The above tax figures are from the official records made up by the state tax commissioner and county clerks. Look at the saving from your county and ask your county treasurer whether it is correct. Nebraska is the only state in the Union and Governor Bryan is the only Governor who has forced the profiteers and spenders to reduce state tax levies.

Governor Bryan needs your help in the primary election to still further reduce your taxes and he wants your help to help him repeal the Intangible Tax law and secure a state income tax law by which state taxes on farms can be reduced 15%.
