The wedding of Mrs. Gertrude A. Armstrong and Clarence Ackles, two of Louisville's popular and prominent citizens, occurred in Omaha on Tuesday evening of last week, September 10th, but the news of the interesting event did not leak out until the following Monday.

The ceremony was performed by Judge Robert J. McNealy, of Louisville, this being his first marriage ceremony. The wedding took place at the home of Judge McNealy's aunt, Mrs. George Harkins, who acted as witness, also.

The groom owns and operates a dray and transfer line and is highly respected. He has a daughter, Betty, in high school, and a younger son, Buddy, by a former marriage. He owns a comfortable home and has a good business. Both the bride and groom are highly esteemed by a large circle of friends and they have the best wishes of the whole community for happiness and success.

Weeping Water Has Bread Truck War on Hand

P. F. Peterson Baking Co., of Omaha Seeks Injunction to Prevent Enforcing Ordinance.

The long standing battle between the smaller towns in and near Omaha with the baking companies of Omaha that operate delivery trucks, has spread to Weeping Water and the P. F. Peterson Co., of Omaha, is seeking to have the city of Weeping Water restrained from attempting to collect the tax that was recently levied under the provisions of ordinance No. 138 of the city of Weeping Water.

The petition states that the plaintiff company, the P. F. Peterson Baking Co., of Omaha, will resist the payment of the tax of \$5 per day, \$15 per week or \$50 per year, levied on the non-resident vendors of bread, etc. It is alleged that the ordinance is in violation of the constitution of the United States regarding the protection of the property of the citizen from being taken without the process of law.

This is the third case covering the ordinances of cities that the Omaha baking companies are now engaged in fighting, having one with the city of Fremont and which is pending in the supreme court, one with the city of Plattsmouth over a similar ordinance, which has been pending in the district court for over a year but for some reason has never been tried, and now the suit with Weeping Water.

GOODBYE PARTY

Friday evening while Mr. and Mrs. J. E. Jones were contemplating a farewell attendance at one of the local lodges, they were surprisingly detained by a company of neighbors and former teacher-associates who happened in to spend the evening before the departure of Mr. and Mrs. Jones for their new home.

Mrs. Jones came here as a teacher in the Junior high grades under Superintendent Pratt, being called to fill a vacancy occurring in mid-year 1919-1920. She proved an excellent teacher, especially fitted for that grade of pupils and it was with regret that teachers and many school patrons saw her retirement last spring.

Yesterday Mr. and Mrs. P. A. Hild and son, Verner, and Mrs. Alfred Gansemer of Murray came home from a very pleasant trip that they have enjoyed to Minneapolis and through the greater part of the state of Iowa. They took with them on the trip north, Mrs. William Puls, Sr., mother of Mrs. Hild and Mrs. Gansemer and who is making a visit for some time with her daughter, Mrs. E. J. Ringwood, formerly Miss Laura Puls of Murray. While at Minneapolis Mr. Hild enjoyed the pleasures of seeing the Minneapolis and St. Paul teams of the American Association play at the Minneapolis league park, but the projected double header was limited by rain to one game.

The party in going to Minneapolis drove by way of Spirit Lake, Iowa, and Mankato, Minnesota, while on the return they came by the way of Fairbault, Mason City, Des Moines and thence to Osceola and then on to Shenandoah, where they enjoyed a visit at the radio stations and came home via Nebraska City.

"A COLD HELL"

From Thursday's Daily— This was the general description given by officials and employees of the Cass county court house this morning as the temperature glided down to near the freezing point and the fact that the work on the heating plant which has been in progress for some time was still on, there could be no steam provided to heat the city government building.

Several of the officials showed their resourcefulness as they hiked out and secured material from which to construct fires in the fireplaces which decorated a number of the offices of the building and which partially overcame the damp and cold. Still others tried to get up sufficient heat by having electric heaters brought in to warm things up, but which was rather a feeble effort to provide sufficient heat.
