Henry Greer has completed the picking of his corn and reports some as excellent and at other places as not quite so good, but while not as much as last year he is pleased that it is all in the crib and the hard work over.

W. S. Allen was making a sacking machine for the sacking of grain at the Peters elevator last week, as Mr. Peters has sold for delivery in sacks some two car loads of shelled corn which is to be shipped to a point in Wyoming for the feeding of sheep. The corn is fed in the sack, the top being opened and they allowed to eat the corn out of the sack, thus caring for the corn to the last.

Arkansas to Elect a Woman to Congress

Mrs. Oldfield to Have No Opposition for Husband's Seat—Reflects Trend

Washington—Women are steadily increasing their strength in Congress. The latest step in this trend is the agreement reached in Arkansas that no man oppose Mrs. Fannie Pearl Oldfield, who will be chosen at a special election to fill out the unexpired term of her husband. William A. Oldfield, Democratic whip.

On the other hand, it is understood that Mrs. Oldfield will be satisfied with serving one session in Congress and will not be a candidate for the full term. Virtually the entire district is in favor of bestowing the honor on her, it was announced.

Two of the women new serving in the House of Representatives came into office to fill out the unexpired terms of their husbands and were subsequently reelected for full terms. Mrs. Florence P. Kahn, widow of Julius Kahn of California, and Mrs. Edith Nourse Rogers, widow of John Jacob Rogers of Massachusetts.

Mrs. Langley is the wife of a former Representative, John Langley of Kentucky, she having been elected to fill his place when he was imprisoned in the Atlanta federal prison for conspiracy to violate the prohibition law.

The three women recently elected as members of the Seventy-first Congress all are coming to Washington on their own records: Mrs. Ruth Hanna McCormick of Illinois, and Mrs. Ruth Bryan Owen of Florida, both with strong family political associations, and Mrs. Ruth Pratt of New York, who has served as an alderman in New York City and gained her political experience in that way.

FILLING STATION BURNS

From Saturday's Daily—

Yesterday afternoon shortly after 5 o'clock the Walnut Grove filling station, one of the most attractive in this part of the state and located on the curve of the highway between Walnut Grove and Fort Crook, was destroyed by fire. The station is owned by George Rushart and has been enlarged several times since started three years ago by Mr. Rushart and has been a very profitable business.

The fire was one of great intensity and during the burning of the building that sheltered a part of the station, the flames spread to the oil tanks just at the rear of the station building and which blew up, scattering the burning oil over a large area.

Cars were stopped from traveling past the station during the fire owing to the danger from the explosion of the tanks as it was apparent in the intensity of the fire that the blaze would spread to the tanks despite all that could be done to check to fire.

Mr. Rushart announced that while the fire had wiped out the station that there would be a resumption of the usual activities by this evening at the station altho it will be some time before the building and pumps can be replaced.
