School Children Allowed to Drive to School

New Law Will Be Help to Pupils of High School Residing in the Country Districts.

Under the provisions of the new state motor vehicle law that becomes in force on and after August 3rd of this year, the school children from fourteen to sixteen who reside at a distance of more than a mile and a half from the school, may secure a permit to drive a motor vehicle to take them to and from the school.

The permit which the new law gives is that the children drive over the nearest and most direct route from their home to the school and return and does not give them general driving privileges as is covered under the state drivers license law. It relieves a very complicated condition that was occasioned under the former law. There are a great many of the young people residing in the country districts that attend the higher grades or high schools in the various towns and those who were below the required sixteen years it made necessary the parents or older brothers and sisters driving in with them and return each day, taking much time from the work of the farms.

The applications for the permits for the young people from fourteen to sixteen to drive must be signed by the parent or guardian of the applicant. Another provision of the new law relates to truck registration and has been followed with a great deal of interest by the truck owners of the state.

Changes in registration effects only trucks, and every person wishing to transfer or make a new purchase before January 1 will be obliged to fill out an application stating whether he wants a commercial, local or farm truck license. Those who are operating trucks at the present time will be permitted to continue throughout the year on present basis of registration but must fill out application blank designating which form of license is desired for the coming year.

Persons applying for a local truck license will have to certify that the truck will be operated wholly and exclusively within the corporate limits of the city or village, or within three miles of said limits.

For a Commercial truck the applicant certifies that the truck will be operated wholly upon the highways

of Nebraska with a load not to exceed a certain weight. For a Farm license the applicant must certify that the truck will be used exclusively to carry supplies to the owner's farm or ranch or to carry his own products to storage or to market, or to be used by farmers or ranchers in exchange of service in such handling.

OBITUARY

Katherine Carolina Luetchens, nee Wittchoff, was born January 3rd, 1847, at Bisbingen, Hanover, Germany, and departed this temporal life near Wabash, Neb., on Saturday, July 25, 1931, at the ripe age of 84 years, 6 months and 22 days.

Early in youth, the deceased was confirmed in the Christian faith in the State Church of Germany. In the year 1878, she departed for America, settling near Wabash, Nebraska. During the same year on May 12, she was very happily wedded to Mr. John Luetchens who preceded her in death in 1909. This happy union was blessed with one son and two daughters, who survive the mother.

The departed was soundly converted to God and made a deep Christian and spiritual experience in the year 1878 under the labors of the sainted Rev. H. Althaus, joined the Emmanuel Evangelical church and remained a true, faithful and loyal member to the end.

Mrs. Luetchens was very faithful and regular in church attendance and was vitally interested in the expansion and upbuilding of God's kingdom. In 1929 she was the only Sunday school scholar in the Emmanuel Sunday school that had a perfect attendance during the year. Her disposition was very cheerful, and her presence was always an inspiration to her pastor and the congregation. For some days prior to her death, she was patiently waiting for the Master's call and longed to depart and be with Christ. On Saturday shortly after the noon meal, the angel quietly came and touched her soul to summon her to the transformed world where all pain and suffering have an end. Her end was peace.

She leaves to mourn her demise, one son, Herman F. Luetchens, two daughters, Mrs. August Oehlerking and Mrs. Carl Schlaphof, thirteen grandchildren and one great-grandchild.

Funeral services were conducted in the home of her eldest daughter, Mrs. August Oehlerking and at the Emmanuel Evangelical church on Monday afternoon in charge of her pastor, Rev. H. R. Knosp. A mixed quartette composed of Mr. Dan Pankoska, Miss Marie Schewpe, Miss Edna Luetchens and Mr. William Witt, sang, "Does Jesus Care," and "When

the Roll is Called Up Yonder," and "Saved by Grace." Five grandsons, Mr. John Schlaphof, Elmer Schlaphof, Walter Oehlerking, Herbert Oehlerking, Alvin Oehlerking and Donald Fredinberg acted as pallbearers. The remains were interred in the family lot in the Emmanuel Evangelical cemetery to await the resurrection morn.

"OLD SETTLER'S" IN AUGUST

The annual Old Settler's Reunion, which since 1889 has been held at Union, will be held this year on August 21st and 22nd, Friday and Saturday, as is the custom. The reunion will be held at the park near Union where for so many years the old time residents of the county have gathered to renew old times and visit with each other. Liberty precinct has had many of the early residents of the county located in that section and while the real pioneers of the late forties and early fifties are fast going from the scenes of their activity, there are descendants of the old time residents to participate in the reunion. The old time residents from all sections of the country will be present at the two gala days and to once more revive the stories of the incidents of the first settlements of the county and the struggles and privations that the peoples of the early day had in their great west. W. B. Banning is the president of the association this year and C. B. Smith, the secretary.

CHRISTIAN SCIENCE

The subject of the Lesson-Sermon read at all Christian Science churches and societies on Sunday, July 25, was "Truth." The object of the citations read is to turn the attention away from any attempt to identify God as a corporeal being, and to fix it on the unchangeable, ever-dependent qualities of divine Principle, whom the Bible refers to as Truth, which name is used interchangeably with several other synonyms for God. One of the selections read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p. 322), is as follows: "When understanding changes the standpoints of life and intelligence from a material to a spiritual basis, we shall gain the reality of Life, the control of Soul over sense, and we shall perceive Christianity, or Truth, in its divine Principle." One of the Biblical selections read is in part, "He is the Rock, his work is perfect: for all His ways are judgment: a God of truth and without iniquity, just and right is he." (Deuteronomy 32:4.)

There is no slack business period for the merchant who advertises his goods the year 'round.

William Ash a Veteran Threshing Operator

Has Record of Forty-seven Years in Operating Number of Machines in County.

Billie Ash, the veteran threshing machine man and corn sheller of near Manly Saturday completed the threshing at the home of Harry Doty, this after he had completed the run of the crew and district near and about Manly, being the first one to finish his quota of threshing in Cass county, while there were others pounding away after the work had all been done by Billie Ash. Incident to this is the long line of years which this gentleman has been engaged in this business. He first started as a thresher for the farmers of Cass county in 1884. Then he had a horse power and a long straw stacker, and when it required from four to six men on the straw pipe, a band cutter and a feeder after the bands were cut. After a few years the horse power was discarded and a steam engine invoked, and only a short time afterwards were the tumbling rods discarded and the long two hundred foot belt installed instead.

Then came the elevator to deposit the grain in the wagon instead of having to run it into a half with from two to three men to empty the grain into the wagon or more if it was to be sacked. Then a measuring attachment was invented and as the grain was threshed it was measured and a record kept. Mr. Ash has had many machines and at the best times in the threshing business he operated five different and distinct outfits. Then it took all fall and sometimes away into the winter to get the work done. Now three weeks is the longest and mostly not that long. The changes have varied, with the furnishing of coal by the farmer and later gasoline and oil for the tractors. When the power engines first came into use they were not used to draw the machines which had to be pulled by horses. Now the truck is supplying the horses for the hauling of grain to the bins and elevators. In the other days the old horse power in the morning sounded a clarion call for the beginning of the sheeling of the corn, now the power is a tractor and a gas engine.

DEATH OF HERMAN PANKONIN

Herman E. Pankonin, a distinguished and highly esteemed resident of Louisville for many years, was discovered dead at the family home in that city late Sunday evening, the death being quite sudden and being a great shock to the family and the entire community. While he had been seriously ill in the spring months from heart weakness, he was around as usual on Sunday and looking after small tasks around the home. He was missed by Mrs. Pankonin in the afternoon, but as he was accustomed to making trips around town and in the country on business, nothing was thought of the matter until toward evening, when alarmed, Mrs. Pankonin called her sons, C. J. and William Pankonin and a search was made for the father, he being found later in one of the buildings on the premises which was seldom used and where the wife had not thought of looking.

The deceased was born August 28, 1857 in Germany and came to America when he was fourteen years of age, locating at Kalamazoo, Michigan until he was thirty-one when he came to Nebraska and has lived in the Louisville community since that time. On January 17, 1884 he was married to Miss Mary Gaebler, a daughter of one of the pioneer families of Louisville. They have made their home since marriage in and near Louisville. Mr. Pankonin was very active in the community life, serving as mayor of Louisville at the time of the flood in 1923 which did thousands of dollars of damage. He has been a member of the school and town boards as well as serving as an officer of the Home State bank and the Farmers Elevator Co.

He is survived by the widow, two sons, C. J. and William Pankonin of Louisville and also a brother, William Pankonin. There are also eight grandchildren and a number of other relatives residing in and near Louisville.

HONOR OREGON VISITORS

On Sunday, July twenty-sixth a group of people gathered at the home of John Harter, three miles west of Louisville, in honor of Mr. Harter's brother, David Harter and family of Portland, Oregon.

Most of the time was spent in renewing old acquaintances as Mr. Harter and family had not been here for twelve years. Mr. Harter is now employed with the Argonne Fuel Co. in Portland. They arrived last Thursday via Portland air, Wyoming's oil and Nebraska's gas. Mr. Harter and family will spend the next two weeks visiting in this vicinity.

Thirty-five were present at the reunion. Those present besides the guests of honor were Mr. and Mrs. Charles Blake and family, Mrs. John Whiteside, Mr. and Mrs. Le East-ridge and family and Roy Embury of Weeping Water; Mr. and Mrs. Ches-ter and Mrs. Jack Smock and family of Myard, Neb.; Keener Price of Plattsmouth, Mr. and Mrs. Owen Harter and Mr. and Mrs. John Harter of Louisville.

Leaves Fire Trail Crossing Nebraska

Lumberyards Burn at Fremont, Lexington, Cozad and Gothenburg —Damage Is Heavy.

A firebug traveling westward over the Lincoln highway in an automobile equipped with a blazing red spotlight was being hunted in western Nebraska today after he had left a trail of fire and destruction in at least four Nebraska towns.

Lumber yard fires Monday night and early Tuesday in Lexington, Cozad and Gothenburg, causing damage estimated at 140 thousand dollars are attributed to the pyromaniac and officials are of the opinion that he also is to blame for the 75 thousand dollar fire which destroyed the Luehrs-Christensen lumber yard at Fremont Sunday night.

The first was discovered at the Sheldon & Sheldon Lumber yard at Lexington about 10:30 p. m. The fire truck from Cozad, the next town west, was called to aid in fighting

the flames and soon after the Cozad firemen arrived in Lexington, flames broke out in the Sheldon & Sheldon yards in Cozad. The loss at Lexington was about 75 thousand dollars and at Cozad 40 thousand dollars.

While firemen of the two towns, then augmented by the department from Gothenburg, combined to combat the flames at Cozad, M. D. Morris, manager of the telephone exchange at Gothenburg phoned that the Community Lumber & Supply Co., at Gothenburg was afire.

The three departments brought from Gothenburg, combined and hurried on to Gothenburg. The loss there was about 25 thousand dollars.

Morris, in the meantime, suspecting the three fires already started were the work of a firebug, telephoned an alarm to towns on further west to be on guard. Soon after the Gothenburg fire broke out, Morris learned a light auto with a brilliant red spotlight sped out of town, headed west to the pyromaniac and officials are of the opinion that he also is to blame for the 75 thousand dollar fire which destroyed the Luehrs-Christensen lumber yard at Fremont Sunday night.

More colleges are making the study of Greek and Latin optional. That is to say, they are putting them on par with English.
