Ray Smith; Weeping Water; vice-president, Jesse Livingston; Weeping Water; and secretary, Lucille Christensen, Alvo. The next meeting will be at the Eagle school Monday evening July 15. All club leaders should plan to attend this meeting for club activities of special interest to leaders will be discussed.

Get the Binder Ready Now.

Repetition of what has been printed before in other years regarding rusty and worn parts on the grain binder may help avoid delay when the farmers are feverish to get their grain in shock.

Squirting kerosene over the rusty parts a few days before the machine is to be used will help loosen up the parts. All the kerosene should be wiped off and the parts well oiled before starting the machine. The "Tin Binder I's" below will help in adjusting the machine.

1. If the machine travels with a jerky motion, the main drive is too loose or it may be dry. Try a little oil on it.

2. If the slats rip off the canvass, the elevators are not square.

3. If the knotted hook is rusty and rough, it will not work properly. Polish it with a fine emory paper.

4. If the binder attachment is not timed properly, it certainly will not work. Some binders are timed in as many as five places.

5. If the knotted hook does not turn far enough to close the fingers on the twine, no knot will be tied. Look at the knotted pinion. If it is worn, replace it with a new one.

6. If the twine slips thru the cord holder, the twine will be pulled out before the knot is tied. Adjust the cord holder spring. It should take 40 pounds to pull the twine from the disk.

7. If the disk does not move far enough, the knotted hook grasps only one cord, hence a loose end band.

8. If the needle is bent or out of shape, there will be a loose end band. The needle is malleable iron and may be hammered back to shape.

9. If the twine is pulled from the hook before the knot is tied, try the knife, it may be dull.

10. If you wish the size of the bundles do it with the bundle sizer spring.—L. R. Snipes, County Extension Agent. J. H. Baldwin, Asst. County Extension Agent

Stresemann Slaps U. S. in Bitter Talk

Refers to European Nations as 'Colonies' Stirs Tempest Among Berlin Americans.

Berlin, June 24.—"We are neither an English nor a French colony, but to me it seems doubtful whether all Europe is not in danger of becoming a colony of those who were luckier than we."
"That, at Paris, the colonies got together to relieve one another's situation by mutual concessions—because there certainly were no concessions forthcoming from the other side—is a fact which cannot be removed from the history of the Paris negotiations."
Voicing a sentiment which no European statesman has hitherto openly and publicly dared to do, Dr. Gustave Stresemann, German foreign minister, speaking in the reichstag Monday, astounded everyone by his brief but unmistakably bitter reference to the United States.

Doesn't Name U. S.

He did not name the United States, but he did not mention to mention the name, since his implication in "those words" was clear. Especially astounding was his designation of the powers that met at Paris to frame the Young plan as "colonies."

His words apparently crystallize the German government's apology to the German people for the reparations settlement, which Nationalists and prominent industrialists characterize as "unbearable, and certain as unworkable as the Dawes plan."
The Nationalists have been attacking the Young plan on the ground it makes Germany a colony of England and France. Dr. Stresemann reports the United States is to blame for the situation, and that there is danger of Europe's being placed at the mercy of America.

Creates Sensation.

The German foreign minister's words created a sensation in the important American circles in Berlin. An important American business man, whose name I cannot disclose, said Monday night:

"Such talk, which one hears all over Europe and especially in circles of the extremists, is unfortunate. It gives credence to European reports that the nations of Europe will eventually have to form a league of debtor nations against the United States."

"Certainly such talk is unfortunate when voiced publicly by a responsible statesman. Does anyone in Europe or Germany believe such statements are likely to help the flotation of the reparations bonds in the United States?"

"The American people are not going to throw money away in Europe if they feel that Europe considers itself being enslaved by America, and therefore whatever comes from America today is literally bondage to be overthrown and dishonored tomorrow."

"There is nothing to be gained by attributing the position of America to duck. If European nations had known how to conduct their affairs without resorting to the cruelties of history, they would not be 'out of luck' now, and Dr. Stresemann and President Von Hindenburg would not have to issue a manifesto protesting against the sole war guilt."

HAWKS REACHES ST. LOUIS

MORE MONEY TO BE GIVEN G. I. COLLEGE

This offer has two limitations. It obtains for only three years, and the board will give only \$20,000 a year, or a total of \$60,000 for the 3-year period.
