The east end of the bridge is to be just one and a half mile from the north and south highway passing along the Iowa bluffs east of here. "We still chew our own food"

"WE sweep the floor, run the separator, churn the milk, wash the clothes, light the house and buildin's, run the grinder, pump the water and milk the cows with Delco-Light. We still chew our own food for the love of exercise, but there ain't much else we can do better'n Delco-Light."

"That ain't laziness or extravagance either. It's just plain horse sense. We save the price of two hired hands, get more milk and eggs, don't spend money anymore for Ma's back and my lumbago and git solid comfort to boot."

The Delco-Light user who said all those things put the facts plain and easy. And we can show you in black and white just what that farmer and lots like him actually do save by usin' Delco-Light.

BREAD WAR CONTINUES

From Wednesday's Daily—
This morning the warfare between the city and the bread trucks operating out of Omaha continued over the mooted question of whether the baking companies would pay the occupation tax demanded by the city.

As the trucks arrived to make their usual deliveries Chief of Police Libershal, acting on the orders of the city council again appeared on the scene with a distress warrant and proceeded to place the drivers officially under arrest.

The baking companies in anticipation of the action of the second arrest had the bonds arranged. Judges

Graves raising the ante to \$200 instead of \$100 as on Tuesday, and the drivers tax or bring the matter were allowed to continue on their way and make the deliveries as usual.

Under the orders of the council the chief of police will continue the arrests until other steps are taken to settle the tax or bring the matter to some court action when a definite showdown can be had on the matter.
