

DESCRIBES HIS METHODS OF OBTAINING PUBLICITY

Washington, June 22.—Methods, including "back slapping," used to influence the newspaper editors in Tennessee to publish power concerns' publicity to defeat government operation of Muscle Shoals were described today in the federal trade commission's utility investigation.

to obtain contracts with the newspapers and their editors. He declared he had urged the other southern utility publicity organizations to "call the country editors by their first names and slap them on the back."

Coolidge Lets Business Pass by as He Rests

President Thoroughly Enjoying Present Privacy and Absence of Political Turmoil

Superior, Wis., June 23.—Satisfied to let all but the most pressing of his duties lie over until Monday, President Coolidge decided Friday to wind up the remainder of this week in the solitude of the Wisconsin woods, thus getting 10 full days of invigorating open air life before paying his first call at his executive offices.

Some routine matters, however, required Mr. Coolidge's approval and signature and these were taken out to him Friday at Cedar Island lodge. These questions quickly dispatched, and wearing his 10 gallon hat and his high-heeled boots, he chose to take it easy reading the papers and strolling about in the immediate vicinity of the lodge.

No word had reached Mr. Coolidge Friday from Washington that Secretary Work intended to come to Superior in the near future either before or after resigning from the cabinet.

Caused No Surprise. In fact officially, Mr. Coolidge had not been informed of Mr. Work's intention to resign, having learned this only through press reports. The announcement, however, caused no surprise at the summer White House.

While it was emphasized that Mr. Coolidge had apparently every intention of spending an exceedingly quiet summer, receiving few visitors and perhaps refusing all invitations for trips and speeches, it was said that a visit from Mr. Work would be welcomed. In any case the chief executive would be glad to go over departmental matters with the retiring interior secretary in view of the vacancy in the cabinet which would have to be filled.

It was added that probably it would devolve on Mr. Work to prepare the preliminary estimates for his department's appropriations for the fiscal year beginning July 1, 1929.

Secluded Life. These have to be filed with the bureau of the budget by August 1, and Mr. Coolidge was thought to be glad to have the opportunity to discuss them with Mr. Work.

Little indication was available here regarding Mr. Coolidge's views on the political aspects of Mr. Work's projected visit. The chief executive has led for the last week so secluded a life at Cedar Island lodge that no opportunity has been afforded to even his closest aides here to discuss the matter with him.

No information is therefore at hand to show what part Mr. Coolidge would be willing to take in the forthcoming campaign nor whether he would be ready to advise in the practical details of its management. The impression is well grounded, however, that Mr. Coolidge is enjoying hugely his present privacy and the absence of political turmoil about him.—Omaha Bee-News.

LINCOLN MAKES ITS BID

Asheville, N. C., June 22.—The Optimist international annual convention today went on record as favoring the enactment in every state of laws prohibiting the issuance of marriage licenses to persons unable to furnish medical certificates that they are free from social disease. But the convention later by a close vote and after an animated discussion rejected a resolution recommending the passage of state laws to provide for the sterilization of feeble minded persons and dangerous criminals.

The nominating committee whose recommendations are usually adopted presented the following candidates for next year's officers: Par president, Harlington Wood, of Springfield, Ill.; first vice president, Walter Pary, of Indianapolis, Ind.; second vice president, Paul Gibbons, Philadelphia; third vice president, Warren Bovard, Los Angeles, Calif.; and fifth vice president, Asbury Endicott of Tulsa, Okla.

Madison, Wis., Lincoln, Neb., and St. Louis are the possible contenders for the 1929 convention.

To Hold Convention Here

Commander George Bucknell, together with Acting Adjutant Col. F. L. Hall and Dr. McFadden, of the Greenwood post, American Legion, attended the first district convention of that organization, held at Nebraska City on Wednesday afternoon and evening, where they had a most enjoyable time. At the evening business session, when the matter of selecting the 1929 convention city was up for consideration, Commander Bucknell extended the invitation to make Greenwood the convention city in 1929 and was ably backed up by Mr. Hall. The invitation was accepted. Already plans are being made for their entertainment while here, including a probable barbecue. The local post was pledged support by both the Lincoln and Plattsmouth posts and there is no reason in the world why our boys should not be able to entertain the 1929 gathering in

regal style. On their return trip, they visited in Plattsmouth and there found the Legion working vigorously on its money-making enterprises to pay off indebtedness on its community building.

There was also discussed a Cass county Legion picnic, to be held on Sunday in July, in which all Legion members and their families are to participate. The Nehawka, Louisville, Greenwood and Plattsmouth posts are all backing the project, and the Elmwood post is expected to do likewise as soon as it is put up to them for a decision.

Attend Convention

Some nine delegates from the Epworth League of the Methodist church of Greenwood attended the convention which was held in Milford extending over last Sunday. The delegation was composed of the following enthusiastic workers in the church: Rev. W. T. Shephardson, the pastor, Mueal Wells, Walter Pailing, Jr., Phillip Buskirk, Margaret Erickson, Thelma Leeseley, Ilof Miller and Dorothy Bell. They report a most enjoyable as well as worth while time while there.

Makes an Excellent Address

Attorney A. L. Tidd, who, by the way, is a most careful student of the Bible, spoke at the Methodist church, while the Rev. W. T. Shephard was away attending the Epworth League convention, and made an address that was well received and was one which led the hearers to think more seriously of the Bible and its messages to the world. Mr. Tidd has practiced law in Plattsmouth for many years and has been a teacher in the Bible schools there and a very close student and is well qualified for the position which he was filling last Sunday.

A Paper for Home Folks

Your home town is the most important place on earth. No matter where you go, you are always interested in being shown a copy of the old home paper—with its news of the activities of your friends. The Journal is just that sort of a paper for Cass county people. It maintains individual news departments for six or seven smaller towns that are without a paper of their own. In addition, it publishes all the important news of the county seat, doings at the court house, official proceedings of the county commissioners, etc. It is your paper—the one you'd call for if marooned on a far-away island and could be given your choice, but only one. We want all the homes in which the Journal does not circulate to realize that no better expenditure of \$2 could possibly be made than in paying for a year's subscription.
