

Greenwood Department!

Prepared in the Interest of the People of Greenwood and Surrounding Vicinity

John Graham, of north of Greenwood and residing in Saunders county was delivering wheat to the Farmer's elevator on last Thursday afternoon.

George Bucknell, the hustler and hardware man, had the misfortune to severely burn one of his hands last week, and has to carry the member bandaged at his work.

W. A. White of the firm of White and Bucknell, hardware men, was busy last week constructing a rack for the reception of wall paper which this firm is handling now.

Messlame E. A. Landon and Wayne Landon and Miss Catherine Coleman were over to Ashland on last Sunday where they were visiting for the day at the homes of E. E. Buck and Mrs. Elka Marshall.

P. A. Sanborn and Gust Sorman were looking after some business matters in Omaha on Thursday of last week, they getting some supplies for the work which Mr. Sanborn is having done on his home.

The Greenwood Commercial Club enjoyed their first banquet on last Thursday evening, the supper being served by A. F. Weibke, and which was attended and enjoyed by all the business men of Greenwood.

Uncle J. W. Carnes and wife, accompanied by their daughter, Miss Rhoda, all of Lincoln were visiting and looking after some business matters in Greenwood for a few hours on last Thursday, they driving over in their car.

Mr. and Mrs. Gust Sorman entertained at their home in Greenwood on last Tuesday and had for their guests a large number of their friends and neighbors and at which time they had a most delightful evening with the friends.

Judge W. E. Newkirk was a visitor in Lincoln one day last week and while there got into a game of checkers at the Y. M. C. A. and forgot himself. The man with whom he went also was in the same way, only he was looking after some business, and he forgot the judge and came home without him. Mr. Newkirk had to find some other way to get home.

Al Ethrage was building himself a trailer last week which was remade on the chassis of a Universal automobile, otherwise known as a Ford. Al took out the motor and left the balance as it was, with no body or fenders in the way to interfere. He has the remainder which he would part with as he does not want the assessor to catch him with them on hands.

Somewhat Improved
W. E. Hays has been confined at his home for the past several weeks was able to be down town last week, and sure he acted like a boy with his first pair of boots, he came down and visited the barber and got the whiskers off and a hair cut and met his many friends who were almost as glad as the judge that he was able to be out again.

Greenwood Full of Whippets
And that is not all, for while E. M. Jardine got a car load last week for the customers which had been waiting they were not all supplied even then and he would like to have some more just now. P. A. Sanborn does not handle Whippets but they are handled by Deanie, who sure keeps rustling for the sale of the nifty wagons.

Order of Eastern Star
The Order of the Eastern Star was entertained at a card party at the home of Mr. and Mrs. Travis Cameron where on Thursday evening they had a most delightful evening and where they were also served with a most delightful luncheon.

Young Man Fractures Arm
While Royal Leaver was attempting to start his car which was a mite refractory, the animal kicked and as a result the arm of the young man was broken. He had the fracture reduced and is getting along nicely, and will wait for several weeks before he is able to use the same arm for the starting of these stubborn automobiles.

Taking Nurse Training.
Miss Uvon West is in Lincoln and working at the Bryan Memorial hospital where she is receiving nurse training instructions and will remain until she shall have graduated. Miss Uvon is a very clever young woman and will, we are certain, make an excellent nurse when she shall have completed her course.

Signs of Spring
W. H. Leesley, last week, set one series of his incubators and this week another, and will, with the coming week, set another which will make

Better Be Ready!

Look after the Plow Lays, the Discs and the Cultivator Shovels NOW. Do not wait for the Spring rush. You have to have the work done, so be ready when Spring gets here.

GREENWOOD NEBRASKA

some 5,500 eggs on the way to be some spring fries or broilers. Anyway, he is expecting to have some young chickens at this time. He reports getting about a case of thirty dozen eggs per day or 360, which is doing pretty well for this time of the year.

A RECORD OF PUBLIC SERVICE

The freight shippers of America paid in 1927 almost nine hundred million dollars less charges, than they would have paid in 1921 for the same service. Numerous rate reductions have saved the shippers over 4 billion dollars in the six years.

It is unfortunate that criticism of railroad rates is based almost entirely on personal opinion and theory, and seldom on fact. As a matter of fact, rates are now remarkably cheap, and have been steadily lessening. The radical party who denounces the railroad is attempting to delude his audience.

Railroad management is tremendously efficient and intelligent. Safety has been increased to such an extent that a passenger is safer on the train than in his own home. The service of the railroads has reached a new high standard. But in spite of cost reductions, railroad earnings are less than the small percentage of profit permitted by the government. One way to reduce railroad rates is to reduce their tax burden and away with legislation interfering with railroad progress. The lines themselves are more than meeting their obligations to the public.

Nebraska Solon in Role of a Geography Teacher

Invokes Attention of Colleagues by Spreading Out Large Map of Alaska on Arguing Question

Washington, Feb. 8.—Presidential politics were still-tracked temporarily in congress today while both houses worked on appropriations that involved local issues.

A lone raid by Howell of Nebraska calculated to make Anchorage instead of Seward, Alaska, the permanent terminal of the government railroad led to a lesson on Alaskan geography in the senate. In the house the republican bosses were bowled over in opposing an additional half million dollars in the army bill for the national relief matches at Camp Perry, O.

Howell went down to defeat in his proposal to stop capital expenditures on the Anchorage-Seward section of the railroad but only after he had spread out a large map of the region on the wall and invoked the attention of his colleagues.

This turn of events served to push aside temporarily the LaFollette resolution to put the senate on record against third terms for presidents although it holds its place as the senate's unfinished business.

Cotton Probe Demanded
The senate popped thru the bill for the striking of a Lindbergh medal to reward future civilian aviation exploits, endorsed the Pacific southwestern exposition in California, approving government participation and heard Smith's South Carolina on his demand for investigation of speculative cotton price fluctuations.

In the house, before the army supply bill discussion was resumed a violent attack on administration officials including President Coolidge in connection with Pennsylvania coal strike situation came from Casey of Pennsylvania on the democratic side.

AMERICAN PAVING LEADS THE WORLD

Speaking before the recent annual asphalt paving conference at Atlanta, Thomas H. MacDonald, chief of the United States Bureau of Public Roads, said:

"All the world wants roads and all the world looks to the United States for the best examples of modern highway development. Therein lies a wonderful opportunity for American skill and initiative to help in a work which will add immeasurably to the peace and prosperity of the world. In many countries, road construction is limited by lack of funds and the problem is to build a large mileage at a low cost. Is not that problem of tremendous significance to the asphalt industry?"

It is significant that asphalt is constantly being used more extensively to salvage worn-out pavements and macadam and gravel roads, by covering such old road base with a new waterproof wearing surface which will meet modern traffic conditions, and at the same time cause the least drain on the taxpayers' pocketbook.

FREIGHT STRIKES AUTO

Scottsbluff, Neb., Feb. 8.—John H. Scott, seventy, farmer living near Morrill, was seriously injured this afternoon when his automobile was struck by a freight train at Mitchell. The aged man suffered a fractured right leg, a possible skull fracture and numerous cuts and bruises.

Remember your sweetie or friend with a valentine and see the fine line at the Bates Book & Gift shop.

Gov. McMullen Defines Position on 1928 Issues

Declares He Would Leave His Party If Necessary to Vote for a Farm Relief Candidate.

Governor McMullen indicated Monday that if he cannot get agricultural equality in the republican party he will vote for a democratic candidate for president if the latter is a sure enough advocate of such relief as is asked for in the McNary-Haugen bill. He also defined the position of the Norris-Lowden candidates for delegate to the national convention and welcomed the placing of Hoover's name on the primary ballot as a means of testing out Nebraska people on farm relief.

When he was told the nature of Attorney General Spillman's stand on agricultural equality the governor said:

"I am taking no part in any fight for offices only to the extent of the position of candidates who may have a vote on agricultural legislation. I am not for any candidate who favors any makeshift, either in the form of loans to farmers or outright gifts to the farmer.

"If the republican party does not nominate a man for president who represents agricultural equality as we are seeking it in western states or as represented in the McNary-Haugen bill, and the democrats do put up a man who openly and explicitly advocates agricultural equality I will support him.

Regarding press reports of the name of Hoover as a competitor of Norris on the Nebraska primary ballot Governor McMullen said:

"Two delegations will be submitted to the people at the primary election. One of them, generally referred to as the Norris-Lowden delegation, is contending for agricultural equality and is placing that issue above men. The delegation will support Senator Norris because he represents the farmers' views on the agricultural question. If he cannot be nominated the delegation will support Lowden for the same reason, and if he cannot be nominated it will support Dawes for the same reason, and if he cannot be nominated it will support any western man who stands foursquare for agricultural equality.

"If Secretary Hoover's name is on the ballot it will give the people a chance to choose between the two delegations. Secretary Hoover is known to be opposed to the farm legislation represented by the McNary-Haugen bill and supported unanimously by the Nebraska delegation in both the house and senate. Senator Norris is in favor of such legislation. With Secretary Hoover's name on the preferential ballot in Nebraska the lines would be clearly drawn and the people would have a chance to express their desires as to which delegation they would want to represent them at the national convention. Ex-Governor Lowden's name does not appear on the preferential ballot for the reason that Senator Norris represents his views on the agricultural question and he would not think of opposing him in this state. Senator Norris has stood staunchly for agricultural equality ever since a concerted fight for the farmer began. If he can be nominated the delegation representing the agricultural issues will stand by him to the last.

"On the other hand, if Senator Norris did not support the farmers' cause an attempt would have been made long ago to induce ex-Governor Lowden to permit his name to be placed on the ballot in Nebraska. We are fighting for the rights of agriculture; that is our issue."

LA PLATTE MAN IS ACCUSED
Papillion, Neb., Feb. 10.—Charles Ross of La Platte was arraigned Friday before County Judge Wheat charged with robbing the home of Roy French near Papillion Jan. 18. He pleaded not guilty. A hearing was set for Tuesday morning.

George Newton and Norman Bryant, held for trial by Judge Wheat under \$1,000 bonds Thursday after clothing and silverware taken from the French home were found in their possession by Sheriff H. A. Olderog, told Judge Wheat that they had innocently purchased the stolen property and identified Ross as the man from whom they made the purchase. Ross said he had never seen Newton before and had not seen Bryant since Christmas.

URGE FEDERAL BUS EDICT
Washington, Feb. 10.—Conflicting views as to the necessity for a co-operative state and federal system of regulating motor bus and truck operation over highways in the common carriage of goods and passengers were expressed today in arguments before the interstate commerce commission.

The commission's interest in the subject has been indicated by a prolonged investigation of the degree to which highway competition has effected railroad operations and the public service, and a tentative report before the commission now recommends that congress and the states be asked to undertake a systematic regulation.

Poultry Wanted

Wednesday, Febr. 15th Plattsmouth, Nebraska

Live Poultry and Eggs wanted to be delivered at the Peoples Produce Station, Plattsmouth, WEDNESDAY, February 15, one day only, for which we will pay the following—

CASH PRICES

Nebraska Eleven to Replace Navy

Graduate Manager Fleming Confirms Announcement—Attempted to Arrange Game Nov. 10.

West Point, N. Y., Feb. 8.—The University of Nebraska, one of the strongest eleven in the middle west takes the Navy's place on the 1928 football schedule of the Army. The game will be played at the West Point stadium on Nov. 24.

In scheduling the Cornhuskers, who disputed the Missouri Valley conference leadership with the University of Missouri last fall, the Army wrote the final chapter to the events growing out of the now famous break with the Navy over eligibility standards, at least for 1928. The midshipmen already have booked Princeton for a game at Philadelphia on the date originally set for the annual service classic.

No word of a possible resumption of relations with the Navy in 1929 was contained in the Army's official announcement made by Maj. Phillip Fleming, the graduate manager of athletics. Neither was there any comment on reports that the cadets had been approached with a proposal to play the University of Chicago in Chicago in 1929.

Wanted Huskers Earlier.
This year's slate, characterized by Major Fleming as "probably the most strenuous schedule ever attempted by an Army team," was completed after an unsuccessful effort to switch playing dates, so that Nebraska's date now assigned to Notre Dame, and the Huskers reserved for the climax opposition on Nov. 24, New York.

Notre Dame, it is understood, was willing to make the shift, even though it gave the Rockmen an interval of only two weeks between games in New York and Los Angeles with Southern California. However, Nebraska found it was unable to change its previously scheduled game with Oklahoma on Nov. 10 to permit coming east on that date and the plan was abandoned.

Nebraska made the Army an attractive offer to play the game at Lincoln, but this was not accepted because of the opposition of military authorities to the team making more than three trips away from West Point. Harvard, Yale and Notre Dame will be played away from home next fall.—State Journal.

MUST PAY AN INDEMNITY

Vienna, Feb. 8.—A Bucharest dispatch to the Neu Freipresse says that General Averescu and members of his cabinet who held office in 1926 and 1927 were sentenced today by a court to pay an indemnity of 254,000 lei (roughly \$50,000) to the newspaper Deimenata and Adverul. The sentence was imposed because of the confiscation of an issue of those papers containing a national peasants party communique regarding the dynastic succession question.

THREE TO FACE CHARGES

Papillion, Neb., Feb. 8.—Fred Newton, George Newton and Norman Bryant were arraigned before County Judge J. M. Wheat on a charge of breaking and entering and were held for trial Thursday and were held for \$1,000 each. The three men, who pleaded guilty, are alleged to have stolen wearing apparel and silverware valued at \$200 from the home of Roy French one mile east of here Jan. 10.

S. S. Kresge Cash Gift to be Accepted

Ignore "Tainted Money" Charge; Methodist Church Split Into Two Factions.

New York, Feb. 9.—The Madison Square Avenue Methodist Episcopal church here was split into two factions Wednesday as a result of the marital difficulties of its richest member, Sebastian S. Kresge.

Many members of the church are reported to have demanded that the millionaire 5 and 10 cent store magnate be dropped from the membership rolls, following the action of a jury this week in finding the wealthy Detroitier guilty on six counts of adultery on charges preferred by Mrs. Mercer Kresge.

When the case was heard here, detectives testified they followed Kresge from the church to his love nest with Gladys Adele Fish.

Will Keep Money.

Washington, Feb. 8.—The Anti-Saloon league has no intention of returning to S. S. Kresge, multi-millionaire prohibitionist, the \$500,000 which he recently gave the league for propaganda work in advancement of the dry cause, according to F. Scott McBride, head of the organization.

Representative Boylan (d.) of New York demanded in congress Tuesday that the gift be returned as "tainted money," because of revelations of Kresge's love nest and drinking parties contained in Mrs. Kresge's divorce action in New York.

"Of course we are not going to return it," said McBride.

Money For Propaganda.

The league statement said the money given by Kresge for a "specific purpose"—establishment of a huge propaganda bureau—and that part of it already had been spent for this purpose.

"On the basis of evidence tending to prove marital infidelity with a young girl, including parties where liquor was served, the New York state supreme court has granted a divorce to the wife of Kresge, the multi-millionaire angel of the Anti-Saloon league," said Mr. Boylan.

"It will be interesting to know whether the Anti-Saloon league will keep his recent \$500,000 contribution."

Calls It "Tainted Money."

"It is my understanding that W. F. Scott McBride, head of the league, minimizes the court findings and says the league will await possible appeals to higher courts by its financial angel. It doesn't want to let the money get out of its clutches."

Kresge's gift, he said, would finance propaganda in 12 states.

"Every person in those 12 states will be entitled to say to the Anti-Saloon league speakers and evangelists that they refuse to be saved with tainted money," he said.

Business Gesture.

Detroit, Feb. 8.—Business and not philanthropy actuated S. S. Kresge, millionaire 5 and 10-cent store owner, in donating \$500,000 to the Anti-Saloon league, Bishop Thomas Nicholson of Detroit, president of the dry organization, declared Wednesday.

Bishop Nicholson's statement came close on the heels of a challenge

from Representative John Boylan (d.) of New York, that the Anti-Saloon league "return the tainted money."

Kresge's private morals has nothing to do with the gift, the bishop intimated.

Brings in Nickels.

"Mr. Kresge did not give the \$500,000 to the Anti-Saloon league as a philanthropic gesture," Bishop Nicholson said. "It was purely a business proposition with him. He saw that prohibition increased his own income, that it brought more nickels and dimes into his stores, and so he devoted \$500,000 in aiding this cause, which so directly affects him."

Bishop Nicholson's comment came shortly after an announcement by the Michigan law enforcement league that it will not accept gifts from Kresge until he explains the charges involving immorality and drinking of which he was found guilty by a jury in the divorce suit of his wife, Doris Mercer Kresge.

L. R. Bowen, secretary-treasurer of the Michigan Law Enforcement league, Wednesday issued this statement.

Refuses to Explain.

"Owing to the many inquiries reaching us, I wish to say we have instructed our representatives to accept no contributions from S. S. Kresge until he makes satisfactory reply to the charges involving personal immorality and liquor drinking."

Wednesday Kresge refused to reply to the denunciation delivered by Justice John M. Tierney of the New York supreme court, who presided

Monday over the divorce action of his wife.—Omaha Bee-News.

TIME TO THROW ROTTEN EGGS

The Georgia Manufacturers' Association calls attention to the continued force that is being played in Washington with Muscle Shoals as a stage setting, the politicians as the actors to secure public attention, and the farmers as the audience supposed to express approval of political measures proposed "for their benefit."

The December issue "Farm and Fireside," a national farm paper of 1,115,000 circulation, hits this horse-play a crack in an article entitled, "The Muscle Shoals Humbug." It says:

"Nitrates for fertilizer cannot be made profitably at Muscle Shoals. This fact has long been known to the nitrate experts of the country whose findings have been freely published." It backs its statements with facts.

It is about time for the farmers watching this national farce, to begin throwing rotten eggs and prehistoric eggs at the actors in this comedy which the taxpayers are financing. The South needs the benefit of both cheap fertilizer and wide distribution of power, alike for industrial and the growing agricultural uses. This can be secured, in line with the President's message, through development of modern methods of fertilizer manufacture with the rents obtained from power widely distributed for industrial and agricultural uses. Both of these benefits are being lost through the present method of dealing with Muscle Shoals.
