Road Conditions Offer Real Problem in the State

Soft Roads and Much Snow and Mud Leaves Highways a Real Proposition to Handle

The road maintaining force in all parts of Cass county have a real problem on their hands as the re-

"Didn't you see I had my hand out?"
"What of it? This ain't tag day, Brother."

No matter how careful YOU are in operating your car, in giving proper signals, in avoiding chances of accident, you cannot tell what the other fellow is going to do—you cannot take all the steps to prevent accidents.

That's why you should carry complete automobile insurance protection written by this agency of the Hartford Fire Insurance Company.

Searl S. Davis
Phone 9

sult of the opening up of the spring season and the melting of the snow that has laid over the ground since the first part of January and which now melting with the frost coming from the ground makes the road problem one difficult to handle.

East and west roads have apparently suffered the most from the effects of the snow and ice forming which now melting have made a number of bad places that are requiring the efforts of the road workers to lay and get in shape. On the highways there are several bad places on the King of Trails highway from north to south, one of the worst of which is north of Union and where detour has been necessary while soft places are found all along the roadway and which are being handled as rapidly as possible to give the road the former good surface.

On the farm roads off the main highways the residents are engaged in harrowing and dragging the roads to get them in shape where they are not handicapped by the larger mud holes and a week or good weather should permit the greater part of these roads to be in very good shape and especially where heavy travel does not wear them down as rapidly.

The county commissioners as well as the precinct and district road workers are kept on the job to try and get the roads in shape and a few days work it is hoped will get all roads possible and gradually worked back in good shape for the late spring season and be ready to resist the rains that may soon be expected.

FOOTBALL AT UNIVERSITY

The call for spring football practice at the University of Nebraska has been issued and among the fifty who have responded and received their togs for the season under the guidance of Coach Bible are two Plattsmouth young men, Jerry Adam, one of the most promising freshmen of last year, and Ed Wescott, who is making his first appearance in the Uni togs for football. Both players were stars in their high school football days and should be heard from in the university before completing their schooling.

Plattsmouth Low in State for Indebtedness

Ranks Second in Having Lowest Per Capita of Indebtedness in the State—McCook Largest.

Of the twenty-one cities in Nebraska with a population, according to the 1920 federal census, of more than 3,000 inhabitants, McCook has the highest tax levy with 52.10 per \$1,000, of property valuation. Chadron is second with \$50.80 per \$1,000, and North Platte third with \$49.40, according to a compilation prepared in State Auditor Johnson's office by Bond Examiner Ralph C. Lawrence.

The school district levy is the largest element of the total tax in all these cities, with the exception of the school district of Scottsbluff, whose rate per \$1,000 is \$20.40, while the city levy is \$21.20. In a number of instances the school district tax exceeds the combined amount of the levies for all other purposes.

The state levy is uniform over the entire state, the 1928 impost being \$2.60 per \$1,000 valuation. The state levy is \$169 lower for 1928 than for 1927, due to a special levy being made in 1927 of \$1.50 mills to take care of a deficit in the state treasury.

Levies for special assessments which include district paving, gravel-

Omaha Man is Shot by Friend Near Here Sunday

Omaha Resident Claims to Have Been Accidentally Shot While Motoring South of This City.

From Tuesday's Daily—
A shooting affray that occurred in this community Sunday night but was not reported to the authorities or local surgeons, seems to have developed at Omaha, the dwelling place of the victim of the supposed accidental shooting.

The first learned of the affair was on Monday morning when friends brought W. T. Ross, 39, to the St. Joseph hospital at Omaha and it was found that he was suffering from the effect of gunshot wounds in his left shoulder and arm.

The story told by Ross is to the effect that he had gone motoring with a friend that he knows only by the name of "Joe" and they had spent the day in viewing the sights along the Platte and Missouri rivers in the vicinity of Plattsmouth and on south of this city. They had two shotguns in the car and before they started home late Sunday night they had stopped the car and gotten the guns out to unload them. While "Joe" was unloading his gun, so Ross states, it unexpectedly discharged, the full load striking Ross.

When the accident occurred Ross states the friend became excited and instead of stopping in Plattsmouth for assistance or going to any of the hospitals he had taken him on home. The wife after a vain endeavor to staunch the flow of blood called friends and the man was taken to the hospital. Ross claims that he was so shocked by the accident that he failed to realize just how badly he had been injured.

The Omaha police are looking for "Joe" to inquire further into the affair.

FARM BUREAU NOTES
Copy for this Department furnished by County Agent

Ten Cents Bonus On Hogs.
Tattooing hogs is not a hard thing to do. Lamp black and oil mixed half and half will mark the hogs if they are hit properly. A job worth doing should be well done.

The amount of bonus received in Cass county since the county has been accredited is probably \$20,000. Be sure you hit the hogs a good slap with your tattoo and have the instrument so it will hit on all points at the same time.

Early Plowing Best.
Most eastern farmers get their highest yields from early plowing. Tests at the Nebraska Experiment Station bear out this practice. Early plowing produced 12 per cent more grain than late plowing.

When weather and soil conditions prevented early plowing, disking the land first and then plowing it was found to be the next best practice. It increased the yield seven per cent over later plowing.

Tests show that there was an increase in yield of grain as the depth

New MacLean Film at Parmele is Fast Stepping

Action Plus, Features New Douglas MacLean Comedy-Drama at the Parmele Theatre.

Douglas MacLean steps out in a new production—and a very fast and actionable one at that—after a considerable absence from the screen. He was last seen in "Soft Cushions," a fantastic romance with a regular Arabian Nights setting, and now he steps out in something radically different in "The Carnation Kid," which has a dark plot, full of drama and thrills, located in the underground society of a big city. The picture is to be shown at the Parmele theatre on Sunday and Monday.

MacLean is one of the stars who has been counted on for standard entertainment for quite a number of years in the movies. His film career dates back to those successful light comedies, such as "Twenty-Three and a Half Hours' Leave," "Mary's Ankle" and others. A little later he went in for farce and light comedy, such as "The Hottentot," "Going Up," "Never Say Die" and a long string of catchy pictures.

More recently he appeared in "Let it Rain" and "Soft Cushions" for Paramount, and still under the Paramount banner will film two pictures this year, the first of which is "The Carnation Kid." The new picture goes more into the dramatic side than the comedy for it contains all the elements of a melodramatic story, with thrills, a little romance, and lots of fighting of one kind and another.

of plowing was increased from four to seven inches. Plowing deeper than seven inches is considered impractical, however, when the greater labor and cost is considered. Listing has proved more advantageous than surface planting in the western and central areas of the state. Results have shown little difference in the two in the eastern part of the state.

More Trips to Club Week.
The following are the other 4-H club members who have won trips to Club week—Warren and Willene Easter, \$10 and \$5, from the American Jersey Association; Clarice Burdell, \$10, Clarence Norris, \$5, and Margaret Heubner \$2.50—from the Gooch's Flour Co. for feeding Gooch's feed; Eugene Domingo, \$10—from Purina Co. for feeding Purina feed.

Big Hitches.
Big Team Hitches which O. O. Waggener of the Agriculture College extension service will demonstrate will be near Mynard, Neb. In three years experience in almost every county of the state, Mr. Waggener has never had an accident, nor does he know of a farmer who has ever had a runaway or any other trouble with a big team hitch.

The demonstration is not to be a wild horse breaking stunt. It will be, however, a real test of horsemanship. Very few farmers have even eight horses that are well broken with good dispositions. There will be some stubborn ones, some ornery ones, possibly a balky or lazy one, and generally a wild one or two in every string.

The big team hitch with its tie-in and buck-back system makes it impossible for any horse to do anything else but work. Within a few minutes after the first move is made all the horses will be working away like the best two horse team.

In Mr. Waggener's outfit which he hauls in a small truck will be hitches for teams of from three to fourteen horses. Farmers who attend the meeting can look over all these sets of harness and doubletrees and copy any of them at home. Time will not permit the demonstration of them all and if someone wants a particular hitch, he should speak up early in the meeting.

Call either Ruel Sack of Mynard or the Farm Bureau office at Wescotting Water for the exact location of

JOSEPH FETZER VERY POORLY

From Tuesday's Daily—
Joseph Fetzer, one of the long time business men of this community, is quite ill at his home here, suffering from the effects of a general breakdown and illness that has covered the past few years and in which time Mr. Fetzer has gradually been falling in health. This highly esteemed gentleman retired from active business life a year ago when his interest in the Fetzer Shoe Co., was disposed of to Henry F. Goos, and the store has continued under the name that it has carried since foundation many years ago by Mr. Fetzer.

Come in Tomorrow

and Let Us Show You that

Easter Suit

The new Hart Schaffner & Marx models for Spring, 1929, are now on our racks and they are exceptionally attractive. The new notes in color are Scot greys, Picwick blues and Malacca tans. For model, the 2-button peaked lapel is a favorite. If you like, we can give you D. B. or Tattersall vest and pleat front trousers. All the latest quirks of style are shown here. Also every size from 32 to 50.
