### Tried the New Road.

The writer came along the west road from Weeping Water and as no detour signs was in appearance came down almost to Nehawka before he found out that there was a steam shovel in the way and went back. He likewise tried the new bridge as there was a well beaten track across it, and when he had gotten over the bridge found that the road went up a tree and then jumped off. He assayed to turn around and go back but got the rear wheels of his boat to the axle in the soft dirt and accepted the kind offer of a scraper team to get out again. After he concluded that the old paths were the best.

# Wants Everybody to Know About It

"I never see a sick, run down woman but what I feel like walking up to her and asking her to take the Sargon treatment."

"About a year ago my stomach commenced to give me trouble. At first I thought it was only a mild case of indigestion but the medicine I took didn't help me and I went from bad to worse. I knew my liver was out of order for I was constipated and bilious all the time. My nerves were upset, I couldn't half sleep and many a night I lay awake and counted the hours as the clock struck, just tossing from one side of the bed to the other. "Sargon took right hold of my case and rid me of every sign of stomach trouble. I have a splendid appetite now and everything agrees with me. I go to sleep now almost as soon as the light is turned out and only the sun coming in my window the next morning wakes me up. "Every one should know of these wonderful new medicines. I can't recommend them too highly."

years, he was born at Pitzberg, Pa., August 19th, 1844 and will be eighty-five years of age this fall. He was united in marriage with Miss Mary Rose, July 23rd, 1871, 58 years ago. But one son blessed the union of this excellent couple, John Frizel, who makes his home in Weeping Water and is engaged in the trucking business. When the Civil war broke out and a call for soldiers to maintain the union, W. H. Frizel then a young man answered the call and became a member of Company K, the 62nd Pennsylvania Volunteers infantry and fought many a severe battle under General Meade. His general was General Samuel Black who was governor of Nebraska in 1859, but who had following his term of Governor of the then young territory, went east and was asked to defend the country which he loved so well.

### Sells Many Cars.

The Cole Motor Company during the past week disposed of some nine new cars and seven used ones, which looks like doing a very fine business. Of these Bert Jamison sold one new car each day all last week and also besides this disposed of two used ones, which makes a good record for Bert notwithstanding the fact that he has the name of being a hustler, which he sure has amply proved.

### Will Visit In East.

Mrs. Crede Johnson, the genial clerk and bookkeeper of the Cole Motor Co., as well as the deputy president of the State Assembly of the Daughters of Rebekah, will on tomorrow, Friday, depart from Omaha for the east where she will visit for some two months with her brother, Mr. Charles Baker, and family, and where on the shores of Lake Erie she will enjoy the cooling breezes from that body of water and also a very fine visit with her brother.

able to set honey on the table for the family to eat. He and the good wife have raised a family of children all now grown, and found that there never was a time when they were in need of something to go on the table and also with plenty of clothing and fuel to keep them warm. Then why should he not say that Nebraska and Weeping Water has been a good place to live.

This is the testimony of many who have made their home here for years that this country has always provided a good living for all who care to work. Mr. Jamison says he lives in Weeping Water because he likes this as a home and not for spite.

### District Farm Bureau Picnic.

The Nebraska Farm Bureau Federation and the Agricultural College Extension Service, are sponsoring four district picnics in the state August 6, 7, 8, & 9, at Bridgeport, Kearney, Crete and West Point. Cass county comes in the district which holds their picnic at Crete, August 8th, at Tuxedo Park. Local people will make the shade, grass, and running water into an ideal picnic grounds to accommodate any number who attend.

Morning events include races and contests of all kinds followed by a short talk by E. A. Tyler on farm auto insurance.

Farm Bureau officers are requested to eat their picnic lunch in a group so that they can talk a little shop while they eat.

Geo. E. Farrell of the U. S. Department of Agriculture and Chester Gray of the American Farm Bureau Federation are the only two speakers at the afternoon program. Mr. Farrell is in charge of all Extension service work in the corn belt states. He will discuss new things coming into the farming business. Mr. Gray has represented farmers before Congressional committees for several years. He has watched the farm relief measure go thru, and knows a great deal about what is expected of the farm board. He is steeped in close touch with the tariff situation and can tell eastern Nebraska farmers of the unfavorable things in the tariff bill now being considered. County Extension Agents of eastern Nebraska and the officers of their farm bureau boards are acting as committees to get folks out for the picnic.

Folks from this county are asked to gather in a group on the picnic grounds and let others know Cass county is represented.

### Grain Ration for Milk Cows.

Corn, oats, and bran will be good enough as a grain feed for the milk cows when the pastures dry up and the flies get bad this summer and fall. Two parts corn, one part oats, and one part bran, by weight, mixed and fed at the rate of one pound of grain to five pounds of milk produced, will do a lot to keep up the milk flow during the next few weeks. Experiments at Ohio State University showed that adding linseed oil meal and gluten feed to the mixture mentioned above did increase the milk and butterfat production, but the extra feed cost more than the extra milk and butterfat was worth. Linseed oil meal is a good addition to the grain later in the fall and winter when the green grass is all gone.—L. R. Snipes, County Extension Agent, Jessie H. Baldwin, Assistant County Extension Agent.

# HOME GROWN POTATOES, 10 Lbs. 14c

Washed and free from dirt—medium and large sizes—no culls. 10 lbs. for 14c. This price good Friday and Saturday.

Look over your Omaha paper and see if anybody's beating this price. 10 lbs. for 14c—the equivalent of 21c peck, or 84c per bushel.

48-lb. sack Sunkist Flour for \$1.79—a \$2 value on the advancing market.

It will certainly pay you to buy Flour now. Every day's quotations from the mills are a little higher than the day before. We bought on an early market and offer it to you on the same basis. Of course—all old wheat flour.

Buy Butter—it's better and goes farther than Oleomargarine. Dairy Maid creamery butter in 1/4-lb. wrappings, 43c per lb. Friday and Saturday.

In the winter when Butter is high, many families turn to Oleo to hold down the high cost of living. It's excusable then, but now, when you can buy butter at a good price like this, the extra vitamins in pure, wholesome butter more than offset the difference in price.

Use Butter next week and notice the difference—and of course, we can supply you with Oleomargarine if you insist. We're here to serve you.
