More Feed With a Trench Silo.

Even though the Cass county corn and hay crops will be considerably short of normal this year, farmers can cut the corn for ensilage and get a greater financial benefit from the crop.

A trench silo costs but very little and takes but a short time to construct. It can be constructed for less than \$10.00 not including the farm labor. The corn can be cut for ensilage any time now and is good for wintering cattle. Tests made at the Agricultural College last winter, with wintering cattle on ensilage with one pound of cottonseed cake daily made an average daily gain of two pounds. The gain made by cattle fed shelled corn and alfalfa on full feed was but 2.34 pounds per day.

About eight farmers in the county constructed trench silos last year and all of them reported excellent results. Those that had dairy herds reported that the cows produced more milk during the winter and came through in better flesh and appearance than they ever did before.

A new circular on trench silos has just been published at the College of Agriculture and is now available at the Farm Bureau office.

"Making the Most of the Meal Hour"
Correct laying of the table, general rules for meal service, table etiquette, and banquet service are all discussed in the new Extension Circular number 951 prepared by Miss Florence Atwood of the Agricultural College. The circular contains illustrations on the individual covers for dinner and luncheon, and the table service for an informal dinner.

Miss Atwood lists thirteen suggestions for meal service, including the location of the table in the room; seating arrangement of host and hostess and guests; silence cloth; placing of chairs; serving of plates at table; removing dishes; and a few other suggestions on service.

Since table etiquette is so closely related to table service, a number of rules are given for its use. Use of the napkin, correct position for holding the knife and fork and use of the spoon, are a few of the things discussed under this part of the meal.

This circular is available at the Farm Bureau office, 110 S. D. Scott, Cass County Extension Agent;

ALL STARS TAKE GAME

From Monday's Daily—

The All Stars, comprising a baseball team of the residents west of the city, yesterday afternoon took the long end of an 11 to 8 score from the team known as the Business Men's team, composed of a number of the residents of this city.

The game was a strenuous exercise and the participants today are bearing the effects of the unusual exercise of an 11 to 8 score from the diamond at the Graham pasture in pursuit of the old pill that the All Stars were battling to the outfield. The business men's team had as their outfield John Sattler, Jr., L. R. Sprecher and Carl Ote, who performed in stellar fashion and Ote proved a real hitter in the struggle.

Floyd Becker did the hurling for the All Stars with Ben Speck at the receiving end of the battery, while for the Business Men, Roland Thomas started the pitching but was relieved in the third inning and Phil Hitz replaced him, while Gilbert Hitz caught the entire game for the Business Men. Hilt Martin at second served as the fielding star of the town team.

BOWEN TO PENITENTIARY

From Tuesday's Daily—

Sheriff Bert Reed who was notified Monday that William Bowen, prisoner, who was at the University hospital at Omaha, undergoing treatment, must be removed, has found a possible solution of the problem of caring for this very troublesome prisoner. The facilities at the local jail are not well suited to care for a prisoner who is in the physical condition of Bowen, making it necessary for the sheriff to devise some way of handling the prisoner. Sheriff Reed is endeavoring to have Bowen placed in the state penitentiary hospital at Lincoln where he can be cared for and also be kept under guard. The prisoner has grown very troublesome in the last week and making it impossible for his being cared for in that institution as he has a serious effect on the other patients. It was necessary last night to have a special guard supplied to look after Bowen at the hospital and his transfer to the penitentiary hospital will be made as rapidly as possible.

HAVE A GOOD GAME

Manager Alfred Gansemer of the Murray Red Sox has secured one of the fast teams in the east portion of Nebraska for the attraction at the Murray park for next Sunday. The Yutan, Nebraska, team, champions of Saunders county will be the opponents of the Sox and promise to give the fast Cass county team a real battle. The Yutan team in winning the championship have lost but two games in the season while the Sox have lost but two out of nineteen games played. This should be a game that all of the baseball fans will enjoy to the limit.
