MORGAN AND YOUNG ACCEPT

New York, Jan. 18.—Sir Esme Howard, British ambassador to the United States, on his arrival in New York tonight said that the official invitation to become the unofficial American members of the committee of experts which is to study the German reparations problem had been extended to Owen Young and J. P. Morgan and accepted.

He said the official invitation had been given and accepted over the telephone from Washington this morning, and that although he had arranged for conferences with them individually tomorrow that was not the reason for this visit here. He said he came to put his two sons aboard the liner Majestic for England.

Sir Esme did not mention Thomas W. Lamont, Morgan partner, who had been mentioned as a possible alternate, beyond saying that he had been named as alternate and there was report that Mr. Lamont would be named as a second alternate.

Nebraska Sheep Men Will Have a Tip-Top Year

One-Fourth More Sheep on Feed Than a Year Ago Despite Smaller Feed Crops.

Nebraska has 848,000 sheep on feed, an increase of 23 per cent over a year ago. The Scottsbluff district has 270,000 head or nearly one-third of the state total. Nebraska is feeding 30 per cent of the total sheep being fed in the eleven corn belt states, and 18 per cent of the country's total, says A. E. Anderson, agriculture statistician. Nebraska estimates are based on the cuts received at country points and are absolutely reliable. The entire country has 5 1-2 per cent more sheep on feed this season.

This is Nebraska's banner sheep feeding year, despite the reduced corn and hay crops. Nebraska may well point with pride to the fact that she is not only feeding nearly 18 per cent of the total sheep on feed in the United States. But has 30 per cent of the total feeding sheep in the eleven corn belt states. Since the Scottsbluff, Neb., district has about one-third of the state's feeding sheep, this garden spot of the state is finishing nearly 10 per cent of the mutton supply in the corn belt states and nearly 6 per cent of the country's present supply on hand.

The revised estimate of the number on feed a year ago is 690,000 head of which 235,000 head were fed in the Scottsbluff district. The sheep driven out to Nebraska feeders from Omaha for the last six months of 1928 was 121,000 head against 76,000 head of the same period of the previous year. Market receipts will point to a clear \$40 acre improved farm for 15-20 acre tract.

Harry Read Freed at Creston Hearing

Directed Verdict Ordered for One of Shenandoah Bankers—Father Takes the Stand.

Creston, Ia., Jan. 21.—A directed verdict of acquittal for Harry Read, former cashier of the First National bank of Shenandoah, was ordered this afternoon in federal court.

Judge T. C. Munger dismissed requests for directed verdicts for Thomas H. Read, his father, and his brother, Elbert A. Read. Evidence defending them on the fraudulent banking charges was begun immediately.

T. H. Read took the stand as the first defense witness. In his testimony, slowed by many government objections to question by his attorney, he stated that he will be 88 years old on March 3, and had spent 52 years in Shenandoah.

He said he received duplicate Ann Arbor, Mich., two years before the bank closed, and gave one to each of his daughters. Later, he said, he asked them to return the checks because of financial difficulties of the bank. He said he did not learn that the checks were duplicated until after the bank closed.

High Court is to Pass Upon Pocket Vetoes

Indian Suit on Claims Exceeding \$2,000,000 Will Be Decided—Shoals Case Similar

Washington, D. C., Jan. 21.—The supreme court today consented to pass on the validity of "pocket" vetoes by the president.

Although the question reaches the court in a case brought by the Okanogan, Colville and other Indians in Washington state, it is considered of importance also in determining the status of Muscle Shoals legislation which President Coolidge failed to sign after congress adjourned its last session.

The Indians' case involves claims in excess of two million dollars. They sued in the court of claims on the theory that a bill which reached President Coolidge June 24, eight days before the end of the session, is now a law. President Coolidge neither signed nor vetoed the measure.

The court of claims held the act has not become a law.

The constitution provides that "if any bill shall not be returned by the president within 10 days (Sunday excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless congress by their adjournment prevents its return, in which case it shall not be a law."

The controversy centers on whether the end of a first session of a congress constitutes an adjournment in the meaning of the constitution.

The supreme court recessed today until February 18.—World-Herald.

ENTIRE VOTE PROTECTED

Washington, Jan. 21.—Detailed specifications alleging fraud in the Pennsylvania primary of 1928 was filed with the senate privileges and elections committee today by William B. Wilson who is contesting the senate seat to which William S. Vare was declared elected. The report protests the entire vote of Philadelphia and Pittsburgh and asks that the votes cast in those cities be rejected.

Thirty-nine specifications of fraud were listed by Wilson, who was the democratic candidate, in the case of the Philadelphia votes. They included charges that excessive expenditures were made for printing official ballots, that large number of "extra" ballots were illegally distributed at various polling places and that persons not properly authorized by law to receive them were given ballots.
