THIS DEMOCRAT IS ANGRY

Boston, Jan. 24.—Francis A. Campbell, leader in democratic politics in Massachusetts, tonight demanded that Massachusetts democrats refuse to attend the national convention at Houston, Tex., unless Senator Tom Hefflin of Alabama is repudiated and his remarks in the senate condemned by southern democrats.

"We Massachusetts democrats have a right to know whether Hefflin speaks for himself alone or whether other democrats from the south are willing to see him so unrepudiated," Campbell said. "I want to know what other democratic leaders and democratic senators think about it. I demand they go on record. I am not going to Houston to listen to vicious and unprincipled attacks on the Catholic body of American citizens. I do not believe that any honest democrat will, either. I want to know whether we Massachusetts democrats are to face such insults."

"The opportunity to repudiate Hefflin is before all the democratic senators and members of the national committee. The question is a far greater one than Governor Smith's candidacy. We in Massachusetts can't remain in a party in which Hefflin have any support. I want to know the kind of people the Massachusetts democrats will be supposed to associate with in Houston. I can't shake the hand of an Alabama democrat who says Hefflin talks for him, nor can other recent democrats from Massachusetts."

Council Has a Very Quiet Time at Regular Meet

Regulation of Cemetery and Water Rate Question Occupy Greater Part of Time.

From Tuesday's Daily.—The city council at their session last night had little to press on the legislative department of the government but spent some time in the discussion of the water rates and also the regulation of the Oak Hill cemetery. All of the councilmen were in attendance with the exception of Councilman Egenberger of the second ward.

Fire Chief D. O. Sandin presented a report that covered the matter of the fires in the last month that of January 2nd at the Masonic Home, January 7th at the J. P. Wrga home, January 15th at the A. W. Cloldt home and January 19th at the John Albert property.

Councilman Luschinsky of the fire and water committee stated that the company carrying the compensation insurance for the city desired to have the official list of the members of the fire department certified on the records of the council and the official list was ordered spread on the records.

The finance committee of the council presented the following claims which were ordered paid: State Journal Co., cash book, \$32.00 C. E. Hartford, coal to city hall, 38.30 C. A. Johnson, expense to Kansas City, 25.30 J. A. Capwell, expense to Kansas City, 34.69 K-B Printing Co., tobacco licenses, 6.11 George Taylor, street work, 2.25 C. H. Schaffer, same, 6.00 O. A. Newton, same, 4.80 John Kubicka, same, 1.60 Walt Byers, same, 13.95 J. E. Scott, same, 3.60 K. White, Buss, repairs on Platt, Fire Dept., six nozzles, 9.00 Dr. O. Sandin, expense state convention, 20.00 William Hiner, cutting brush at cemetery, 4.80 C. H. Lewis, burying five dogs, 3.25

Councilman Luschinsky reported that fifty feet of hose bought by the city two years ago had blown out at the Albert fire and the city clerk was authorized to notify the company supplying the hose that the city would expect this hose being replaced under the guaranty.

Chairman Blunt of the cemetery committee reported that the trees and brush in the unoccupied part of the cemetery had been cleaned out. He also brought up the matter of the regulations of the cemetery and the new part that is to be platted soon.

Sexton Tulene was present and stated that the elimination of the alleyways between lots was being done in all of the newer cemeteries and that it would add a fifth to the area of the cemetery and would allow for a neater looking cemetery and also save this space that was getting to be a matter of serious consideration as the lots would last only for the next ten years.

After some discussion it was decided to leave the matter of the alleyways to the cemetery committee with power to act and to consult the sexton on the matter of the elimination of the alleyways.

The question of taking out the old style iron fences and pipe fences around the lots, and what will be given consideration in the plans for making the cemetery more attractive.

Mayor Johnson gave a resume of the trip that he and City Attorney Capwell had made to Kansas City by the instructions of the city council, meeting there Mr. Lambert, valuation engineer, in order to consult him as to the rates that can be charged by the water company for service to the people here. The valuation engineer had the decree of the court as well as other information as to the water plant and the city in general and would have a plan to submit to the city council before the next meeting, making a number of schedules that would apply under the increase in rates that the United States district court had made necessary and from which the city and the patrons of the water company could not escape. The mayor stated that the water company had been guaranteed a seven per cent return on their investment and the city was trying to hold the rate down to as low a figure as would be possible.

BRUCE ASKS RE-ELECTION
