## Stands Pat for Tax Cut of 400 Million

United States Chamber Says Vote of Membership Committed to This Program.

Washington, Nov. 24.—Standing pat on its demand for a 400 million dollar tax reduction, despite the treasury view that it should not exceed 225 million dollars, the Chamber of Commerce of the United States announced today that its membership in a referendum just completed had approved the revenue program of its committee on federal taxation.

In the largest ballot by its member organizations ever recorded, the chamber reported that 91 per cent of the vote was in the affirmative.

The Chamber of Commerce announcement said that the action on the part of the membership committed the organization to advocate at the coming session of the congress the enactment of a bill carrying into effect the following program:

Reductions and repeals estimated to amount to 400 million dollars in the first full year after the changes are made.

Reduction of the corporation income tax rate from 13½ per cent to not more than 10 per cent, with the reduction applicable to net income of 1927.

Wants Excise Tax Repealed.

Repeal of the remaining war excise taxes levied on particular businesses.

Repeal of the federal state tax. Provision by congress of full opportunity for the joint congressional revision to perfect proposals for revision by federal tax laws and their administration.

"With respect to the suggestion that taxes be cut 400 million dollars, half of it to apply to the present fiscal year," the chamber's statement said, "this recommendation was arrived at after study of the government's fiscal situation by an eminent committee of men."

"Large yearly treasury surpluses show plainly that the government is taking more tax money from the public than is necessary to run the government and retire the public debt as already provided for by law. The surplus for the year 1927 was more than \$355 million dollars."

Other Surpluses.

"Surpluses for other years have been:

For 1924, \$505,336,000.

For 1925, \$350,505,000.

For 1926, \$377,767,000.

"Already a surplus for the current fiscal year amounting to 455 million dollars is in prospect, and on the basis of a continuation of the policy of economy, of reasonable estimates of business stability as well as probable revenues, a sufficient surplus is to be expected for 1929."

Declared that "prospective surpluses in the treasury encourage extravagant appropriations," the Chamber of Commerce held to the view that "congress would hesitate to launch expensive new enterprises if it do so would produce a treasury deficit."

**Undergoes Minor Operation.**

Lincoln George Lambert was taken to Lincoln last week where he at the Bryan Memorial hospital underwent an operation for the betterment of his health and is reported as getting along nicely since.

**Had Excellent Time.**

The ladies of the committee having in hand the Bazaar which was given a week since at the Christian church are well pleased with the excellent patronage which they received, it being some \$216.20 and feel that the people were very kind in the bestowal of their patronage.

**Died in Omaha.**

Early last week, Mrs. P. A. Sanborn was called to Omaha on account of the very serious illness of her brother, A. E. Dunn, 65 years of age, who was afflicted with aggravated dropsy, and from which he died on Monday, the funeral occurring on Wednesday of last week. Mr. Sanborn joined the wife, for the funeral. Mr. Dunn has resided in Omaha for many years and has been very prominent in the development of that city, he having been engaged with E. R. Hume in the real estate business. He was a member of the Methodist church and leaves a widow and three children, all grown.

**More Complaints Against Bus Men**

Railway Commission Orders the Filing of Three Charges in Early County of Law Violation.

The state railway commission is continuing its drive against interstate bus companies that it charges with violating state laws. One is against the Elway company, owned by the Taggart of Denver, and which operates buses thru Nebraska and in various directions from its headquarters city, doing also a coast to coast business, that is, carrying passengers whose rides are wholly within the state, without having the passenger liability bond required by the law and by state commission rulings.

Another complaint is against John Doe, real name unknown, driver of one of the Elway buses on a charge of having failed to stop at railroad crossings, as the law requires. A similar complaint was filed against F. H. Bolton, driver of the Big Four company who was recently bound over on a charge of operating his bus without a bond.

The Big Four company is named after the brotherhoods, but has no connection with the unions. It operates buses to several points outside the state, from Omaha, to Sioux City, and Kansas City, among others.

Complaints as to the operations of these buses have come to commission recently and it sent out men to ride them to detect violations. The complaints are the results of their reports.

**WANTS SEPARATE UNIT**

Washington, Nov. 25.—While the redistricting of the prohibition areas in the middle west is being considered, spokesmen for Iowa and South Dakota declare that these two states should be kept as a separate unit.

Senator McMaster (Rep. S. D.), said today that he preferred that two states should not be linked up with either Chicago or Minneapolis districts. His view also was shared by Senator Brookhart (Rep. Ia.)

While the Iowa and Dakota Senators have no particular complaint against the contemplated redistricting plan to link these states with Nebraska, they do not want them jointed with the Chicago or Minneapolis units, it is understood.

**ST. PAUL'S AUXILIARY**

## Tax Cut Proposal Incurs Ire of President

U. S. Chamber of Commerce Plan to Reduce Levies by \$400,000,000 Characterized as Absurd.

Washington, Nov. 25.—Retraction by the chamber of commerce of the United States that the prospective reduction in taxes should reach \$400,000,000 drew hostile and emphatic criticism today from the white house. No doubt was left that President Coolidge is decidedly displeased with the chamber's view that there would be no cause for alarm even if a treasury deficit were incurred.

With extraordinary vehemence, it was explained at the white house that the white house that is looking for nothing more absurd than a suggestion that the government greatly increase its expenditures and at the same time reduce taxation.

Officials of the chamber of commerce, it was asserted on Mr. Coolidge's behalf are trotting around to various government departments seeking as large expenditures as possible for the projects it favors and at the same time clamor for tax reduction far in excess of what both the treasury and majority of the house ways and means committee has deemed advisable.

Would Curb Expenditures.

It would be better, in the opinion of Mr. Coolidge, for the organization to devote its energies to proposals for curbing national expenditures as by that process only, he believes, can the tax burden be lightened.

The views of the president were

disclosed after publication in today's newspapers of a chamber of commerce statement which declares that tax reductions could easily reach \$400,000,000 because large treasury surpluses show plainly that the government is taking more tax money from the public than is necessary to run the government and retire the national debt as already provided for by law.

It was this view of the chamber of commerce that particularly incited the ire of Mr. Coolidge. It was made known in sharply worded phrases that this attitude, in his opinion, shows a total lack of knowledge of State Journal.

Mrs. J. T. Parker of St. Paul, Nebraska who has been here visiting at the home of her aunt and uncle, Loran Davis and Mrs. Laura Peterson and as a guest of her cousin, Miss Ella Kennedy, returned this morning to her home.
