NEW RECTOR COMING

The Rev. Father W. J. H. Petter, new rector of the St. Luke's Episcopal church is expected to arrive here Friday from the former home in Illinois and will take up the church work at once.

Father and Mrs. Petter will be guests of the Misses Mia and Barbara Gering on their arrival here and until the rectory which adjoins the church at Third and Vine street can be redecorated and arranged for the use of the family.

With the arrival of the new rector the usual program of church services will be resumed at St. Luke's church which has been without the services of a resident priest since the moving of Father Stanley P. Jones to Muscatine, Iowa.

HORNING CEMETERY NOTICE

Members of the Horning cemetery are requested to help mow and clean up the cemetery, Tuesday, Sept. 8th at 8 a. m.

J. L. STAMP,
Secretary.

Picnic Plans Completed

Final Details Worked Out at Meeting of Committees Last Night—Large Crowd Expected

Final plans for the Legion sponsored public picnic at Naeve's park next Sunday, Sept. 6th, were made at a general meeting of committee chairmen last night.

The feature of the picnic will be a fried chicken dinner at 35c per plate, and in anticipation of an unusually large patronage, an order for 100 select spring fries is being placed with local produce dealers. Vast quantities of potato salad, two bushels of beans for baking and similar large quantities of foodstuff will be required. The dinner will be served by the wives, sisters and mothers of Legionnaires, who are looking after its preparation.

A free baseball game in the afternoon between Manley and Platts. Merchants should draw a large crowd, as these two teams are very evenly matched and a hard fought contest is expected. A collection will be taken to defray part of the expenses of the players.

The Nehawka-Lewiston band will play during the afternoon and in the early evening the Plattsmouth Elks band will give a concert at the picnic grounds. The evening feature will be a dance in the park pavilion to which an admission charge of 50c per couple will be made.

Arrangements have also been made to have a large cabin plane on the grounds giving aeroplane rides during the afternoon.

No admission will be charged to the picnic grounds and the public is invited to attend. Those who wish to bring their own picnic dinners may do so. Serving of the chicken dinner will begin at 12 o'clock noon and continue until 2 p. m. Two lines of service equipment will be established, to speed up service and do away with any long waits.

Simon Clark and wife were in Omaha today where Mr. Clark was taking treatment of a specialist at that place.

Watch for the opening of The Reliable 5c to \$1.00 store. a31

Cass County Farm Bureau Notes

Copy furnished from Office of County Agent Wainscott

Grain Weevils in Wheat.

Several reports of serious damage and inquiries as to methods of control of the weevil in wheat bins, have come to the farm bureau office in the past few days. This stored-grain pest causes serious damage and can be controlled easily by the use of carbon disulphid. It is heavier than air and penetrates down through the grain, killing the insects without injury to the grain.

It has one great disadvantage, in that it is inflammable and will explode if fire in any form is brought near it. One good method of using it is to take a gas pipe with a screen over the end, work it down into the grain and pour the carbon disulphid into the pipe. This should be done in several places in the crib. The person handling the fluid should be very careful not to breathe too much of the gas. A good precaution is to have some one near by in case they are needed.

Hessian Fly Date.

Some farmers are already making preparations to put in their wheat early this fall. The results of the Hessian Fly station campaign last year was almost 100%. Why spoil all the good work by seeding early this year? Those thinking of seeding soon need only to compare the results of waiting for the fly-free date last year and the early seeding the year before when many fields in the county were cut in half by fly damage.

The approximate safe seeding date in this county is about October 1st and everyone should observe this date and see that his neighbor does also, as his early seeding will affect your fields. Volunteer wheat should be kept down so that it will not be a place for the fly to lay its eggs later on.

Treat Wheat for Smut.

Eastern Nebraska produces more smutty wheat than any other part of the United States, according to the federal grain inspectors. Cass county is no exception and this is easily cured by treating the seed with formaldehyde or copper carbonate. The latter will probably give the best results if properly done. Two cups of the dust is sufficient for one bushel of seed. The treating should be done in a closed container such as an oil can.

The formaldehyde treatment is 1 part of formaldehyde with 40 gallons of water. This is sprayed or sprinkled over 40 bushels of grain and then covered five or six hours with a blanket.

Filing Final Reports.

Many of the home economics 4-H clubs carrying summer projects have completed their work and turned in their final reports. All work should be completed and final reports turned in to the farm bureau office by Tuesday, September 15th.

Home Beautification.

Thirty-seven women's clubs are planning to carry the home beautification project this fall. The first project leader's training meeting will be held the latter part of September.

The first lesson includes some work on pictures for the home. Project club members should save any pictures which they think will be suitable for use in the home. This collection will make an interesting study for the first meeting.

A Daily Dozen for Eggs.

With eggs so plentiful and reasonable the following suggestions may prove helpful. These were taken from the monthly poultry report from the Agricultural College:

1. Cold water is best for cleaning soiled egg dishes and is also a fine egg stain remover.
2. White of egg will remove chewing gum from anything, including hair, without leaving a trace.
3. A teaspoon of water added to egg whites hastens the beating process and increases the amount.
4. Stiffly beaten egg whites added to whipped cream, doubles the quantity and improves the flavor.
5. Dishes from which milk take the place of meat in the menu, giving a new slant to the every day meals.
6. If you do not have an egg slicer, dip your knife into water before cutting hard boiled eggs, and the yolks will not crumble.
7. Egg custards ready for the oven, still uncooked, are relished by children more than baked custards, and are fully as wholesome.
8. When beating eggs separately, beat the whites first and add a little to the yolks. They will thicken more quickly and not stick to the beater as much as when beaten alone.
9. When egg yolks not needed in the same recipe with the whites, beat them and add a little water. Place in the refrigerator until some use is found for them.
10. If it is necessary to boil freshly laid eggs, allow them to lie in cold water for 10 minutes before placing in the water for boiling. They will then peel easily.
11. To clean leather chairs, wipe all dust and dirt from the leather surface, and rub with a cloth saturated with well beaten egg white. After it is dry, polish with soft cloths and the leather will look like new.
12. Well whipped egg whites furnish a substitute for cream in salad dressings and gives a fluffy quality desirable for fruit salad or the individual vegetable one. Beat with a few spoonfuls of strong mayonnaise.

D. D. Wainscott, Cass Co. Extension Agent; Jessie H. Baldwin, Assistant Co. Extension Agent.

Colored Folks are Arrested at Union Saturday

Party of Negro Men and Women of South Omaha Are Arrested for Liquor Violation

Saturday night Deputy Sheriff Rex Young and Pat Reed motored down to Union where for the past several weeks there has been complaints of parties of colored people driving around in that locality and making stands at various places where they were alleged to be relieving the thirsty and otherwise entertaining the residents of the community who felt the need of their attentions.

The trip Saturday resulted in a party of five negroes, two men and three dark hued ladies, being found along the highway just west of the Missouri Pacific tracks and where it was claimed that they had been drinking with several of the residents of the Union community.

The expedition of the colored folks who claimed South Omaha as their home, alleged to be a revival of the "cat wagon" of olden days, with the added improvement of a bar.

The officers found the car of the Omaha people parked along the road and sitting along side the car was a gallon of supposedly moonshine whisky and one of the men was holding a small glass in his hand in the car as the officers invaded their scene of activity.

The party of colored people were brought on to this city and lodged in jail, they giving the names of William Strother, William Starnes, Carrie Davis, Gertrude Bruce and Leona Barton.

A charge of possession of liquor was filed against William Starnes and a vagrancy charge preferred against the other man and the three women.

When the party were arraigned this morning in the county court before Judge A. H. Duxbury, all entered a plea of not guilty and claimed that they were passing through Union and denied all knowledge of the liquor or any other acts.

The parties all entered a plea of not guilty to the charges preferred and the hearing on the case set for Saturday morning, September 5th before Judge Duxbury. The amount of the bonds was placed at \$300 each and the prisoners remanded to the custody of the sheriff until the amount is supplied.

ENJOY PICNIC PARTY

The members of the Order of the Eastern Star with their families enjoyed a very fine picnic on Monday afternoon and while the event was originally scheduled to be held at Naeve's park near La Platte, the weather man interfered with the program and instead the event was held at the Masonic building. A few of the members of the picnic party had driven to the park in the afternoon and were caught in the first threat of the rain, but the larger number of the Stars and their families were not ready to attend and escaped the inconvenience of the rain.

The hall and banquet room of the Masonic building were transformed into a place of gaiety for the evening and here the members and the little folks of the party enjoyed games of all kinds and also partaking of the fine array of picnic dinners that had been provided and which included the ice cream and other delicacies for the young and old.

While many of the outdoor events planned were forced to be postponed it was nevertheless one of the most enjoyable social events that the O. E. S. has held in many months.

PLEAS NOT GUILTY

From Wednesday's Daily—Reports received here from Blair are to the effect that Herbert Swanson, Ralph Jacks and Morris Lloyd, former Plattsmouth young men, who were taken in custody by Washington county authorities in connection with the finding of a still, have been bound over to the district court for trial. The three men have entered a plea of not guilty and so far have not supplied the bond necessary to secure their release.

The case is the outgrowth of the discovery last week of a still on a farm in Washington county by the officers while they were searching for chicken thieves. It is claimed that Jacks and Lloyd were at the farm where the still was located and the ownership of the still was alleged to be in Herbert Swanson of Omaha, and the two other men were in his employ to operate the still.

TO LOCATE AT LINCOLN

Miss Helen Wescott departed Monday afternoon for Lincoln where she will take up her duties as secretary to Rev. Dr. Murdock, pastor of the Trinity M. E. church of that city.

Miss Wescott was engaged last year in a similar position with the pastor of one of the large Presbyterian churches at Des Moines and where her work was outstanding and won her a great deal of praise for the efficient manner in which it was conducted. The change to the Lincoln position is most pleasant to Miss Wescott as it brings her much nearer home and also gives her the opportunity of being with the many school friends at Lincoln, she being an alumn of Wesleyan university.

LADIES ARE RELEASED

From Tuesday's Daily—The three colored ladies who were arrested at Union on Saturday night, yesterday were released from custody, the vagrancy charge not being pressed and while the two men were held the three ladies were seen on their way rejoicing back to Omaha.

LOSS WILL BE HEAVY

From Wednesday's Daily—A message received here by Burlington officials this afternoon states that the loss in the complete destruction of the Burlington coach shops at Aurora, Illinois, will reach \$275,000 it is estimated. The building equipment as well as twenty-four passenger coaches, one dining car and one private car were also wiped out in the fire, it was stated.

No further information was available as to the plans of the company for the carrying on of the work of the shops.

Coach Shop of the Burlington at Aurora, Ill., Burns

Reports Received Here That Coach Structure With 25 Coaches and 2 Private Cars Burned

At an early hour this morning the coach shop of the Burlington railroad, located at Aurora, Illinois, was destroyed by fire with a loss that will reach several hundred thousand dollars.

In the shop at the time were twenty-five coaches as well as two private cars of officials which were undergoing repairs at the time.

The Aurora shop was the only shop on the system devoted to the building and repair of the passenger coaches, dining and private cars in the last two years, the passenger work formerly being divided between the local shops and the Aurora shop but was later consolidated at the Illinois town and where it has been conducted since.

The reports received here indicated that the machine shop and other departments of the plant were not destroyed but the coach department was a total loss. No cause of the fire was given.

Just what plans will be made for the handling of the passenger car work of the system is not known here as yet but the fire will place the company in a position of at least seeking temporary places for the car repair work until it will be possible to rebuild the shops which will require some time.

The local shop buildings which were formerly used by the Burlington are now being taken over by the Burlington Refrigerator Express Co., who are to use all of the buildings with the exception of the former upper coach shop and paint shop, and the machinery and the equipment of the shops used in the handling of the refrigerator work.

CHRISTIAN SCIENCE

The subject of the Lesson-Sermon read at all Christian Science churches and societies on Sunday, August 30, was "Christ Jesus." The object of the citations read was to show what is the spiritual Christ, the image and likeness of divine Spirit, or Son of God, exemplified in the works of the human Jesus. Also to show what are the good effects with mortals when they properly receive in consciousness, and live in all their acts, the true idea of God. One citation read from the Bible is as follows:

"If I do not the works of my Father, believe me not. But if I do, though ye believe not me, believe the works: that ye may know, and believe, that the Father is in me, and I in him." (John 10:37,38). One selection read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p.32), is as follows: "Christ is the true idea voicing good, the divine message from God to men speaking of the human consciousness. The Christ is incorporeal, spiritual,—yea, the divine image and likeness, dispelling the illusions of the senses; the Way, the Truth, and the Life, healing the sick and casting out evils, destroying sin, disease, and death."

The residents of the vicinity of Greenwood reported to the office of the sheriff Saturday evening that a stranger was wandering around in that locality and seemed unable to give an account of himself or his purpose in stopping at the West Cass county town. It was found after Deputy Sheriff Young had visited Greenwood that the man was a former inmate of a hospital for shell shock but he was unable to give the location of the hospital or his residence. The unfortunate man stated that his name was Schofield and that he had come from somewhere in Pennsylvania but he could not recall where. The man was brought on into this city and placed in the county jail to be cared for until some disposition could be made of his case. The man was badly in need of hospital care and to be taken in to one of the U. S. Veterans hospitals.

MISS MARIE HIBER, who has for the past several years been teaching in the schools at Omaha, returned Monday from a several months stay at Phoenix, Arizona, where she was visiting at the home of Mr. and Mrs. Herbert Rokhar, the latter formerly Miss Ann Hiber of this city. Miss Hiber was operated on some months ago at Omaha and after her release from the hospital at Omaha made the trip to Arizona to recuperate in the climate of that southwestern state. She is now feeling fine and expects to resume her teaching work at the Jackson school in Omaha next week. Miss Hiber was here yesterday for a visit at the home of her parents, Mr. and Mrs. John Hiber and the other relatives and friends.

SURFACING TRACK

The Burlington has a force of some twenty-five men, known as the surfacing gang here and who will spend some days finishing up the work on the main linestricks which were recently laid with new heavy steel rails and this crew will place the track in the best of shape for the future use of the railroad.

FROST IN TWO STATES

St. Paul—Frost that nipped vegetation was reported in parts of Minnesota and North Dakota as temperatures fell to as low as 30 degrees. A number of sections had from 22 to 35 degrees above zero.
