## World Series Opens Wednesday, October 3

**First Game Will Be Held at the Park of the Team Winning American League Pennant.**

New York, Aug. 13.—The world series of 1928 will begin on Wednesday, October 3, at the grounds of the club winning the American league championship, the Associated Press learned Sunday. The opening game automatically fell to the American league this year under the alternation plan formulated by the late Charles H. Ebbets, and the dates for the series were agreed upon last week by the officials concerned.

The schedule agreed upon calls for games in the American league park on Wednesday and Thursday, October 3 and 4, with a day to travel intervening before the battle is resumed in John Haydler's sector "if a western club wins the National league pennant." If two eastern teams play for the championship, the series will begin on October 3 and continue without a break until one team has won the requisite four games.

The breaks of the schedule under the Ebbets plan this year are such that the Athletics, the only pennant possibility unable to play Sunday games at home, would not draw a sabbath date in any of the several charts likely to be ordered. Commissioner Landis is empowered under the Ebbets plan to alter the schedule to permit a Sunday game which otherwise be lost through a lay-over in a non-holiday city.

One regulation in the Ebbets plan seldom pointed out is that which provides for the same schedule arrangements even with two teams from the same city playing in the series.

While only the Yankees and the Athletics were concerned in the American league consideration of the coming series, it is understood that five National league clubs joined in the discussion.—Omaha Bee-News.

# Two kinds... of motor fuel

YOUR motor determines the fuel to use. If it is a standard compression motor, and free from carbon, you will find **balanced Red Crown Gasoline** mighty fine fuel—quick starting, strong on acceleration, plenty of power, with big mileage per gallon.

★ ★ ★

But if you've got one of the new high compression motors, or if your motor has become a high compression motor because of carbon accumulations, you should use **RED CROWN ETHYL GASOLINE.**

This new high compression fuel is always reliable Red Crown Gasoline combined with Ethyl Brand of Anti-Knock Compound. It eliminates gas knocks and loss of power, when compression is high, makes every motor run more smoothly, gives every motor a higher power range. Prove it in your truck, tractor or passenger car. Costs more by the gallon but less per mile.

For economy and satisfactory operation buy gasoline and oil where you see the Red Crown Sign—the sign of quality products and prompt, courteous, interested service.

## Stratton Won't Meet Smith in His Church

**Will Not Debate on Sunday or in Baptist Edifice—No Place Is Suggested.**

New York, Aug. 12.—Rev. John Roach Stratton, pastor of Calvary Baptist church, in a message read by his son, Hilary, from his father's pulpit tonight, refused to meet Gov. Alfred E. Smith in debate in that edifice.

The younger Stratton conducted the evening service in the absence of his father, who is at his summer home at Greenwood Lake, N. Y.

"I stand ready to meet the governor any time, except the Lord's day and in any suitable place," Dr. Stratton wrote, "and I sincerely hope that he may be led to take my acceptance of his challenge at its face value."

Dr. Stratton said his remark that "he would meet the governor face to face" in Calvary Baptist church to repeat his charges that Governor Smith is "the deadliest foe of moral progress in the country" was in the nature of a joke, as he knew the trustees of the congregation would have the last say about using the church for "a purely political discussion."

Dr. Stratton added that the story of his agreement to meet Governor Smith in his church was published in New York erroneously, and as the result of a misunderstanding because of poor telephone connection when he dictated a statement to the newspapers.

In the statement read by his son, Dr. Stratton did not offer a specific place for the proposed debate.

The pulpit of Calvary Baptist church was used as the rostrum for a debate between Dr. Stratton and William A. Brady, theatrical magnate, when the minister opposed him in a debate on the theater.—World-Herald.

Thousands of tourists again stood in the warm sunshine to see the Coolidges as they entered and left.
