Murray Garage

George Nickles and wife and Mrs. Long visited Morton's Park at Nebraska City Sunday.

Lee Nickles of Plattsmouth was looking after some business matters in Murray for a time on last Saturday.

Charles Barrows, the proprietor of the Rock Creek service station says business is good, thank you. Call O. A. Davis sold his corn last Monday when the rain came and was delivering it during the early portion of this week.

Nelson Berger of near Nehawka was a visitor in Murray and was looking after some business matters for a time on last Saturday.

The Lewiston band is making arrangements to get suits as they have been asked to play at the County Fair and Old Settlers picnic.

The Happy Hunters Pig club picnicked at the State Fisheries a week ago Sunday. Earl Wolf and John Hobaek chaperoned the crowd.

Little Jane Swan, daughter of Mr. and Mrs. Paul Swan, living on the highway south of Murray, is reported as being quite ill for the past few days.

Wayne Jacks of Plattsmouth who has been with A. D. Crunk for some time past completed his work on last Monday and returned to his home in Plattsmouth.

W. H. Halth of near Weeping Water was a visitor in Murray for a short time on last Monday and was looking after some business matters for the time.

Mr. and Mrs. Spiers and Milton Stafford of Shenandoah, Iowa, were Sunday visitors at the D. A. Young home. Mr. Stafford and Mr. Young are brother-in-laws.

Robert, the young son of Mr. and Mrs. David Kendall living southeast of Murray is reported as being quite ill for the past week but is now some better and is improving.

Willie Queen of Deepwater, Mo., and a brother of Mrs. Font T. Wilson and Mrs. A. D. Crunk, arrived late last week and is visiting for a time with the relatives here.

Alex Bissart and family of Omaha, uncle and aunt of Gusbe Brubacher, were visitors at the Brubacher home in Murray on last Sunday where all enjoyed the day splendidly.

Dr. J. E. Brendel was a visitor in Union on last Sunday, called there on professional business and reported a fine baby girl at the home of Lennie Meade and the good wife.

The rain, after the prolonged dry and heated season which came to Murray was placed at ninety hundredths of an inch and most gladly received by the farming community and the city as well.

L. J. Hallas reports his father as making some progress towards recovery but not as rapidly as is desired but all the improvement which he is making is thought to be a permanent character.

ROCK CREEK Service Station

Team Work

One cannot do it all. All can get behind a proposition for the success of a community and it goes. Make Murray the best town in eastern Nebraska. We are here to help. Carry an account with your home bank. It will help you in all your business transactions. And just "keep boosting" for Murray.

The Murray State Bank

Murray, Nebraska "There is No Substitute for Safety"

Painting and Paperhanging

NO job too large, nor too small. Let us figure on your needs in Painting, Paper Hanging and Decorating.

JOHN FRANS Murray, Nebr.

Dr. J. F. Brendel reports a very fine young man appearing at the home of Mr. and Mrs. Eldon Hull, and that the mother and young man are getting along nicely and all are happy over the event.

Mrs. Charles Barrows has been visiting for the past few days at the home of her parents at Hubbard, which gave Charles an opportunity to know what it is to batch and do ones own cooking.

Mrs. Moore and Mrs. McDonald have been having a fine time visiting with their 3 sisters, who came from different states. They and relatives picnicked at one of the parks in Omaha a week ago Sunday.

The Murray Hotel which is receiving a good refinishing and is looking fine is also enjoying a very fine run of business which keeps the help humming they having a number of the gas line men as patrons.

Both the elevators in Murray were kept working over time on last Tuesday to care for the offerings of corn. The farmers elevator was kept hustling with P. A. Hill assisting, they receiving corn from six shellers.

Mrs. M. L. Craig of Olathe, Kans., was visiting at the homes of Mrs. Oldham and Mrs. A. Young last week. Mrs. Craig is a niece of Mrs. Oldham.

Mrs. Craig was on her way to Alberta, Kans., to visit her uncle, Dick Oldham.

Albert Young has quite an acreage of potatoes and has been digging and selling them. They are the Irish Cobblers and made a big yield. He so far has found a ready sale as the hot weather has hady effected the later plantings.

George W. Rhoden was a visitor for over Sunday at Plattsmouth where he was a visitor at home. The matter of having to work in Murray and not being able to get a place to reside here makes it very inconvenient.

During the past week Green Piggot and W. L. Seybolt by hustling were able to make some six miles of good roads in this precinct. This is hustling but the boys sure can do that and do when ever the opportunity comes. They received the compliments of the mail carrier, who sure knows roads.

Dr. and Mrs. J. W. Brendel of Avoca were visiting in Murray for a short time on Monday of this week and while here they purchased a herd of some five sheep of Will L. Seybolt which they took to their home at Avoca. This does not signify that Dr. Billie will become a shepherd, but a sheep owner.

Julian Zech and family of near Walton, Mrs. Zech being sister of Mrs. Earl Lancaster, were visiting for the day on last Sunday at the Lancaster home and on their return to their home left their daughter, Miss Frances Zech, who will visit for some two weeks with her cousins, the Lancaster children.

In order to facilitate the expedition of business Vaclav Muchinsky has had installed in his blacksmith shop as a power place a five horse power single phase electric motor which he will use for power in doing the work which comes to his shop. He is enjoying a good run of work as he always cares for what comes in the very best manner.

A team from some Omaha college were in Murray and played with the Murray team on last Sunday with the result that the home team won over the visitors by a score of 15 to 6. John Campbell, Jr., was the umpire and proved to be a good one at that. The team have been looking for a good man for this position and have found one of Mr. Campbell.

Miss Beatrice Rawls who has been in Murray and making her home at the home of Mr. and Mrs. W. S. Smith and attending school here departed on last Sunday for her home at Beute, Montana, where her parents reside. She was accompanied to Lincoln by her grandparents, Mr. and Mrs. C. A. Rawls and also Mr. and

Mrs. Smith who went to see her department for her home.

With the coming of the rain which practically insured the crop of corn for this season many of the farmers sold their corn for delivery at an early date. The Wilson elevator is credited with the purchase of some 7,000 bushels of corn, while the Conkey Farmers elevator is said to have purchased some 33,000 bushels, thus making 40,000 bushels which has been purchased this week.

Red Short Horn Bull.

I have a good Red Short Horn Bull 14 months old, and a fine individual, for sale. Can deliver at once. Right for service.—Wm. Minford, Murray, Phone 1502. 117-4tmp

Undergoes Operation On Foot.

J. A. Scotten, the contractor and builder, who several years ago stepped on a nail which penetrated his foot and which in healing left a hardened place on the foot where the nail had pierced and which has been giving this gentleman much trouble of late. He went to the hospital at Omaha where he underwent an operation for the removal of the hardened place and which he is hoping will make the foot as good as new. He is now much inconvenienced until the wound made in the operation shall have healed and gotten well.

Visits Old Time Friend.

Thomas Nelson was pleased with a visit from his friend of fifty years, Frank J. Pierce, proprietor and editor of the Diller Record, who was over the Plattsmouth last week taking his brother to the Masonic Home who has been visiting with him at Diller. Messrs. Nelson and Pierce who had not met for some time, enjoyed the visit very much.

Enjoy Picnic Sunday.

Caught with the outdoor spirit the family of Benjamin Harrison Nelson prepared an excellent dinner and hitching the car up departed for the country they found a very fine place in the pasture park of Dan Horschler and there they rested and ate the fine dinner and rested under the shade trees until a rumble of thunder announced the long looked for rain and they had to scurry in hot haste for home. They were able to get home and enjoy the splendid rain afterwards.

Tom S. Svoboda for Sheriff.

Mr. Svoboda has been constable of Cass county for ten years and has made a good record in that office. This is the first time that he has ever run for office of any kind, and hopes that the people of Cass county will give him a chance. Mr. Svoboda is 43 years old and has lived in Cass county all his life. People of the county are proud of having an office that is not afraid to tackle any thing any where and see that the laws are enforced. If you feel that Mr. Svoboda has done his duty

give him a vote in August. Candidate for democratic nomination.

Making Fine Progress.

The Lewiston band is progressing fine under the able leadership of Prof. Smith. They meet each Monday at the Lewiston Community Center and the pupils of Mr. Smith at Murray come over and join in the practicing. Otto Schaffer believes in being one with his children as he and three of his children are in the band. Mr. Smith is at the Community Center all day Monday's and any one wishing instructions on any instrument can see him at that time.

Presbyterian Church Notes.

Sabbath school at 10 a. m. Morning worship at 11 a. m. Evening service at 7:30 p. m. (Young people's meeting). Wednesday evening prayer meeting at 7:30. You are cordially invited to worship with us.

J. C. STEWART, Pastor.

Crops Far from Ruin, Though the Drouth Hurts

Spring Wheat, Corn and Cotton Can Be Saved by Rain Coming Soon; Corn Loss Biggest.

Washington, July 22.—Farm crops were described today by department of agriculture economists as far from being ruined, although they have been damaged by the drouth that has spread from the Rockies to the Atlantic.

The drouth's chief danger now, they said, lay in the possibility of its continuing into the critical growing stage of three great staples—spring wheat, corn and cotton.

Spring wheat was believed to have been saved from serious deterioration by an inch of rain that fell in Canada and the American northwest just when the grain was beginning to head short and the kernels shrivel. The damage has not been entirely alleviated, and additional rains are needed.

Corn, probably facing the heaviest loss of all, is estimated by a semi-official source to have had 50 million bushels lopped off the prospective yield. Heat and drouth have been severe in the corn belt proper, the Ohio valley and the south Atlantic states. The drouth in Indiana has been the worst in 29 years.

Small Grain Suffers.

South of Springfield, Ill., corn is estimated to have been reduced 20 bushels an acre in yield.

In all small grain areas the crops have been damaged, particularly oats

in the middle west and grain sorghums in the southwest.

The heat, however, has brought benefits to offset in part the damages. Where it has not been so badly rolled up as in parts of Ohio, corn has grown well. Weeds have been kept down and the fields cultivated to a point favorable for a quick recovery when rain comes.

Moisture before corn tassels and silks would erase much of the potential danger. It does not come before that time, which is only a day or two to a few weeks away, the corn harvest will be of uncertain quality.

Except in southern Texas, where some cotton is shedding, dry weather evils have been counterbalanced by benefits to the south's great cash crop. In many sections cotton is fruiting and needs dry weather, and farmers generally have been able to decimate the boll weevil with dust that rainfall often makes ineffective.

Cotton Danger Less.

Cotton is not as near the critical stage as corn and spring wheat, and while it has been badly hurt in regions, economists say the crop will give a good accounting of itself with rain.

Winter wheat was harvested under ideal conditions for storage. Pastures generally have been cut short, causing many cattlemen to liquidate while stockers and feeders delayed retrenchment. Milk yields have been shorted, but Chicago supply cut almost to the danger line.

There has been fairly good hay crop. Potatoes have not been badly damaged in Idaho and northern Maine. Florida citrus fruits need rain, but are holding out well. There has been a good sub-soil moisture in the corn belt, but the crop threatens to go into the critical stage of maturity with its condition weakened.—World-Herald.

A JOB FOR A GENIUS

Government in business usually means inefficiency in business.

In a recent address, Edward N. Hurley brought out some interesting facts regarding the shipbuilding industry when controlled by the government during the war. He stated that, at the most conservative estimate, the industry was at least 25 per cent less efficient after the government became responsible for wages than before, and that at least half a billion dollars could have been saved by private management operating with the same men on the payroll.

"A genius who could invent some method of getting the profit motive into governmental operations, excluding graft, would be worth hundreds of millions a year," according to Mr. Hurley.

"As it is now, there is no adequate reward for an executive in government service who increases his efficiency and no adequate punishment for the one who lets it slip."

Employees or executives of a private business are responsible to directors and are indirect competition with other businesses, all seeking to cut costs and lead their field. The job of a government employee is not generally dependent upon outstanding ability, but upon politics. It is no wonder that the American people have time and again insisted that government restrict itself to governing and leave business where it belongs, in private hands.

Highlights on Ingagi at Parmele

Some of the Outstanding Features of the Wonder Film to Be Shown at Parmele Theatre.

Here are some of the real thrills in "Ingagi," the record of Sir Hubert Winstead's and Capt. Daniel Swayne's trip to Africa—recently completed and which will be presented at the Parmele theatre for three days starting Sunday:

The encounter with gorillas and the capture of specimens.

Finding of strange creatures ap-

parently half-ape, half-human, which may represent the fabled "missing link."

The colony of low-grade natives in heart of Gorilla country, who make a practice each year of giving a woman to the apes.

The capture of wild women.

The queer half breed child.

The trapping of leopards.

Weird ceremonies of natives.

Trapping monkeys.

Capture of 65-foot python.

Elephant charge and killing of elephant.

Leopards killed with spears.

Rhinoceros charges directly into camera.

Three lions cornered. Two killed; one mauled hunter who is seven months in hospital as result.

Falling of tree to bring down gorilla—largest ever taken alive.

These are only a few but are enough to prove that "Ingagi"—which means Gorilla in the tongue of Africa—is an exceptional picture of its kind. It is stranger, more dramatic, more compelling than any fictional drama ever offered.

Sound has been applied and the actual jungle is given a screen voice. The roars of animals at night and the cries of natives may be heard, together with the weird sounds of the tom-toms and the songs of the savages of Central Africa—the heart of the dark continent.

William J. Campbell, noted film expert was engaged by Congo Pictures, Ltd., to assemble and edit the picture in eight reels from thousands upon thousands of feet of exposed film. The result is a thriller from beginning to end and one that is most educational and instructive.

THE SPECTACULAR, SENSATIONAL REAL ADVENTURE FILM. MADE WITH UNTOLD DIFFICULTIES IN THE HEART OF EQUATORIAL AFRICA!

ROTARIANS HOLD MEETING

From Tuesday's Daily—

This noon at their luncheon the members of the Rotarian club had the opportunity of enjoying a fine musical program given by the young ladies of the city as well as a word picture of outing time in the Rockies presented by two of the members who have returned from their pleasure trip to the west.

Miss Margaret Shellenbarger was heard in one of her very delightful vocal solos that gave added enjoyment to the program and impressed all of the members of the club with the unusual talent that this lady possesses in her musical work.

Miss Joan Hayes, whose charm and skill as a vocalist has often pleased Plattsmouth audiences, was heard in a vocal solo that offered the greatest opportunity for this talented lady.

The girls quartet composed of Margaret Shellenbarger, Lucille Albert, Helen Schulz, and Winifred Rainey, gave one of their always entertaining numbers to add to the interest of the program.

Miss Marjorie Arn served as the accompanist for the various numbers by the young ladies.

In the stories of vacation days Robert Walling talked on "Vacationing in Wyoming," while Frank A. Clodt told of the glories of the Yellowstone Park where he and his family and Rotarian McClusky and family have been enjoying the past weeks.

AVIATOR HAS TROUBLE

From Tuesday's Daily—

Walter R. Johnson, of Omaha, who makes the law his daily vacation, and is representing the Standard Loan & Savings association, is at Fort Crook at this time, serving as a reserve officer in the aviation branch of the service, taking his special training that is required by the government.

This morning there was the sale of some property in which the loan and building association was interested, and Mr. Johnson thinking to save time took a plane and started winging his way via the air route to Plattsmouth from the Fort Crook field and reaching here in a very few moments, then finding that there was no place in the immediate vicinity that he could land without damaging somebody's crop and he was forced to return to the fort, secure an auto and come here just in time to participate in the land sale.

RECOVERING FROM INJURY

Roy, the six-year-old son of Mr. and Mrs. Emmett Rice, who was injured several days ago by receiving a severe kick on the right leg from a horse, is now showing much improvement and the lad is hoping to have the full use of his leg again in a very short time. The injury has been very painful and made it difficult for the lad to be around.
