

Lincolns or Fords!

THERE is a place in town where you may purchase a Lincoln—or a Ford. There is a place in town where you may purchase a Knight—or a Whippet. You can buy coal for \$18 a ton—or \$8. All good cars and all good coal. We can sell you as good a suit for \$22.50 as you'll find any place in the U. S. A., but it will not do the work of a \$35 Kirschbaum or a \$50 Kuppenheimer.

We must carry different grades to suit different purses and requirements.

We can measure you just as quickly and as efficiently as any stranger—if you like your clothing made to measure. And we'll be on the job to make the bargain good, should any cause for complaint arise. You must be pleased—or it's our suit.

What the hell good will a bridge do us, if we ourselves can't buy in Plattsmouth?

INJURED IN TRACTOR ACCIDENT MONDAY

Glen Heneger, son of Mr. and Mrs. Gordon Heneger, was the helpless victim of a most unfortunate accident on Monday afternoon, while engaged in helping a group of about eight men sawing wood at the home of Loyal Fleming. The wood sawing took place in the timber a short distance from the farmhouse, and as the men had finished in one location, they were about to move to another spot. Glen's father, who was driving the tractor for the swing, asked Glen to attend to some little adjustment about the engine, which Glen attempted to do, thereby placing himself in the path of the rear wheel of the tractor and pinning Glen's foot underneath. His father became panicky and attempting to place the engine in reverse, caught both Glen's legs beneath the huge tractor wheels with the result that he suffered very severe cuts and lacerations which cut the flesh to the bone, requiring a number of stitches being taken to close the wounds. Fortunately no bones were broken, we understand the doctor reported.

The accident victim was rushed to his home and a doctor summoned. His wounds were closed and dressed and he was resting as easily as possible at his writing. Although his injuries were serious and very painful, no fears were entertained regarding his recovery. The tragic accident was a great shock to his father, and he was in a state of near collapse

You'll be out of date within a year without an EIGHT!

America wants to stay in high gear! The public knows that extra gear shifting and other engineering devices applied to a six-cylinder motor will not give the smoothness and flexibility of an Eight. The fine cars started it. Now we find the same sweeping trend among cars of more moderate cost. In eight key states for the first six months of 1929, new car registrations above \$1000 showed a 90 per cent increase in Eights, while sixes above \$1000 showed a decrease of 16 per cent. Studebaker today leads the world in the manufacture of Eights

—Eights that hold 11 world records for speed and endurance and more American stock car records than all other makes combined—Eights which are remarkably economical—smooth, flexible, brilliant. Before investing in your new car, drive a smart new Studebaker Eight—President, Commander or Dictator. Measure it point for point and feature for feature against the best six that you know. Then remember—your new car will be worth more a year from now—if it's an Eight!—for Eights will then be at a premium in a used car market glutted with sixes.
