that "only 100" remain.

names.

Because of the complete Firestone victory over rubber restriction, Firestone has been able to reduce prices to us. We immediately pass them on to you.

Our startling reductions apply on every size of the four world-famous Firestone-built Tires, shown here.

The Firestone Gum-Dipped Tire is The Tire Supreme-holding all records for speed, safety and endurance. The world's first practical low-pressure

tire was the Full-Size Gum-Dipped Balloon. No manufacturer has been able to duplicate this tire in comfort or in the amazing mileage records it established.

The well-known Oldfield Tire is priced lower than any other standard tire. For over four years it was sold by the Oldfield Tire Company at prices higher than were asked for other standard brands. Firestone economy of production and distribution enables us to sell this tire at most attractive prices.

In the medium-priced field, the Courier Tire and Tube are unequalled-oversize, rugged-with rut-protected sidewallsat prices far below many unknown, untried brands.

The Airway is offered to the owners of light cars at a price that cannot be duplicated anywhere.
