

**Partly Covered**

**WHEN fire attacks a home it doesn't stop burning when it has done damage equal to the amount of insurance carried.**  
If your property is only partly covered by insurance you stand to lose in case of a serious fire. Your insurance should be safe, sound, and adequate.

**ADMIT TOOK CLOTHES TO WEAR AT SCHOOL**

Chicago, Ill., Sept. 25.—Two coats from Madison, Wis., testified the nine hundred dollars' worth of clothes they picked up in Chicago stores were just to replenish their wardrobes for school days, and Judge Frederick Fairbank granted them probation today.

Miss Violet Hirke, Milwaukee, 22, and Helen Miller, 18, the latter of Pleasantville, Ia., said they attended institutions at Madison but would not return there.

**ORDER DIVIDEND PAID ON CLAIM FACING BANK**

Omaha—District Judge Hastings Monday entered an order allowing payment of a 30 per cent dividend on \$140,087 worth of claims which have been approved against the failed German bank at Millard. Both general and preferred claims are included in the order. Nov. 20 was set as the date for hearing contested claims.

**DO-X BUILDERS NAMED IN SUIT**

New York, Sept. 25.—Isaac Schafran and Jacob Thaler began suit in federal court Friday to have the German flying boat Do-X confiscated on the ground that the owners, operators and builders infringe on patents.

General Motors Corp. is named as one of the defendants. The suit, besides demanding confiscation of the giant flying boat, asks for an accounting of profits, a permanent injunction against further infringement on the patents the plaintiffs said they hold, and damages amounting to three times whatever profits the Do-X may have made.

With General Motors, the defendants named are the Dornier Co. of America, Dornier Metall Bauten G. M. B. H., Dr. Claude Dornier, Lieut. Clarence Schildhauser, U. S. N., who piloted the Do-X to New York, Capt. Wolfgang von Gronau, and all members of the crew.

The patents involve the mounting of the propellers about the wing. Schafran and Thaler state they are joint owners of the patents, issued Jan. 31, 1918, by the U. S. patent office.

The complaint asks that the Do-X and all other aircraft of the defendants in which the alleged infringement has occurred, now in this country, be turned over to the plaintiffs or destroyed.

**GUARANTEE FUND FORMED**

Paris—(Saturday)—The ministry of finance announced that a guarantee fund has been formed for the Banque Nationale de Credit and that consequently the bank is able to continue normal operations. The announcement said the situation of the bank had been examined by Finance Minister Flandin, the governor of the Bank of France and representatives of leading banks.

The Banque Nationale de Credit is one of the five largest deposit banks in France. Founded in 1913 it has a paid up capital of 318,000,000 francs (about \$12,720,000). The bank's headquarters are a large and sumptuous new building and it has forty-three branches in the Paris district.

**AIRMEN ARE FORCED DOWN**

Fairbanks, Alaska.—A heavy downpour of rain forced Cecil Allen and Don Moyle, California aviators, to land here at 4:35 p. m. five hours after they hopped off from Solomon Beach, near Nome, on a projected nonstop flight to Tacoma. The avia-

**No State Tax Under Oleomargarine Statute**

Senator Neubauser, Author, Finds That Manufacturers Use No Foreign Oil.

State Senator E. M. Neubauser of Orleans stated after a visit to the state department of agriculture and state treasurer's office that S. F. 117, introduced by him and passed by the last legislature, imposing a tax of 15 cents a pound upon imitation butter, a law that became effective Aug. 2 had produced no tax in Nebraska for the reason that manufacturers of imitation butter sold in the state are now using animal fat and home grown vegetable oil in place of palm oil or coconut oil or other oil imported from beyond the boundaries of the United States. One of the largest co-operative creameries in the country is at Orleans, the home of Senator Neubauser.

"The new law was not intended as a revenue measure but as a protective measure," said Senator Neubauser. "No tax has been received under it in Nebraska because tests made by the state department of agriculture show that manufacturers are using animal fat and home produced vegetable oils. While the law taxes imitation butter fifteen cents a pound it contains a provision defining imitation butter or oleomargarine containing more than 50 per cent of animal fat or animal oils produced in the United States and containing no imported oils or fats, for the purposes of the act, shall not be included in the term imitation butter for tax purposes. So palm or coconut oil is now found."

"Another effect of the law is a big reduction in the number of licenses issued by the state department of agriculture to retail dealers in imitation butter. Last year the number of licenses issued was 2,844. To date this year only 1,604 licenses have been issued, a reduction of 1,204 in the number of stores selling imitation butter."

Under a law different from the Nebraska law Iowa has collected from \$25,000 to \$30,000 tax on imitation butter, Senator Neubauser said he had been informed.

**3 OPERATORS JOIN IN S. D. TRUCK LAW FIGHT**

Sioux Falls, S. D., Sept. 21.—Trunk operators of Sioux City and Pipestone, Minn., joined in court proceedings Monday to declare invalid the South Dakota truck license law. The plaintiffs are C. E. Renaus, Pipestone, and the Hanford Produce Co. and Beacon Van & Storage Co. of Sioux City.

Charles M. Frouty of Alexandria, Ia., obtained a temporary injunction against the state last week.

The truckers contend the law violates the federal constitution in that it interferes with state traffic, is confiscatory, constitutes class legislation and is a discrimination against them.

**Reed Warns Sales Tax Very Important**

Pennsylvania Senator Urges U. S. to Follow Great Britain's Example and 'Face the Music.'

Washington, Sept. 25.—Senator Reed of Pennsylvania, after re-advocating to President Hoover Friday his proposal for a sales tax, said he believed the United States should follow Great Britain's example and "face the music."

Reed said he believed that unless additional money was raised by taxation the treasury's deficit would exceed \$1,500,000,000.

The republican senator called upon the president principally to congratulate him upon his address to the American Legion which, Reed said, "apparently has killed the bonus move."

"If the Legion does not bring up the bonus," he said, "I don't believe it will, ever pass congress."

Reed said he was opposed to such methods of raising funds as decreasing the salaries of congressmen and federal officials.

"To cut the pay of senators and representatives would make it a rich man's job," he asserted. "It would eliminate the poor man from public office."

The Pennsylvanian said that if the proposed sales tax of 1/4 of 1 per cent were imposed, it would mean a man with a salary of \$2,000 would pay only \$10 a year if he spent the entire sum on taxable articles.

"Surely," he said, "people must pay something toward the conduct of government."

There have been widely varying opinions of what action the government should take to meet the growing deficit. While Reed has proposed a sales tax, several other senators have suggested raising the taxes on large incomes.

Senators Watson of Indiana, the republican leader, and Harrison of Mississippi, the ranking democrat on the senate finance committee, and Representative Tilson of Connecticut, one of the house republican leaders, have opposed any tax revision at the next session.

Secretary Mellon and Undersecretary Mills have called the income tax too unstable to form a dependable base for the government's tax system and suggested some form of ex-

cise tax should be substituted. Treasury experts are canvassing all possible sources of revenue. What recommendations will be made to congress will be decided within a month or six weeks.—Omaha Bee-News.

**MAN IS KILLED, BRIDE INJURED ON HONEYMOON**

Grand Island, Neb., Sept. 25.—Stanley E. Goodwin, 27, of Wauwatosa, Wis., was killed this afternoon in an automobile collision on the Lincoln highway one mile west of Grand Island.

Mrs. Goodwin suffered minor injuries. They were on their honeymoon. A piece of glass shaped like an arrowhead penetrated Goodwin's lungs, severed an artery and caused him to bleed to death. The other automobile in the col-

lision was driven by Ernie Ewoldt, Grand Island farmer, who was cut badly also. Officers investigating the accident ordered Ewoldt to go to a hospital.

The Goodwins were eastbound. A relative, S. R. Goodwin of Lehigh, Utah, supposedly the father of the dead man, was notified.

**FREE SHIP'S OFFICERS WHO LAND RUM CARGO**

Panama, Sept. 25.—Claude Garon and Felix Legriquer, owner and master respectively of the French sloop Quand Meme, were acquitted in United States district court here Thursday of violating the prohibition law because they landed 119 cases of whisky on the dock at Cristobal in the American Canal Zone.

It was brought out the defendants consulted port officials before unloading the cargo, consigned to Colon in Panama territory.
