Village of Murdock achieved at the county fair was the carrying away of the grand championship premium for driving steel posts, the contest being won by J. Johanson. He can drive them mighty fast and no getting around the fact either.

Naomi Ruth Rikli, baby daughter of Mr. and Mrs. Leo Rikli, was able to win the grand championship prize at the county fair, among the large number of babies entered in the contest. She is surely a very pretty little lady, as well as being about perfect in health and physical condition.

Murdock played their last baseball game last week, it being with Louisville, in which the latter was the victor by a score of 12 to 7. Football will be the game in the coming days and weeks. Sells Excellent Herd

John Gustin, who has during the past few years collected a herd of dairy cows scarcely equalled and never excelled, of the famed Holstein type, and which he was justly well satisfied with, accepted a very flattering offer and disposed of them to a man residing at Benson. Getting the World Series

Emil Kuehn and Max Walker, the barbers, are showing much enterprise in the furnishing of their patrons and the public generally with the latest play-by-play reports of the ball games, which are being played between the Yanks and the Cardinals, to determine which is the best team in the world when it comes to play-

ing ball as it should be played. And of course large crowds gather at their place each afternoon to hear the broadcast.

Will Have Plenty to Do

Robert Stock has rented the Gus Heinke 80 acres. He has just finished seeding 100 acres to fall wheat. This gives Robert three eighties to farm, but as he is a hustler, he can well farm it alone.

Smith Would Keep Law, Robinson Declares

Enforcement by Governor Would Surpass That of Hoover's, Nominee Asserts

Muskogee, Okl., Oct. 3.—A comparison of utterances by the two presidential candidates on prohibition was undertaken tonight by Senator Robinson, who took the position that the "public may reasonably anticipate more just and uniform enforcement" under Governor Smith than Herbert Hoover.

The democratic vice presidential nominee, in a speech prepared for delivery here, after an exhaustive review of the question said that he "felt justified" in drawing such a conclusion.

Quoting what both party platforms had to say on the subject, the senator in his prepared manuscript argued it became apparent that "no material distinction can be made between the declarations" on the subject.

"Neither party declares for or against modification," he said. "Both parties promise honest efforts to enforce it."

"With respect to the personal views of the candidates," he went on, "both Senator Curtis and I are dry. No-body knows how dry we are. The democratic nominee for president, Governor Smith, advocated modification in the following particulars: He thinks that liberalization of the alcoholic content, permissible by state law so long as it does not exceed the amount which actually constitutes a beverage intoxicating, will tend to promote respect and obedience to the law."

Mr. Hoover has not made his position clear on this phase of the subject, but it is recalled that during the war he advocated a 2.75 per cent beer. There is nothing to show that he has changed the position occupied then.

While Mr. Hoover has had ample opportunity, he has not yet made clear whether he favors changes in the eighteenth amendment. The only statement in his acceptance speech is directed against such modification as would be nullification of the eighteenth amendment. The language used in that connection certainly does not imply his position to modifying it in the constitutional way."

SEES A FARM PEASANTRY

Omaha, Oct. 5.—A Nebraska peasantry, eking an existence from bounty of farm loan companies which are gobbling up the land formerly owned by individual farmers, was visualized by Richard L. Metcalfe, democratic candidate for United States senator, at the "Metcalfe day" celebration here last night.

"In one county in Nebraska," Metcalfe said, "there were twenty-four foreclosures between 1916 and 1920, seventy-seven foreclosures between 1920 and 1926 and 131 foreclosures between 1926 and 1928."

"Most of this land has been taken over by large farm loan companies who own so much of it that it takes an army of employes to properly care for it."

"There are individual companies in Nebraska now owning 150 quarter sections of land, all taken in by foreclosure or forced deed."

New Covering for School

The Board of Education, looking to the welfare of the schools and to the property of the district, have recently had placed on the school building a new roof, as the one which has served heretofore has been giving very poor service, especially during the past month or two. It is considered best to have the work done now and the building placed in good condition, than to allow damage to occur. The building should now be well protected from the rains.

Jugoslav Idea Flourished in 16th Century

Twice in Early 19th Century Serbia Gained Freedom From Turkish Yoke

Belgrade—In conversation with a representative of The Christian Science Monitor recently, one of those who worked for many years to further the unity of the Serbs, Croats and Slovenes discussed some interesting points in this connection.

"The idea of Jugoslavia," he said, "originated as far back as the sixteenth century, but at that time it was only expressed in the literature which flourished chiefly at Dubrovnik. In the seventeenth and eighteenth centuries the work was carried on by Serbian, Croatian and Slovenian writers, but in the beginning of the nineteenth century the idea took on a more practical character. In two risings (in 1804 under Karadjordje, and in 1815 under Prince Milosh) Serbia freed itself from Turkey and set up its own state. In the 1860's the Serbs and Croats fought together against the Hungarians. Prince Michael Obrenovich, with the Croation Bishop Strossmayer, then drew up a complete plan of Jugoslav unity, while even before that time the Croation politician, Ljudevit Gaj and the Slovenian, Ljudevit Stur, carried on propaganda to further this cause.

"After the Berlin Congress in 1878, however, stagnation set in. King Milan became Austrophil and the Jugoslav idea sank into oblivion for a time. This lasted until 1903, when King Peter Karadjordje ascended the Serbian throne. The Jugoslav idea then advanced rapidly. The resistance of Serbia to Austria-Hungary at the time of the annexation of Bosnia and Herzegovina (1908) and during the Balkan Wars (1912-1913) greatly enhanced the prestige of Serbia and she became the Piedmont of Jugoslavia.

"In 1924 the Great War broke out and in the same year the Serbian National Assembly or Parliament of Bosnia and Herzegovina (1908) and during the Balkan Wars (1912-1913) greatly enhanced the prestige of Serbia and she became the Piedmont of Jugoslavia.
