Increase in Tax on Gasoline Asked for Road Building

Additional Levy of One Cent Proposed in Program of Nebraska Good Roads Association

Lincoln, March 3.—Completion of the present gravel program as fast as funds are available, and continuation of the 2-cent gasoline tax, both permanent and contingent, with assessment of an additional cent for construction and maintenance of county roads are the high spots of the 1928 program of the Nebraska Good Roads association, announced Friday by E. H. Polley, field secretary.

The program was adopted at the recent convention of the association at Norfolk.

Resolutions adopted at the convention follow:

"That as fast as funds are available be passed to complete the present gravel program. When the system of state roads is completed they will carry a large percentage of all traffic.

"That the 2-cent gasoline tax, as provided by the constitution, be continued and permanent. This is necessary to continue the present gravel program.

"That a national tax of 1 cent on gasoline be added, the proceeds of which shall be used to construct and maintain county roads as feeders to state highways."

"That this resolution is to furnish funds for graveling county roads without the necessity of a county tax levy. This additional 1 cent would furnish about one and one-half million dollars per year, all of which would go to the counties.

"It is estimated this will gravel approximately 2,000 miles of county roads each year and would connect every town and market with every other town and market in the state. There are about 300 towns in Nebraska not on the state system.

Bond Issues Proposed.

"That legislation be passed or present laws be amended that counties issue bonds for permanent improvement of state and federal aid roads, said bonds and interest to be retired out of the state 2-cent gas tax, according to each county's apportionment."
