The Son of God Becomes Man.

John 1:1-18 Since the lessons of this quarter are all in the Gospel of St. John, a biographical sketch of the writer might be helpful. John was the son of Zebedee and Salome, a sister of Mary the mother of Jesus, therefore a cousin of Jesus. John's parents were well-to-do people, they had hired servants, by occupation fishermen. James and John are often alluded to as the "Sons of Zebedee," and the "sons of thunder." John was the youngest of the Apostles, but outlived them all, he alone of all the twelve, died a natural death. About his writing, Dr. Philip Schaff declares: "The Gospel of John is the most original, the most important, the most influential book in all literature. It is simple as a child and sublime as a seraph, gentle as a lamb and bold as an eagle, deep as the sea and high as the heavens. John wrote his Gospel late in the first century, possibly at Ephesus. He writes often of what he has seen and heard." Writing a long time after the other Gospels had been written, he supplements the other writers with many occurrences in the life of Jesus. The prologue of the Gospel John 1:1-18 constitute the norm and outline of the whole book. The motto for St. John could only be the four most marvelous and epoch-making words ever written: "The word became flesh."

Jesus Christ, "by whom are all things." (1 Cor. 8:6). "By whom also He made the worlds." (Heb. 1:2). These things saith the "Amen," the faithful and true witness, the beginning of the creation of God." (Rev. 3:14). Jesus is the true Light, or Instructor. He was this even before His incarnation, instructing man through reason, through conscience, and through prophecy. But people whose minds were darkened by sin, did not understand or obey the instruction of the Word. Now comes John the Baptist, the forerunner of Jesus, whose mission was to point man to Jesus, the Son of God. John the Baptist is the first witness for Jesus, that the true light shines among all races and enlightened every man, whether Jew or Gentile. There is some truth in every religion. John was not that light, but reflected that light. "The world knew Him not," in His day, and millions who live by the blessings He so generously showers upon them, know Him not, i. e., they ignore Him, and treat Him as if He did not exist. Some day all eyes shall see Him and acknowledge that He is King of Kings and Lord of Lords. But what a blessedness to them that receive Him! They receive power, the privilege to become the sons of God. As sons of God, they become heirs with Christ. The divine sonship has no human origin. It is a free and supernatural gift from God, inward and spiritual, implanted by the Holy Spirit, and dependent for its maintenance on union with Christ. (See chap. 3:5-8. "And the word became flesh" verse 14. This coming in the flesh is the advent fact. It is the regeneration of our race. There is a new creation. There is a second Adam. "Christ is a man—therefore we can get to Him. He is God—therefore when we are in Him the shield of His omnipotence is our defense," says William F. Taylor. Who can describe the glory of "the only begotten"? The preface is concluded in verses 15-18. Moses set before us mere commands, without changing our nature, or giving us power to obey them. Jesus Christ came to change our nature. No man hath seen God," neither has anyone seen gravitation, heat, electricity or magnetism. No force is visible to the naked eye. God is the supreme force in the universe, but Jesus says: "He that hath seen me hath seen the Father." (John 14:9).

California is Suffering from a Big Snowfall One of Worst Storms Experienced in Years Hits—Train and Airplane Service Halts. San Francisco—One of the heaviest rain and snow storms in years left some parts of California flooded and snow bound Monday while train and airplane service over the Sierras came to a standstill. The storm was felt to some degree over nearly all the Pacific slope. An aerial survey of the Pajaro river valley showed 5,000 acres of agricultural land inundated. The town of Pajaro was flooded to a depth ranging from six inches to three feet. At Norden, Calif., a point on the Sierra summit, 46 inches of snow fell, bringing the depth of the white blanket there to 181 inches. Watsonville, Calif., was flooded with about a foot of water. Some residential blocks in Pajaro were inundated. At San Luis Obispo, Calif., four and one-half inches of rain fell Sunday and flooding lowlands. Paso Robles also was partly flooded. Avalanches of snow, rocks and dirt at Eder, ten miles from Truckee, and another near Cisco, tore out several hundred feet of Southern Pacific railroad tracks. Snow sheds stopping road on both sides of the snow buried Sierra.—State Journal.

BRIGHT SIGNS ARE SEEN Chicago—Leaders in several of America's major industries considered the outlook for 1932 and pronounced it good. The future of electric power production, banking, and oil production was looked upon as the best in several years. In addition, three economists declared in year-end statements that the trend of business may be slow, but it will be upward. New economies and efficiencies brought out of the necessities of depression have placed banking in general in a strong position, it was said by Morris A. Schapiro of Monahan Schapiro & Co., New York. He pointed out that consolidations, together with closing of poorly managed banks, regrettable in themselves, have improved the nation's financial structure. Oil producers have worked out their own problems in 1931. T. S. Henshaw, consultant of the petroleum exchange, said, and left the industry standing squarely on its own feet. He referred to emergency methods used to curb production. The industry also was helped, he said, by failure of fields in Texas and Oklahoma to produce up to expectations. The electrical industry was said by Harry Reid, president of the National Electric Power company and National Public Service corporation, to have moved steadily ahead in the past year.

NOTICE OF CHURCH BOARD ACTION Pursuant with the action taken by the official board of the Methodist church at the December meeting of that executive body, the general public, members of the congregation and the various organizations of the church are herewith notified that the Sunday evening services are to be discontinued for the months of January and February as a matter of economy and curtailment of expense. This does not, however, effect in anyway the Epworth League service which will be held as usual. It is hoped all may concentrate their efforts to make the Sunday morning service of much greater influence and power. All will kindly take notice of this change in services.
