be preceded by a "old timers" parade down Hollywood boulevard, participated in only by those who knew Hollywood as a town of muddy streets and lemon orchards. A group of about 500 people will be gathered to witness the parade which will be a revival of a high school debate of 1904 involving the question: "Resolved: That Hollywood business property some day will be worth \$100 a front foot." Today three lots given away by the picture industry to insure its improvement are estimated to be worth \$5,000 a front foot.

LEGAL NOTICE
In the District Court of Cass County, Nebraska.
George E. Timblin et al. Plaintiffs
vs. Jasper M. Timblin et al. Defendants
NOTICE

NEW FOREMAN HERE
The position at the local machine shop of the Burlington, made vacant by the transfer of William Weber to Aurora, Illinois, had been filled by the sending here of J. C. McVey, who comes to this city from Brookfield, Missouri, and has been here for several days in getting the affairs of the shop in hand and starting in on his service here. Mr. McVey is one of the experienced foremen of the road and will make the company a very able foreman of their machine department at this place.

DOING STENOGRAPHIC WORK
From Friday's Daily—
During the illness of Miss Dorothy Svoboda, who has had her tonsils removed at the Clarkson hospital in Omaha, Miss Theresa Donat, one of the graduates of the class of 1927 of the local high school, is looking after the stenographic work at the office of Attorney A. L. Tidd. Miss Donat is one of the most efficient of the graduates of the local commercial department of the high school and is a splendid stenographer.

NEW SON ARRIVES
From Thursday's Daily—
The home of Mr. and Mrs. Herbert Behns is very much happier over the fact that a fine nine pound son and daughter has arrived at their home to dwell there in the future and bringing with him a great deal of happiness to the members of the family circle. The young man and the mother are both doing very nicely and occasion has been one of the greatest pleasure to the relatives and friends in this city and vicinity.

Some cooks manage to get fat while wasting away.

FELL 27 FEET; BENDS WRINGER

To fall twenty-seven feet and strike the iron arch of a wringer bending it perceptively and lived to see the result of your experience is something that not many a person has ever been privileged to do. Noel Roberts, age 19, of this city has had this experience.

He climbed upon the roof of his home in the northwest part of this city Monday afternoon to get a toy airplane which had lodged there. He slipped and fell, rolling several feet to the edge of the roof and then straight down twenty feet striking his head on the wringer. Dr. J. M. Donelan was immediately summoned and after a careful examination reported that Noel had suffered no serious injury. In fact the wringer seemed to be damaged more than the boy. No serious symptoms have so far appeared, and Noel now enjoys the distinction among his play fellows of being a pretty "hard headed chap."

—Glenwood Opinion.

WRITES FROM GREECE

George Conis, proprietor of the Palace Shining parlor of this city, who left several weeks ago for his old home in Greece, is now in the city in the old home on the west coast of the south European country. Mr. Conis sailed from New York on one of the Greek liners and made the trip in splendid shape he states. The weather for the crossing was ideal and the pleasantness of the ocean voyage and the holiday has proven very beneficial to Mr. Conis in that he is gaining weight, several additional pounds having been added on the way over the ocean. He landed at Patras, the main seaport on the west coast of that country and was preparing, when the letter was written, to start on his journey to the old home on one of the islands north of Patras in the Ionian group, where he will visit his mother and other of the relatives who still reside in that part of the world.

What are the republicans going to do about Coolidge.

SOME SPLENDID FAMILY
From Saturday's Daily—
F. A. Stohlman, one of the well known residents of Center precinct, was in the city this morning in company with his daughter, Miss Amanda and his niece, Miss Martha Stohlman and while here was a caller at the Journal to advance his subscription for another year.

TAKEN TO HOSPITAL
From Saturday's Daily—
Last night Watson Long, aged 70 years, one of the well known residents of west of Mynard was taken to Omaha where he was placed in the Lord Lister hospital for treatment and care as he is in very serious condition, and has suffered a great deal in the last few days. He seems to be suffering from a growth in the throat that has grown so severe as to prevent his taking nourishment and in his weakened condition has been very severe. An ambulance was sent from Omaha and the aged man hurried to the hospital for treatment. The condition of Mr. Long has caused a great deal of worry to the members of the family circle and they are hopeful that he may receive some relief from the treatment at the hospital.

ENJOY A VACATION
From Saturday's Daily—
The Burlington has issued an order affecting the various shops of their system both on the east and west lines, which gives the men in the mechanical department a holiday on Saturday, the order being effective today and all over the lines the shopmen are engaged in fishing, resting or doing work around their home for the holiday. The order will be in effect until otherwise cancelled.
